DRIVE WHEELS DAMAGED

The delayed express service caused by the government's taking the express cars from the trains on the main line, is working a hardship on the moving picture men here, as it interferes with the picture schedules advertised.

Manager J. V. Houston announces that his pictures will probably be temporarily put one day later than they are advertised, although owing to the uncertainty of the conditions it is impossible to make any definite statement.

It is now probable that Marguerite Clark, who was advertised for the Star theater tonight, will not get in before tomorrow night.
