

Point of Collision in Halifax Narrows and the Devastated Part of City

The star in the narrow in the above map shows where the Mont Blanc blew up. The shaded part of the map shows that part of the city which was devastated by the explosion and the fires which followed.

Much Interest In New Varsity Course

EUGENE, Jan. 8.—More than fifty new students were registered at the University of Oregon in the first day of the new year, and the number was steadily increasing. Most of the students are expected to return for this semester.

Besides the military course under Colonel Leader of the British army, who takes up his work as head of the ordnance and drill work, there will be a special lecture course by Colonel Leader covering field engineering, military topography, mapping, map reading, construction of trench systems, barbed wire entanglements, trench, frame and pile bridge building, road making and railway work.

Other instructors in the military department at the state university will teach mathematics, zoology and medical training, economic geography, general chemistry, electricity and magnetism, sound and light pho-

tography and other studies pertaining to war work.

The faculty of the university passed a resolution stating that the members consider themselves at the service of Colonel Leader in furthering his duties.

At the first assembly of the male students in the military science course Colonel Leader gave the men a straight forward talk on the necessity of remaining at their duties until called upon to act as officers, telling them how the British government woke up to find that the college men who should have been training to be leaders had gone to the front and been killed when they were needed for officers. He also pointed out the need of discipline and morale, telling now thousands of Canadians sacrificed themselves by disobeying their officers and trying to rush the German trenches. They were caught by their own barrage fire and mowed down by thousands.

VEILS LIKE SKIRTS WERE GETTING SHORT

EASTERN LADIES, LIKE WESTERN COUNTRIES, SHOW INCLINATION TO DISPLAY MORE OF THEIR CHARMS

PETROGRAD, Jan. 8.—The Mohammedan Tartar men of Tchistopol district, province of Kazan, have ordered their wives and daughters to sew half a square foot of extra material to the handkerchiefs with which they cover their heads. The women long ago ceased to veil; but when meeting unknown men they took a tab of the bow formed by tying handkerchiefs beneath the chin, and held the tab before the face in place of a veil. Unluckily, as the handkerchiefs with the passing of time grew smaller, the tabs ceased to cover the face, and the act became only a symbol. To make it again a reality, husbands and fathers are insisting on bigger handkerchiefs.

Tobacco Shortage Exists In France

PARIS, Jan. 8.—French tobacco and cigarettes are now obtainable in Paris only once each week, and even then during the space of but about thirty minutes. During that half an hour the tobacconists shops present about the same appearance as did the

coal and wood yards during the fuel famine last winter.

It takes from three to half a dozen policemen for each shop to keep waiting smokers orderly while the weekly supply is being dealt out, and to pacify those still in line when the "no more tobacco" sign is hung out.

Teutons Make Most of Dozen Americans Taken

AMSTERDAM, Jan. 8.—A handful of captured American soldiers under cross-questioning by German officers before a crowd of grinning Teutons was featured in the latest issue of "World in Pictures," an illustrated weekly printed in ten languages and distributed thruout the world by the

German government's propaganda department. Another picture shows the prisoners riding in a motor lorry under heavy guard. This is entitled "American prisoners arriving in the German lines," giving the impression that the twelve are only a small section of a large number.

City Boys Prove Fit For Service

WASHINGTON, D. C., Jan. 8.—Common belief that country boys are superior physically to those bred in the city is not supported by the records of the selective draft.

A special comparison made by the provost marshal general's office between ten cities and ten rural counties in various parts of the country show that the result was virtually a

tie, as 28.47 per cent of the city boys were rejected, as against 27.96 per cent of the country boys.

"The country lad," says General Crowder's report, "accustomed to hard physical labor, may be more muscular than his city cousin, but he is not superior in the possession of the degree of physical soundness essential to his acceptance as a soldier."

CHICAGO SWEEP BY BLIZZARD

LARGEST STORM IN YEARS HURLED WINDY CITY IN SNOW DRIFTS—MERCURY DROPS TO NINETEEN BELOW

CHICAGO, Jan. 8.—This city today is busy digging itself from the snow drifts after one of the worst blizzards in its history.

The temperature is nineteen below and the wind forty to sixty miles per hour.

Traffic is paralyzed, and many have been injured in collisions.

AIRMEN KILLED IN FRANCE

WASHINGTON, D. C., Jan. 8.—The deaths of Lieutenant William S. Ely and Sergeant George E. E. Houdek in an airplane accident in France are reported by Pershing. Ely lived in Rochester, N. Y., and Houdek in Chicago.

Chicote can save you money on houses, lots, business property, farms and ranches. He has an exclusive list of desirable property at very low prices. Better investigate. 17

EVERYTHING TO EAT BUT FOOD

ASTOUNDING NUMBER OF FOOD SUBSTITUTES USED IN GERMANY—MANY WILL OUTLIVE THE WAR

AMSTERDAM, Jan. 8.—Ten thousand substitute food articles have been introduced into Germany since the war, according to a statement made in the Berlin newspapers by Professor Juckensack, a prominent German food expert.

He mentions as the most striking examples of successful substitution the following: Artificial butter, eggs, salad oil, honey, milk, coffee, tea, sugar, tobacco, fish, sausage, cheese and caviar. Some of the substitutes are directly harmful, but others are so good that they will outlive the war and become regular articles of consumption, he asserts.

POSTAL THING CAPTURED

TACOMA, Jan. 8.—John Johnson, captured at Kelo, has confessed to robbing the Cleotum postoffice, on Christmas eve, in company with two other men.

Belgian King Watching the Course of Battle

Albert, king of Belgium, is still the fighting king of the war in Europe. He spends more time with his troops on the battle line than any other ruler, and this photograph shows a staff officer pointing out to him the maneuvers of a battle.

NOTICE
The firm of Ward & Obenchain having retired from business, all those who are indebted to the firm are requested to settle their accounts at once, in order that the business may be closed up without delay. The books and accounts are at the Winack Co. store, in charge of Otto Heidrick. Please call at once.

RESULTS WILL STARTLE KLAMATH FALLS

People report quick results from pure Lavoptik eye wash. A girl with weak, strained eyes was helped by ONE application. Her mother could not see or read because of eye pains. In one week her trouble was gone. A small bottle of Lavoptik is guaranteed to help EVERY CASE weak, strained or inflamed eyes. ONE WASH starts with its quick results. Aluminum eye cup FREE. Whitman Drug Co.—Adv.

QUIT MEAT WHEN KIDNEYS BOTHER

TAKE A GLASS OF SALTS IF YOUR BACK HURTS OR BLADDER TROUBLES YOU

No man or woman who eats meat regular can make a mistake by flushing the kidneys occasionally, says a well known authority. Meat forms uric acid which excites the kidneys. They become over worked from the strain, get sluggish and fail to filter the waste and poisons from the blood, then we get sick. Nearly all rheumatism, headaches, liver trouble, nervousness, dizziness, sleeplessness and urinary disorders come from sluggish kidneys.

The moment you feel a dull ache in the kidneys or your back hurts or if the urine is cloudy, offensive, full of sediment, irregular of passage or attended by a sensation of scalding, stop eating meat and get about four ounces of Jad Salts from any pharmacy; take a tablespoonful in a glass of water before breakfast, and in a few days your kidneys will act fine. This famous salts is made from the acid of grapes and lemon juice, combined with bicarbonate, and has been used for generations to flush and stimulate the kidneys, also to neutralize the acids in uric acid so no longer causes irritation, thus ending bladder weakness.

Jad Salts is inexpensive and cannot injure; makes a delightful effervescent lithic water drink which everyone should take now and then to keep the kidneys clean and active and the blood pure, thereby avoiding serious kidney complications.—Adv.

Look and Feel Clean, Sweet and Fresh Every Day

Drink a glass of real hot water before breakfast to wash out poisons.

Life is not merely to live, but to live well, eat well, digest well, work well, sleep well, look well. What a glorious condition to attain, and yet how very easy it is if one will only adopt the morning lactic bath.

Folks who are accustomed to feel dull and heavy when they arise, splitting headache, stuffy from a cold, foul tongue, nasty breath, acid stomach, can, instead, feel as fresh as a daisy by opening the sluices of the system each morning and flushing out the whole of the internal poisonous stagnant matter.

Everyone, whether ailing, sick or well, should, each morning, before breakfast, drink a glass of real hot water with a teaspoonful of limestone phosphate in it to wash from the stomach, liver, kidneys and bowels the previous day's indigestible waste, sour bile and poisonous toxins; thus cleansing, sweetening and purifying the entire alimentary canal before putting more food into the stomach. The action of hot water and limestone phosphate on an empty stomach is wonderfully invigorating. It cleans out all the sour fermentations, gases, waste and acidity and gives one a splendid appetite for breakfast. While you are enjoying your breakfast the water and phosphate is quietly extracting a large volume of water from the blood and setting ready for a thorough flushing of the inside organs.

The millions of people who are bothered with indigestion, bilious spells, stomach trouble, rheumatism; others who have swollen skins, blood disorders and other conditions are urged to get a quarter pound of limestone phosphate from the drug store, which will cost very little, but is sufficient to make anyone a pronounced crank on the subject of internal sanitation.—Adv.

EXACTNESS

All of our prescription work is handled by graduate pharmacists—men who have been especially trained to take care of your prescriptions.

Our work is handled in the most skillful manner, checking and double-checking each operation which is your absolute assurance against the possibility of error.

There is no extra charge for our extra particular prescription service. Bring your next prescription to us and make sure that it is compounded just as the doctor desires.

NOSE CLOGGED FROM A COLD OR CATARRH

Apply Cream in Nostrils To Open Up Air Passages.

Ah! What relief! Your clogged nostrils open right up, the air passages of your head are clear and you can breathe freely. No more hawking, snuffing, mucous discharge, headache, dryness—no struggling for breath at night—your cold or catarrh is gone.

Don't stay stuffed up! Get a small bottle of Ely's Cream Balm from your druggist now. Apply a little of this fragrant, antiseptic cream in your nostrils, let it penetrate through every air passage of the head; soothe and heal the swollen, inflamed mucous membranes, giving you instant relief. Ely's Cream Balm is just what every cold and catarrh sufferer has been seeking. It's just splendid.—Adv.

The Best of All

"I've been admiring your wedding gifts, and am so glad that your friends were so thoughtful as to remember the electrical devices.

"How I would have enjoyed them twenty years ago. Any how, it is pleasant to feel that you'll enjoy them, and you'll find this

ELECTRIC RANGE

the best of all—so practical and convenient—I think I will get one myself." If you are so disposed, give us a call.
