Hello! Is this Dearest Public? This is McHattan talking to you. Listen, I want to put a bug in your little sun-burned ear:

We got a lot of new ticks, and we put 'em in watches and clocks. If you want something done in a hurry we are prepared to do it for you "right now."

If Mr. Monroe can't fix it, it ain't to be fixed. He also does beautiful engraving on ivory and silver, and anything you want engraved.

We can reset your diamond while you wait. We have a big stock of various colored stones, so if you want any matched we can do it.

If your jewelry is on the bum we can fix it. Sometimes I feel like calling you a little "woodland pussy," 'cause when I have told and told you that I want to sell this stuff and leave town you just hang around and don't buy as fast as you should, as I am in a hurry. We have lots of beautiful things in our various lines, at prices that are advantageous.

Hurry to my aid. Don't forget the number: 605 Main street.

Moving Pictures

The reproduction of the famous Aztec pyramid of Teocalli, as seen in "The Woman God Forgot," is the largest setting ever built for a photodramatic production, the pyramid being nearly 300 feet in height, and an exact reproduction, in every detail, of the famous temple to the Aztec gods. Over 1,000 men took part in the thrilling battle scenes and the effects of the first few cannon and gunpowder are graphically shown. At the Star tonight.

Better Care Needed For Rural Born Babies

WASHINGTON, D. C., Jan. 12.—

Rural districts must have nursing services, the children's bureau finds, if infant mortality in remote regions is to be reduced and human life conserved at this time, when the nation's human resources are being wasted by war. Results of the bureau's first detailed study of the care available for babies and mothers in rural communities were made public today, showing that one infant in every twenty-five of the section observed failed to survive, or that 4 per cent of all children die before they reach the age of twelve months.

The bureau's first survey was completed in a prosperous county of

southern Kansas, bordering on Oklahoma. Similar studies are in progress in Wisconsin and North Carolina. The population in the Kansas county is widely scattered, but no home is more than twenty miles from a doctor, and telephones and good roads minimize the disadvantages of great distances.

In spite of these favorable circumstances, the report records that two-thirds of the mothers had no medical care before their children were born, and more than one-third had no visit from a physician after the day of birth. Four-fifths of the wives of farmers had to work for large farm crews at the time when they specially needed to conserve all their strength.

A Cozy Evening at Home

Is certainly to be enjoyed, and these cool nights make us realize that solid home comfort isn't so bad, after all.

Music is a necessity in every successful home circle, and especially so during the stress of a great world war.

The United States Government decided that pianos should bear no war tax, because they are a necessity, and that the cheering, refining and educating influence of music places it close to those great essentials, SHELTER, FOOD and CLOTHING. Our reasonable prices and convenient terms make the purchase of a musical instrument a real pleasure, not a sacrifice.
