Herald's Classified Advs.

NOTICE TO SUBSCRIBERS

Carrier boys will call on all subscribers in the city who have not paid their subscriptions in advance, on the first Saturday of each month to collect. Subscribers are kindly requested to arrange to have the money ready for the boys when they call, as each carrier has from 100 to 150 people to call upon.

It will be necessary to discontinue all subscriptions not paid for by the 15th of the month, unless special arrangements are made at the office. Prompt payments of subscriptions will be of great assistance to the carrier boys, as all are attending school during the week.

FOR RENT

FOR RENT—Storage room, convenient location; terms reasonable. Apply J. B. Herald office. 15-42

FOR SALE

FOR SALE—A Ford. 213 Main street. 25-104

MISCELLANEOUS

TO EXCHANGE—Lot for car. 450 Michigan avenue. 26-54

WANTED—Children; pay 15c lb., f. o. b. Malla, A. Kallia. 25-51

TO EXCHANGE—Lot on Pine street, near First, to exchange for good car or stock. Address 450 Michigan ave. 26-54

ORPHEUS THEATER

TONIGHT Ethel Clayton in "YANKEE FLUCK" with Montagu Love

See this feature at this theater, and see the startling development and climax of this story.

Travelers record for 1917 shows more than \$100,000,000 of new life business. The new low cost policies did it. See Chiloquin.

RESULTS WILL STARTLE KLAMATH FALLS

People report quick results from pure Lavoptik eye wash. A girl with weak, strained eyes was helped by ONE application. Her mother could not see or read because of eye pains. In one week her trouble was gone. A small bottle of Lavoptik is guaranteed to help EVERY CASE weak, strained or inflamed eyes. ONE WASH starts her on the road to recovery. Aluminum eye wash. Whitman Drug Co.—Adv.

8-HOUR DAY IS BELIEVED IMPENDING

MANUFACTURERS FEAR RESULTS OF EXPECTED ORDER FROM PRESIDENT CREATING EIGHT-HOUR DAY FOR LUMBERMEN OF NORTHWEST

WASHINGTON, D. C., Jan. 29.—A presidential order placing the Northwest lumber industry on an eight-hour day basis is believed imminent. Senator Chamberlain, after consulting Secretary Wilson of the department of labor, and making a protest, feels that the secretary considers the order necessary, and that the president will act, despite a protest from the lumber interests.

PORTLAND, Jan. 29.—"Such an order, if issued, would be unfair and unjust to the lumber industry in the Northwest," is the general expression of the representative lumber operators, who discussed the possibility of an executive order from President Wilson establishing the eight-hour day.

"But," said one of the leading operators, who also is doing much to aid the government lumber program in the Northwest, "if President Wilson issues such an order, we will have to observe it."

"To comply, however, will mean a reduction of 20 per cent in the output both from the woods and the mills. A corresponding decrease in output may be expected in providing ships' timbers and airplane stock.

"The Northwest lumber industry is paying now the highest wages in its history; is paying the highest wages received by labor in the lumber industry in the world.

"In other sections, the South, for instance, labor receives less and works as much as an 11-hour day.

"Our labor is better satisfied than it ever was, and is more inspired with the patriotic necessity of a maximum lumber output."

CONSPIRATORS MUST GO TO PRISON

WASHINGTON, Jan. 30.—Emma Goldman and Alexander Berkman, convicted of conspiracy to interfere with the operation of the selective draft law, must go to prison, the Supreme Court directing that the mandate providing for the execution of the sentence should be issued forthwith.

Klamath Lodge No. 137, I. O. O. F., meets Friday night. H. F. Esell, N. G., Nate Otterbein, Secretary. Ewauna Encampment No. 46, I. O. O. F., meets Tuesday night. W. A. Masten, C. P., Nate Otterbein Scribe.

New Scheme For Power In England

LONDON, Jan. 15.—(Correspondence of the Associated Press)—To effect a saving in coal and its by-products, officially estimated at 100,000,000 pounds a year, the British ministry of reconstruction has approved a scheme for supplying all the industries in Great Britain with cheap electric power, generated at big "super-power stations," not more than sixteen for the whole of the country. The scheme is one of the most ambitious that has yet been worked out to enable the country to recover from the economic losses of the war. Its details are given in a report from the coal conservation committee of the ministry of reconstruction. The amount of coal used to produce industrial power in the United Kingdom is about 80,000,000 tons yearly. The new project, it is claimed, would enable the same amount of power to be produced with an expenditure of only 25,000,000 tons, and the 55,000,000 tons saved would represent not only economy in mining, but also a gigantic economy in transport. The committee, however, does not believe that the change will mean the mining of less coal, but rather that Great Britain will enormously increase its amount of industrial horsepower, and the extent to which this can be raised, it is explained, is one of the main conditions necessary for a general rise in national standards of life.

U. S. Wire Lines Now Cover French Domain

WITH THE AMERICAN ARMY IN FRANCE, Jan. 15.—(Correspondence of the Associated Press)—Correct time soon will be transmitted to the entire American expeditionary force over its own system of telegraph lines. At present wireless stations each day at a certain hour pick from the air figures flashed from Paris by which the clocks of the army are synchronized. This method does not insure absolute accuracy.

When the last links of the telegraph system are connected, each day at 11 o'clock a simultaneous signal will be sent to every station, so that thru the existing some and, later on, at the front as well, clocks and watches will show the same time. This synchronization is desirable under present conditions, and it is an absolute necessity with troops at the front when, for instance, orders may specify that some operation is to be carried out at one point at a certain time and another operation at another point at another time. The success of both operations may depend upon them being launched virtually on the second.

Miles upon miles of telegraph lines are strung on poles labeled "U. S. A." now stretch thru France. They may be found running to base ports, zig-zagging thru the instruction zone over the hills, thru a valley, along a roadside. On some of the poles there are double crossbones, supporting in many cases as many as ten wires. There is a complete system of operators and control exchanges, as well as a considerable force of linemen and repair men, quite a number of whom worked for telephone and telegraph companies in the United States before the war. The "service" leaves little if anything to be desired.

Middle Aged Men Are Preparing for Combat

SAN FRANCISCO, Jan. 30.—Reports from all parts of the country show an unprecedented number of middle aged men who are members of regular athletic clubs, enrolled in the physical culture classes. This is described as being directly due to the war. Men who in the past have given little or no attention to the matter of regular exercise, now are regular attendants at the two or three times a week classes which are being held in the larger athletic organizations of the country. Practically all these men are drilling with the home guards organizations or are fitting themselves for these organizations in the event that their services are required.

Bend Bachelor Marries For Money

BEND, Jan. 30.—Thomas Gordon, who recently advertised for a wife on the impetus that as soon as he could display a marriage license he would receive \$150,000 from a relative in Europe, is now in line for the money. He was married Wednesday afternoon to Mrs. Della Morris of this city by Rev. G. E. Williams of the Christian church. Both participants are 40 years of age. A contract was signed by which the couple would go 50-50. Should any disagreement arise the wife will have a right to half the fortune. E. P. Jeck, Mrs. Jeck and Francis Morris acted as witnesses. So far as is now known the couple will make their home in Bend. A copy of the marriage license has been sent to Europe, and the arrival of the money is expected at an early date.

Uncle Sam Is Now Making Much Money

PHILADELPHIA, Jan. 30.—Uncle Sam's largest money factory, the Philadelphia mint, is working these days as it never worked before in the history of the country. This is in the natural order of things, because the war has created unprecedented demand for coins of all denominations. No gold is being minted at present, but halves, quarters, dimes, nickels and pennies are being turned out by the million. A double force of workmen keep the mint going sixteen hours a day, and more men are employed now than ever before.

From Shell to Whale Boat

The upper cut shows members of the United States Naval Corps preparing on shore for duty at sea. The lower cut shows some of the same men before they enlisted in the Marine Corps as members of the University of Minnesota rowing crew. To handle a whale boat under fire is a harder stunt than winning a college boat race, but college training has been a great help to many young men who enlisted in the corps.

GERMAN GETS AN EASY JOB

WE PREDICT THAT THIS MAN WILL HAVE A SOFT SNAP FOR SOME TIME TO COME—WILL "GOVERN" AT LONG DISTANCE

AMSTERDAM, Jan. 30.—The German emperor has appointed Privy Councillor Haber to be governor of the German colony of New Guinea. The Cologne Volk Zeitung explains: "It may sound curious that a governor should be appointed to a region which we have lost during the war, but the fact is thus clearly emphasized that Germany has no intention of renouncing her colonies."

Travelers accident and health premiums for 1917 amounted to nearly \$6,000,000. Fair treatment of policy holders has made this possible. Ask Chilcote.

SAGE TEA TURNS GRAY HAIR DARK

IT'S GRANDMOTHER'S RECIPE TO BRING BACK COLOR AND LUSTRE TO HAIR That beautiful, even shade of dark, glossy hair can only be had by brewing a mixture of Sage Tea and Sulphur. Your hair is your charm. It

makes or mars the face. When it fades, turns gray or streaked, just an application or two of Sage and Sulphur enhances its appearance a hundred fold.

Don't bother to prepare the mixture; you can get this famous old recipe improved by the addition of other ingredients for 50 cents a large bottle, all ready for use. It is called Wyeth's Sage and Sulphur Compound. This can always be depended upon to bring back the natural color and lustre of your hair.

Everybody uses "Wyeth's" Sage and Sulphur Compound now because it darkens so naturally and evenly that nobody can tell it has been applied. You simply dampen a sponge or soft brush with it and draw this through the hair, taking one small strand at a time; by morning the gray hair has disappeared, and after another application it becomes beautifully dark and appears glossy and lustrous. This ready-to-use preparation is a delightful toilet requisite for those who desire dark hair and a youthful appearance. It is not intended for the cure, mitigation or prevention of disease.—Adv.

MEAT INJURIOUS TO THE KIDNEYS

TAKE A TABLESPOONFUL OF SALTS IF BACK HURTS OR BLADDER TROUBLES

We are a nation of meat eaters and our blood is filled with uric acid, says a well known authority, who warns us to be constantly on guard against kidney trouble. The kidneys do their utmost to free the blood of this irritating acid, but become weak from the overwork; they get sluggish; the eliminative tissues clog and thus the waste is retained in the blood to poison the entire system, like lumps of lead, and you have stinging pains in the back or the urine is cloudy, full of sediment, or the bladder

is irritable, obliging you to seek relief during the night; when you have severe headaches, nervous and dizzy spells, sleeplessness, acid stomach or rheumatism in bad weather, get from your pharmacist about four ounces of Jad Salts; take a tablespoonful in a glass of water before breakfast each morning and in a few days your kidneys will act fine. This famous salt is made from the acid of grapes and lemon juice, combined with lithia, and has been used for generations to flush and stimulate clogged kidneys, to neutralize the acids in urine so it is no longer a source of irritation, thus ending urinary and bladder disorders. Jad Salts is inexpensive and cannot injure; makes a delightful effervescent lithia water drink, and nobody can make a mistake by taking a little occasionally to keep the kidneys clean and active.—Adv.
