"Soldiers of the Sea" Wearing Gas Masks in France

(C) by Committee on Public Information.

These "soldiers of the sea," which is one name by which United States Marines are known, are here shown in a practice trench in France wearing their gas masks while they practice with hand grenades. By this time some of these boys may be hurling their grenades at real Germans in opposing trenches.

Suggestions For New Hoover Diet

CORVALLIS, Feb. 5.—To help perplexed housewives out of the difficulties imposed by the latest edict of the food administration, Dean Milam of the home economics department of the Oregon Agricultural College has offered several suggestions.

"The new order stipulates that the housewives must purchase with every order of flour a certain amount of flour substitutes," said Dean Milam, "and of course they will want to use them all to the best advantage. But they are not called upon to use them all in bread making, and so may use part as cereals and in puddings.

"Corn meal, rolled oats and oat meal, barley flour and rice and potato flour may be used in yeast bread as substitutes for one-fourth to one-third of the wheat flour. The rolled oats especially make an excellent bread. Bread with any of these substitutes is made precisely as bread without them.

"The use of substitutes as cereals and breakfast foods makes a pleasant change in the menu. By mixing dried prunes, slightly cooked and seeded, with the cooking barley, breakfast food or other cereals, a delightful breakfast dish is obtained. Corn starch may be used to thicken gravies and soups. A good cheese pudding is made by using layers of sliced corn meal mush instead of slices of bread."

Nickle Thrift Stamps Used In Los Angeles

LOS ANGELES, Feb. 5.—School thrift stamps, in denominations of 5 cents each, have helped the students of Sentous intermediate school here to acquire full cards of United States thrift stamps without investing a whole quarter at a time, which the teachers said was a financial feat beyond the ability of many pupils.

The new system, installed by Principal R. A. Thompson of Sentous school, is an adjunct to the federal thrift plan, and run on the same plan.

The school printed small folders, prepared in its own print shop, with spaces for five stamps; it also printed stamps, in red and white, bearing the words "Sentous Thrift Stamp, 5 cents," and having a liberty cap as an ornamental feature. These stamps were placed on sale at the school cafeteria, candy counter, book store and other departments where pupils congregate, and it was soon found that they were in great demand.

"We found that the students would save a nickel from their spending money, or omit a dessert, or perhaps walk home from school and buy a stamp with the savings," said Mr. Thompson, "while they wouldn't save the cash from day to day until they could buy a regular thrift stamp. When they get five of these stamps, we exchange them for a federal thrift stamp, and the number of thrift cards in the school is increasing at a gratifying rate."

COAL SHIPMENT RUSHED DURING FORCED HOLIDAYS

WASHINGTON, D. C., Feb. 5.—Railways Saturday received instructions from the railroad administration to take every advantage of the usual Sunday industrial shutdown and the forced suspension Monday under the fuel economy order, to move coal to the big consuming centers, in order to accumulate small reserves against possible emergencies. If the railroad situation then improves the Monday closing order probably will be revoked.

Railroad administration officials had under consideration the imposition of other embargoes than those now in effect officially on three Eastern trunk lines, as substitute measures for the fuel economy order.

Some further restrictions on acceptance of general freight may be made, it was intimated, altho the principal determining factor will be the weather in the next few days.

An Inside Bath Makes You Look and Feel Fresh

Says a glass of hot water with phosphate before breakfast keeps illness away.

This excellent, common-sense health measure being adopted by millions.

Physicians the world over recommend the inside bath, claiming this is of vastly more importance than outside cleanliness, because the skin pores do not absorb impurities into the blood causing ill health, while the pores in the ten yards of bowels do.

Men and women are urged to drink each morning, before breakfast, a glass of hot water with a teaspoonful of limestone phosphate in it, as a harmless means of helping to wash from the stomach, liver, kidneys and bowels the previous day's indigestible material, poisons, sour bile and toxins; thus cleansing, sweetening and purifying the entire alimentary canal before putting more food into the stomach.

Just as soap and hot water cleanse and freshen the skin, so hot water and limestone phosphate act on the eliminative organs.

Those who get up with a bad breath coated tongue, nasty taste or have a dull, aching head, sallow complexion, acid stomach; others who are subject to bilious attacks or constipation, should obtain a quarter pound of lime stone phosphate at the drug store. This will cost very little, but is sufficient to demonstrate the value of inside bathing. Those who continue it each morning are assured of pronounced results, both in regard to health and appearance.—Adv.

BIG EATERS GET KIDNEY TROUBLES

TAKE SALTS AT FIRST SIGN OF BLADDER IRRITATION OR BACKACHE

The American men and women must guard constantly against kidney trouble, because we eat too much and all our food is rich. Our blood is filled uric acid which the kidneys strive to filter out, they weaken from overwork, become sluggish; the eliminative tissues clog and the result is kidney trouble, bladder weakness and a general decline in health.

When your kidneys feel like lumps of lead; your back hurts or the urine is cloudy, full of sediment or you are obliged to seek relief two or three times during the night; if you suffer with sick headache or dizzy, nervous spells, acid stomach, or you have rheumatism when the weather is bad, get from your pharmacist about four ounces of Jad Salts; take a tablespoonful in a glass of water before breakfast for a few days and your kidneys will then act fine. This famous salts is made from the acid of grapes and lemon juice, combined with lithia, and has been used for generations to flush and stimulate clogged kidneys; to neutralize the acids in the urine so it no longer is a source of irritation, thus ending bladder troubles.

Jad Salts is inexpensive; cannot injure, makes a delightful effervescent lithia water beverage, and belongs in every home, because nobody can make a mistake by having a good kidney flushing any time.—Adv.

OPEN NOSTRILS! END A COLD OR CATARRH
How To Get Relief When Head and Nose are Stuffed Up.

Count fifty. Your cold in head or catarrh disappears. Your clogged nostrils will open, the air passages of your head will clear and you can breathe freely. No more snuffing, hawking, mucous discharge, dryness or headache; no struggling for for breath at night.

Get a small bottle of Ely's Cream Balm from your druggist and apply a little of this fragrant artiseptic cream in your nostrils. It penetrates through every air passage of the head, soothing and healing the swollen or inflamed mucous membrane, giving you instant relief. Head colds and catarrh yield like magic. Don't stay stuffed up and miserable. Relief is sure.—Adv.
