

"It Was Shortly Before Dusk"

You have read the dispatch of the first great tragedy to American Troops off the Irish Coast. What response does it kindle? Are we doing our part at home? Are we worth this sacrifice of American lives in the cold waters of North Atlantic?

THE MENACE

Only at Christmas time the German kaiser said "We will show our enemies the mailed fist and the shining sword."

The Tuscania disaster brings home to us the meaning of this threat. We are far removed from the horror and desolation of Europe, but the distance is in space only, not in time. The German frightfulness has brought the war to our doors.

What Will Your Answer Be?

What are you going to say? Have YOU made any sacrifice on your own part to help this government overcome the menace of German frightfulness and military domination?

The only answer is more men and more ships—men and ships, steel and munitions—until the Germans are ready to quit.

How You Can Help

The way to get these ships and guns, and to provision and equip these men, is to save and lend.

Work—save—lend to the government; that should be the program of every soldier at home.

You do not have to GIVE your money—just save and invest in

War Saving Stamps

Secretary McAdoo says: "Saving is not a mere theory urged upon us for the good of our souls, but it is in the most definite way a war measure determined upon by the United States government, and an absolutely necessary step to the continued progress of a national war in which millions of men under arms must be supported by millions of men and women who are not under arms, but who are none the less just as definite part of the fighting machinery of the United States."

Save 25c Today

You can start with as little as 25c by purchasing a 25c Thrift Stamp. With your first stamp you will receive a Thrift card with sixteen spaces. Paste the stamp on the first space. Then every time you buy another 25c stamp stick it on the card.

When the card is full you will have bought \$4 worth of stamps. Take this card to the postoffice, pay a few cents more, and you will receive a \$5 War Savings Stamp.

This \$5 stamp will cost you \$4.13 if you buy it in February, \$4.14 if you buy it in March, \$4.15 if you buy it in April, etc., a cent addition each month during 1918.

In January, 1923, the government will buy back this War Savings Stamp for \$5. And if you want to sell it before that time the government will give you what you paid for it, plus one cent for every month you've had it.

How You Can Make Your Savings Work For You

There are two kinds of War Saving Stamps—25c Thrift Stamps, and \$5 Stamps. The \$5 Stamps sell for \$4.13 during February, 1918, and for 1c additional each month thereafter during 1918. That is, \$4.14 in March, \$4.15 in April, etc. The government will pay you \$5 for each of the W. S. S. in January, 1923.

The 25c stamps sell at all times for 25c—the price does not change. When you buy your first 25c stamp at the postoffice or any bank or store you will be given a Thrift Card with spaces for sixteen 25c stamps (\$4 worth).

When the card is filled take it to the postoffice, pay 13c additional—if you do it in February after that 1c additional each month—and you will receive a \$5 stamp, which is described above.

If you want to sell your \$5 stamp any time before January, 1923, the government will buy it back from you at more than you paid for it. Its value increases 1c each month, as it earns interest.

OR LEND \$4.13 ALL AT ONCE

If you wish, instead of buying 25c stamps and collecting them, you can buy a \$5 stamp for cash by paying \$4.13 if you buy it this month. If you buy it in March, it will cost you \$4.14, etc., one cent additional each month during 1918.

Do this if you can spare the money, and at the same time buy an extra 25c stamp, so you can start saving for your second \$5 stamp. The more you buy, the more you are doing to help save the lives of American soldiers and to help shorten the war.

Every Dollar Counts

Every dollar counts. There are a hundred million people in the United States. If each one lent the government only one dollar, it would total a hundred million dollars.

So, no matter how slim your purse, your money is needed. And so is the money of every member of your family.

Let the Children Help

Children all over the country are saving their pennies and buying War Saving Stamps.

Not only are they helping the country, but they are learning the lesson of thrift—a lesson which will help them all their lives. Get your children to start saving. Buy each one a 25c stamp to start with. Their pennies are needed, too.

A Test of Confidence

This story is an appeal to the patriotic conscience of every American citizen.

If you are patriotic go NOW to Underwood's Pharmacy, the postoffice or bank and buy at least one Thrift Stamp to help your government—to show that YOU are behind this war.

Remember, more U-boats are waiting off the Irish coast. They show no mercy, for they have none.

FINE MUSICIAN NOW AT STAR

The work of Lue F. Vernon, who has just commenced his duties as pianist at the Star theater here, is worthy of special comment. Mr. Vernon is a professional pianist and pipe organist, who has made a specialty of accompanying the silent drama for a number of years. His ability in this line is unusual, and will be appreciated by the patrons of the theater. Mr. Vernon came here from Seattle.
