STATE TO AID ROAD WORK IN KLAMATH

SUM OF \$16,000 AVAILABLE MAY
BE SPENT WITH \$6,000 OF THE
COUNTY FUNDS IN MACADAMIZ-
ING PORTIONS OF ROAD TO
FORT KLAMATH

CHANGE IS PROPOSED BY WHICH
ROAD WILL GO BY PEELECAN
BAY MILE, GIVING MORE DI-
RECT ROUTE AND GIVING MIL-
MEN GOOD ROAD

That \$16,000 is available to Klamath
County this year from the state
road funds, and that this amount, to-
gether with \$6,000 of the county
money may be used for the improve-
ment of the highway between Klamath
and Fort Klamath on the Klamath
Falls-Dalles highway, is news just
received here.

Governor James Withycombe has
interested himself in this matter, and
has promised to give his support
before the state highway commission,
and it is also understood the state
highway engineer's office approves of
the plan.

The road between Klamath Falls
and Fort Klamath is the one most
traveled by tourists going thru by
Crater Lake either to Medford or Nor-
thern points, and is used by nearly all
the travel going north and south
thru the county. The grade has in
many places been built up in the
shape, but lack of surfacing allows it
to become almost impassible at sev-
eral points before the tourist season
has advanced far each year. It is now
the proposed intention to macadamize
these points first and complete the
rest as the funds become available.
One of these places is a short distance
from Klamath Falls, where the soft
soil in winter makes travel impossi-
ble. Another is along the grade be-
tween the Algoma Lumber company
