### LIBERTY LOAN LEADER COMING

A wire was received today from Blaine Hallock, assistant executive manager of Oregon for the coming Third Liberty Loan at Portland, to the effect that he will be in Klamath Falls on Friday, March 15th, to discuss important matters with the leaders of this movement here.

Chairman Ferguson will arrange for this gathering on the date mentioned at which many of the problems of the coming campaign will be worked out.

### ATTENTION, MOOSE

It is requested that all members who can meet tomorrow at Moose hall about 10 o'clock.

# Important Lumber Meeting In Portland

PORTLAND, March 7.—Colonel Bruce P. Dique has been in conference with Eastern Oregon pine lumbermen at the Portland hotel, relative to the eight hour day ruling in the lumber mills and camps of the Northwest. R. D. Brown, secretary of the West Coast Lumbermen's Association of Seattle, and other prominent lumbermen, are in attendance.

The pine lumber men have held out consistently against the eight hour day in the Northwest unless the ruling were made general in the United States. They contend that the mills and camps in the territory of the

Southern Pine Association are given decided advantage in the matter of wages and hours by the application of the eight hour rule to the lumber industry of the Northwest, while the lumbermen of the South are allowed to work on a ten or twelve hour basis.

It is stated by prominent loggers and lumber manufacturers that the Eastern Oregon pine lumbermen will co-operate with Colonel Dique and line up with other lumber manufacturers in Oregon and Washington to comply with all plans of the government in the production of lumber for war purposes.

# THE BENEFACTOR

EXTRAORDINARY ATTRACTION AT STAR THEATER TONIGHT. LIFE OF THOMAS EDISON, THREE REEL EDUCATIONAL FEATURE

This interesting film starts with Mr. Edison at 5 years of age at his birthplace, Milan, Ohio. From this humble home we follow Mr. Edison, reviewing many interesting episodes of his life. At the age of 6 he sat on goose eggs, thinking that he could hatch goslings as well as the mother goose. At the age of 10 he gave his neighbor boy chum a Sedlitz powder, thinking that by generating gas in the stomach the boy could fly. At the age of 14 we see him in his cellar laboratory, also as a publisher and news dealer in his railroad laboratory and in his search for knowledge among the archives of history. We learn how as a reward for his heroism he became telegraph operator, and how while thus employed he experimented with electricity, invented instruments, etc. Events are shown leading to the first firm of electrical

engineers. Next we watch Mr. Edison as he works out the greatest inventions of his career, the incandescent lamp, the dynamo and the multiple system. Here we see the many problems with which Mr. Edison was confronted, his untiring efforts, and finally his triumph over obstacles and what his achievements mean to humanity today.

### NORTHWEST BOYS TO ENTER TRENCHES AS A DIVISION

WASHINGTON, D. C., March 7.—Troops from the Northwest at American Lake will go to the front as a division. Personal assurance to this effect has been given Senator McNary by Adjutant General McCain. A report had reached General McNary that the Pacific Coast men would be used for replacement to fill gaps caused by losses, and so become widely scattered and lose their state identity. This plan, it is believed, was under consideration, but General McCain agreed this would be unfortunate, in view of all the circumstances, the American Lake troops being considered among the best units anywhere in camp.

FOR RENT—Pasture for several thousand head of stock in Lower Klamath marsh. See A. A. Mohaffay, 421 Main st., Klamath Falls. 1-104

**Why Do We Sell Nettleton Shoes?**

Try on both kinds and the other kind

Because everywhere in the shoe world we heard such phrases as these: "Will wear as long as a Nettleton," "As stylish as a Nettleton," "As well made and well finished as a Nettleton." "Very well," said we, "if Nettleton Shoes are the standard of quality, we want them for our customers." Experience has justified our decision.

Nettleton Shoes are like the word of an honor man Always Good
