Kellers Cafe, open all night. 427 Main street. 36-1t

SCIENTISTS ARE PREPARING FOR ECLIPSE OF SUN

BIG GATHERING SCHEDULED FOR JUNE 8TH IN MONTANA, PIKE'S PEAK AND OTHER POINTS OF OBSERVATION.

LOS ANGELES, Cal., March 9.—Scientists from the southwest are preparing to visit Montana early in June, in order to be in the southwestern part of the state on June 8 to observe a total eclipse of the sun which will occur then.

Prof. W. S. Adams of the Carnegie observatory on Mount Wilson, near here, will be the leader of the expedition, which will include a number of astronomers and mathematicians from the Mount Wilson and Echo Mountain observatories, and a number of Los Angeles and Pasadena men who are interested. The scientists plan the trip because they believe conditions for observation in Montana will be more favorable than elsewhere.

Elaborate preparations for making a photographic record of the eclipse are in progress. It is said the eclipse will not last more than two minutes at any one point, and will complete its path over the United States in forty-seven minutes.

Pike's Peak, Colorado, will be another favorable point for observation, the astronomers say, and it is reported that several hundred scientific men will view it from that point.

If you have a Standard fire insurance policy in a Standard company, you will not need to worry when the fire comes. See Chilcote. 7

Woman Police Force Around Big Camps

WASHINGTON, D. C., March 13.—The War Department has established a woman police force.

With more than a million and a half men already in khaki, and millions more awaiting the call to the colors, the Department has turned to the so-called weaker sex for assistance in disposing of a vital wartime problem.

Thousands of young women have gone to the vicinity of the military camps. To see that these girls are protected from dangers, the Department's Commission on Training Camp Activities has appointed fifty-five women deputy sheriffs to do scouting and patrol work. In all parts of the country the women are on duty under the supervision of especially established Girls' Protective Bureaus.

Girls actually resident in the vicinity of the camps are protected. Runaways are restored to their parents, and amusement places are scrutinized carefully. The work offers an opportunity for the officer to exercise discretion, sympathy, and a knowledge of human nature that particularly are her own.

These women are trained sociological workers and so peculiarly equipped for efficient service. Their duties are intensely personal in character and are concerned chiefly with individuals. Although co-operating closely with the military authorities and local police, they wear no uniform, badge or distinguishing mark of any kind.

"Often," says Miss Maude Miner, chairman of the Committee on Protective Work for Girls, "the women

protective officers find girls in the vicinity of the camps who are attracted by the presence of the uniform. Some of these are girls who have answered advertisements and who arrive in camp cities with insufficient funds; others are runaways from their homes in nearby cities and country towns. A girl resident of the town, who is disposed to resist discipline, is taken to her home by the woman officer and her mother warned of her danger. The officers also visit nearby amusement places to discover young girls who seem to need protection and to see that local ordinances are obeyed."

ADVERTISED LIST

The following unclaimed mail matter advertised on the 9th of March, will be sent to the Division of Dead Letters, San Francisco, Cal., on the 23d of March. A charge of one cent will be made for each letter delivered from this list.

Glass of Hot Water Before Breakfast a Splendid Habit

Open sinuses of the system each morning and wash away the poisonous, stagnant matter.

Those of us who are accustomed to feel dull and heavy when we arise; splitting headache, stuffy from a cold, foul tongue, nasty breath, acid stomach, lame back, can, instead, both look and feel as fresh as a daisy by washing the poisons and toxins from the body with phosphated hot water each morning.

We should drink, before breakfast, a glass of real hot water with a teaspoonful of limestone phosphate in it to flush from the stomach, liver, kidneys and ten yards of bowels the previous day's indigestible waste, sour bile and poisonous toxins; thus cleansing, sweetening and purifying the entire alimentary tract before putting more food into the stomach.

The action of limestone phosphate and hot water on an empty stomach is wonderfully invigorating. It cleans out all the sour fermentations, gases, waste and acidity and gives one a splendid appetite for breakfast and it is said to be but a little while until the roses begin to appear in the cheeks. A quarter pound of limestone phosphate will cost very little at the drug store, but is sufficient to make anyone who is bothered with biliousness, constipation, stomach trouble or rheumatism a real enthusiast in the subject of internal sanitation. Try it, and you are assured that you will look better and feel better in every way shortly.—Adv.

If Backachy or Kidneys Bother

Eat less meat, also take glass of Salts before eating breakfast

Uric acid in meat excites the kidneys, they become overworked; get sluggish, ache, and feel like lumps of lead. The urine becomes cloudy; the bladder is irritated, and you may be obliged to seek relief two or three times during the night. When the kidneys clog you must help them flush off the body's urinous waste or you'll be a real sick person shortly. At first you feel a dull misery in the kidney region, you suffer from backache, sick headache, dizziness, stomach gets sour, tongue coated and you feel rheumatic twinges when the weather is bad.

Eat less meat, drinks lots of water; also get from any pharmacist four ounces of Jad Salts; take a tablespoonful in a glass of water before

IRRITABLE NERVOUS

Was Condition of Indiana Lady Before Beginning to Take Card-u-i, the Woman's Tonic.

Kokomo, Ind.—Mrs. H. Hankemeier, of this town, says: "I look so well, and am so well, that it does not seem as if I ever needed Cardul. But I was not always this way. . . I think I have taken a dozen bottles. . . before my little girl came. I was feeling dreadfully bad, had headache, backache, sick at my stomach, no energy. . . I was very irritable, too, and nervous."

I began taking Cardul about 6 months before my baby came. As a result all those bad feelings left me, and I just felt grand, just as if nothing at all was the matter, and when the end came I was hardly sick at all.

Since that I have never taken Cardul at all. . . I have done me good, and I know it will help others, if they will only try it."

Many women have written grateful letters like the above, telling of the good that Cardul has done them. Why should it not help you, too? If you suffer from any of the ailments so common to women, and feel the need of a safe, reliable, strengthening tonic, we urge you to begin today and give Cardul a fair trial. Your dealer sells Cardul. ER-10

NOSE CLOGGED FROM A COLD OR CATARRH

Apply Cream in Nostrils To Open Up Air Passages.

What relief! Your clogged nostrils open right up, the air passages of your head are clear and you can breathe freely. No more hawking, snuffing, mucous discharge, headache, dryness—no struggling for breath at night—your cold or catarrh is gone.

Don't stay stuffed up! Get a small bottle of Ely's Cream Balm from your druggist now. Apply a little of this fragrant, antiseptic cream in your nostrils, let it penetrate through every air passage of the head; soothe and heal the swollen, inflamed mucous membrane, giving you instant relief. Ely's Cream Balm is just what every cold and catarrh sufferer has been seeking. It's just splendid.—Adv.

THE RED CROSS NURSES OF EUROPE ARE GIVING TOASTED CIGARETTES TO THE BOYS

To anyone who doesn't know of the wonderful advances that have been made in the preparation of smoking tobaccos in the last few years it may sound strange to speak of toasted cigarettes.

Strictly speaking, we should say cigarettes made of toasted tobacco; the smokers of this country will recognize it more readily by its trade name, "LUCKY STRIKE"—the toasted cigarette.

The American Tobacco Company are producing millions of these toasted cigarettes and these are being bought in enormous quantities through the various tobacco funds conducted by the newspapers of the country and forwarded through the Red Cross Society to the boys in France.

This new process of treating tobacco not only improves the flavor of the tobacco but it seals in this flavor and makes the cigarettes keep better.

The Red Cross nurse is always glad to have a cigarette for the wounded soldier, as, in most instances, that is the first thing asked for.
