COMMISSION ORDER IS SUSTAINED

COURTS RATIFY RULING OF PUBLIC SERVICE COMMISSION IN ALLOWING 6 PER CENT RATE ON PORTLAND STREET CABS.

PORTLAND, March 15.—The Circuit Judges have upheld the Public Service Commission's 6 cent fare order for Portland.

The question of a six cent car fare in Portland is one which has been strenuously contested following its endorsement by the Commission some months ago. The Commission allowed the increased fare with the assertion that it was necessary for the street car corporations continued to operate at a profit.

Many opponents of the ruling allege that big dividends and profits shown on the company's books prove the falsity of this contention. The Commission has been bitterly assailed for its action and its members accused of being in the pay of the corporations.

Citizens Only May Vote in Oregon

SALEM, Ore., March 15.—Only citizens have the right to vote in Oregon and aliens having first papers only are not eligible to vote. This was explained by Attorney General Brown in a letter to Congressman Hawley, to clear up misunderstanding of the Oregon law. Debate on a bill in Congress recently included the statement that Oregon was one of ten states where aliens with first papers have the right of suffrage.

Why We Are At War With Germany

By EPHRAIM DOUGLASS ADAMS
Executive Head, History Department,
Leland Stanford Junior University

GERMAN RUTHLESSNESS AN INCULCATED BARBARISM

A government asserting its right to conquer the world, denying any duty except that of increasing its own power, and a people drilled in this theory, produce a nation whose acts horrify humanity. Yet those acts are but the logical result of a ruthlessness in war deliberately planned. It was at first said by Americans: "Yes, there are occasional German atrocities, no doubt, but so there are in every war." We now know that cruelty and barbarism are a definite part of the German method of making war.

First the teachers and professors: "Where German soldiers had to seize the incendiary torch, or even to proceed to the slaughter of citizens, it was only in pursuance of the rights of war." "One single highly cultured German warrior represents a higher intellectual and moral life-value than hundreds of the raw children of nature whom England and France, Russia and Italy, oppose to them." "Even if there were no question of vengeance, . . . the crime of opposing the development of Germany is so great that the most trenchant measures are scarcely a sufficient punishment for it." "The more pitiless is the war, the greater is the security of the ensuing peace. In the days of old, conquered people were completely annihilated. Today that is physically impracticable, but one can imagine conditions which should approach very closely to total destruction."

Next the army officers: "By steeping himself in military history an officer will be able to guard himself against excessive humanitarian notions; it will teach him that certain severities are indispensable to war, nay, more, that the only true humanity very often lies in a ruthless application of them." "The warrior has need of passion. It must not be regarded as a necessary evil; not condemned as a regrettable consequence of physical contact; nor must we seek to restrain it and curb it as a savage and brutal force." Last the clergy: one incident, and one quotation from an address on the sermon on the Mount is enough for Americans. "Whoever can not prevail upon himself to approve from

the bottom of his heart the sinking of the Lusitania, . . . and give himself up to honest delight at this victorious exploit of German defensive power—him we judge to be no true German."

German teaching has borne fruit and the world is agitated. Yet we have become so accustomed to "German atrocities" that some of our horror at them has waned. It is wiser to remember. Volumes are needed to list merely the proved cases of barbarity—for Germany by refusing investigation through a neutral jury proposed by Cardinal Mercier, has confessed guilt. No, rather, she acknowledges the acts charged against her and glorifies them.

But let us not forget that German soldiers, in 1914 with no restraint, raped the women of Belgium and France in the first advance; that they placed screens of children before the mist that they executed, as a warning against a feared Belgian rising fifty innocent Catholic priests and thousands of innocent citizens; that they gave themselves up "in a hundred different places, to plundering, incendiarism, imprisonment, massacres, and sacrileges." (Cardinal Mercier); that in France they have deliberately made a desert of territory in retreat, with an object, not of this war, but of destroying productivity for at least a generation to "come; that Germany openly applauded Turkey upon the massacre of nearly one-half the population of Armenia; that Germany, by the cruel starvation and deportation of conquered populations is attempting to "Germanize" the lands of Poland and Russia; that she torpedoes hospital ships with "defenseless beings, wounded or mutilated in war, and women who are devoting themselves to the work of relief and charity." (protest of the International Red Cross Committee at Geneva); that no other government, in the world's history, every ordered or approved a Lusitania.

This war is lost, and a greater will follow it, unless it is fought to the point where Germany knows for all time that such acts are, in the end, fatal to the government that commits them.

QUIT MEAT IF YOUR KIDNEYS ACT BADLY

TAKE A TABLESPOONFUL OF SALTS IF BACK HURTS OR BLADDER BOTHERS

We are a nation of meat eaters and our blood is filled with uric acid, says a well known authority, who warns us to be constantly on guard against kidney trouble.

The kidneys do their utmost to free the blood of this irritating acid, but become weak from the overwork; they get sluggish; the eliminative tissues clog and thus the waste is retained in the blood to poison the entire system.

When your kidneys ache and feel like lumps of lead, and you have stinging pains in the back or the urine is cloudy, full of sediment, or the bladder is irritable, obliging you to seek relief during the night; when

you have severe headaches, nervous and dizzy spells, sleeplessness, acid stomach or rheumatism in bad weather, get from your pharmacist about four ounces of Jad Salts; take a tablespoonful in a glass of water before breakfast each morning, and in a few days your kidneys will act fine. This famous salt is made from the acid of grapes and lemon juice, combined with lithia, and has been used for generations to flush and stimulate clogged kidneys, to neutralize the acids in urine so it is no longer a source of irritation, thus ending urinary and bladder disorders. Jad Salts is inexpensive and cannot injure; makes a delightful effervescent lithia-water drink, and nobody can make a mistake by taking a little occasionally to keep the kidneys clean and active.—Adv.
