BE PRETTY TURN GRAY HAIR DARK

TRY GRANDMOTHER'S OLD FAVORITE RECIPE OF SAGE TEA AND SULPHUR

Almost everyone knows that Sage Tea and Sulphur, properly compounded, brings back the natural color and lustre to the hair when faded, gray or streaked. Years ago the only way to get this mixture was to make it at home, which is messy and troublesome. Nowadays, by asking at any drug store for "Wyeth's Sage and Sulphur Compound," you will get a large bottle of this famous old recipe, improved by the addition of other ingredients, for about 50 cents.

Don't stay gray! Try it! No one can possibly tell that you darkened your hair, as it does it so naturally and evenly. You dampen a sponge or soft brush with it, and draw this through your hair, taking one small strand at a time; by morning the gray hair disappears, and after another application or two, your hair becomes beautifully dark, glossy and attractive.

Air Raid Shelters Built on Huge Scale

LONDON, March 22.—Air raid shelters for 20,000 persons are being constructed by the residents of Edmonton, one of the outlying London boroughs. The borough contains mainly working class dwellings of the cottage type, and it was found that there were only one or two buildings of sufficiently solid construction to be classed as proper air raid shelters. So the residents appointed a local civil engineer to take charge of the work, and began to dig shelters of the cyclone cellar type in all parts of the borough.

The government gave them 20,000 sandbags, and they expect shortly to be able to shelter 20,000 persons. In most cases the excavations were made in vacant lots or back gardens, bolstered by wooden beams and railroad ties, which were then covered with earth and sod, and finally roofed over with sand bags. Each shelter will accommodate at least five families. Other shelters are in protected railway culverts and embankments. Each will be provided with lighting, seats and a small stove, so that tea can be served comfortably to those waiting for the "all clear" signal.

"Strike of Deserters" Problem in Switzerland

ZURICH, Switzerland, Feb. 11.—(Correspondence of the Associated Press)—A "strike of deserters" has been in progress here for some weeks. The 12,000 to 13,000 deserters, mostly from the central empires, who have taken refuge in Switzerland, are as rebellious to service in the field and factory as they were in the front line trenches, and most of them refuse to work.

Until recently every deserter who could find his way across the frontier into Switzerland was given shelter with no other condition than that he pay his taxes and observe the law. The number continually increased, and on the occasion of the riots in Zurich the federal authorities discovered that there were too many of these deserters among the leaders of the disorder. It was then decided to order a civil mobilization that would enable the government to round up all unemployed foreigners and set them to work.

The strike of the deserters followed this mobilization. The deserters

pretended to the right of asylum in the country without the obligation to work. They were supported by a certain element of the Swiss socialist party with maximalist tendencies.

"We came here to escape servitude," the deserters said. "We reject all obligations of service, military or civil; we will obey no order and we summon the socialist party of Switzerland to sustain us immediately."

The socialist party of Switzerland met at Olten in general convention, and, the sustaining the strikers in a platonic way, invited them to go back to work. Thereupon the deserters and the extremists of the socialist party organized a sort of soviet in Zurich. Socialist members of the federal council are endeavoring to get the government to annul the civil mobilization decree, but public opinion in a vast majority is stoutly opposed to any concessions to the deserters.

CASUALTY LIST CONTAINS 37

WASHINGTON, D. C., March 22.—There were thirty-seven names on the casualty list yesterday. The only officer was Frederick Klunking, who was slightly wounded. Three were killed in action, two died of wounds, two of accident and eight of disease. Five were wounded severely and seventeen slightly.

SAYS HOT WATER WASHES POISONS FROM THE LIVER

Everyone should drink hot water with phosphate in it, before breakfast.

To feel as fine as the proverbial fiddle, we must keep the liver washed clean, and almost every morning to prevent its sponge-like pores from clogging with indigestible material, sour bile and poisonous toxins, says a noted physician.

If you get headaches, it's your liver. If you catch cold easily, it's your liver. If you wake up with a bad taste, furred tongue, nasty breath or stomach becomes rancid, it's your liver. Sallow skin, muddy complexion, watery eyes, all denote liver uncleanness. Your liver is the most important, also the most abused and neglected organ of the body. Few know its function or how to release the dammed-up body waste, bile and toxins. Most folks resort to violent calomel, which is a dangerous, salivating chemical which can only be used occasionally because it accumulates in the tissues, also attacks the bones.

Every man and woman, sick or well, should drink each morning before breakfast, a glass of hot water with a teaspoonful of limestone phosphate in it, to wash from the liver and bowels the previous day's indigestible material, the poisons, sour bile and toxins; thus cleansing, sweetening and freshening the entire alimentary canal before putting more food into the stomach.

Limestone phosphate does not restrict the diet like calomel, because it can not salivate, for it is harmless and you can eat anything afterwards. It is inexpensive and almost tasteless, and any pharmacist will sell you a quarter pound, which is sufficient for a demonstration of how hot water and limestone phosphate cleans, stimulates and freshens the liver, keeping you feeling fit day in and day out.—Adv.

Notice of Sale of Real Property

Notice is hereby given that in pursuance of an order of the County Court of the State of Oregon, for Klamath County, made and entered on March 22, 1918, in the matter of the guardianship of the person and estate of Miriam Martin, a minor, the undersigned guardian of said minor will sell at private sale to the highest bidder for cash in hand on and after the 22d day of April, 1918, subject to the confirmation of said court, all right, title and interest of said minor in and to the following described premises, to-wit:

Situate in Klamath County, Oregon, lots 6 and 7, of section 15, lot 2 of section 23, and northeast quarter of northeast quarter of section 22, township 40 south, range 8 east of Willamette Meridian, containing 89.32 acres, more or less.

All bids for said premises may be addressed to the undersigned at Klamath Falls, Oregon.

Dated: March 22, 1918.
EMMA G. OBENCHAIN,
Guardian of the person and estate of Miriam Martin, a Minor.

With Fingers! Corns Lift Off

Doesn't hurt a bit to lift any corn or callus right off. Try it!

For a few cents you can get a small bottle of the magic drug freezone, recently discovered by a Cincinnati man.

Just ask at any drug store for a small bottle of freezone. Apply a few drops on a tender, aching corn or callus and instantly all soreness disappears and shortly you will find the corn or callus so loose that you lift it off with the fingers.

Just think! Not one bit of pain before applying freezone or afterwards. It doesn't even irritate the surrounding skin.

Hard corns, soft corns or corns between the toes, also hardened calluses on bottom of feet, shrivel up and fall off without hurting a particle. It is almost magical.

Ladies! Keep a tiny bottle on the dresser and never let a corn or callus ache twice.—Adv.
