CREAM FOR CATARRH OPENS UP NOSTRILS

Tells How To Get Quick Relief From Head-Colds, It's Splendid!

In one minute your clogged nostrils will open, the air passages of your head will clear and you can breathe freely. No more hawking, sniffling, blowing, sneezing, dryness. No struggling for breath at night; your cold or catarrh will be gone.

Get a small bottle of Ely's Cream Balm from your druggist now. Apply a little of this fragrant, antiseptic, healing cream in your nostrils. It penetrates through every air passage of the head, soothes the inflamed or swollen mucous membrane and relief comes instantly.

It's just fine. Don't stay stuffed-up with a cold or nasty catarrh—relief comes so quickly—Adv.

At the Theaters

How editors and reporters get out the big daily papers never has been more faithfully portrayed than in "The Princess of Park Row," a stirring story of robbery, intrigue, love and near-murder, whose scenes are laid in two continents. This Greater Vitagraph Blue Ribbon feature, which

is the attraction at the Temple theater, shows the city room of a newspaper plant that is the real thing, and it also shows the real reporter, who, "called down" by his city editor, makes good by rescuing a princess, saving the life of her father and uncovering a conspiracy to steal vast mining properties in the Balkan province of Bellaria. Miss Mildred Manning and Wallace MacDonald are featured in this picture, the principal scenes of which are laid in a great American city.

"Bluebird Day" at the Orpheus today and tomorrow, will mark the appearance of Dorothy Phillips in "Bondage," a gripping drama of love and constancy. It tells a story of New York's "bohemia" and shows how right and wrong environment will affect the happiness of a girl who has permitted her temperament to become her torment. There is a happy ending, of course—"Bluebirds for Happiness" is the cheer-up slogan of this most popular series of photoplays.

COOS BAY SHIPYARDS

ARE WELL POLICED

MARSHFIELD, March 26.—To systematize the policing of the ship yards on Coos Bay, in which government ships are under construction, Henry Greeson, for many years a police captain in San Francisco, but now with the United States shipping board, spent several days here recently.

The number of guards was increased and changes and adjustments made as well as recommendations relative to fencing and similar work to protect yards and vessels.

SALEM PLANS HOME GUARD

SALEM, March 26.—Ninety representative business men of Salem have voted to form a business men's company of home guards. Plans for enlisting members are in the hands of a committee and another meeting will be held as soon as sufficient names have been signed to the application blanks.

BIG INCREASED WHEAT

PRODUCTION IN BAKER

BAKER, Ore., March 26.—A summary of answers on 750 questionnaires received by County Farm Agent Tweed from farmers in this county indicates that there will be an increase of about 50 per cent in wheat production in Baker County during the coming year. A little less than 10 per cent increase in oats is indicated, while barley will show a 40 per cent decrease and the potato crop will be practically the same as before.

COURAGEOUS OFFICER

Why We Are At
War With GermanyBy EPHRAIM DOUGLASS ADAMS
Executive Head, History Department,
Leland Stanford Junior University

"The faith of treaties is the only solid foundation on which a Temple of Peace can be built up." (James Bryce.) Good faith between nations, as between men, is the one and only safeguard from a return to barbarism. Without it brute force, sheer might, must rule. Without it there is no security in human relations—no security, even, for life itself. To keep one's word, when once given, that is the evidence of the progress of civilization, and the test of it.

Hence the case of Belgium becomes the single greatest German offense against civilization in this war. At first, in our American ignorance of world conditions, we did not see this. We do see it now; more and more we realize that until the crime against Belgium is atoned for, there can be no peace, and no hope of a world's peace.

What are the facts? By treaties signed in 1815, again in 1831, and still again in 1839, this last revision being in effect in 1914, it was agreed "Belgium shall form a perpetually neutral state. The five powers guarantee to it this perpetual neutrality, as also the inviolability of its territory." These five powers were Austria, France, Great Britain, Russia and Prussia. By such treaties the neutral state was pledged to defend in arms the neutrality of its territory; and each of the great powers pledged itself not only not to march troops into or thru the neutral state, but also to aid her, in case her territory was violated.

The world, thinking no nation so base as to break its word, was completely taken by surprise by the attack on Belgium. But we know now, from German statements, that German military plans had for years intended to break this pledge. German rulers lied as to this consistently, and lied up to the last day. On the morning before the German troops advanced, the German minister assured Belgium she need feel no alarm and in the evening of the same day he delivered his ultimatum.

The world has never seen so complete a denial of the binding effect of the pledged word. Why has Ger-

many so lost sight of the principle of honor among nations? Her own answer reveals the cause; it is again the plea of might. The fate that Belgium has called down upon herself (note the hypocrisy of this) is hard, but not too hard . . . for the destinies of the immortal great nations stand so high that they cannot but have the right, in case of need, to stride over existences that cannot defend themselves." (Professor Oncken.) When the British minister at Berlin notified the German chancellor that Great Britain was in honor bound to defend Belgium's neutrality, the latter argued that this was "terrible," a war "just for a scrap of paper." The pitiful—yes, the terrible—significance of such utterances, is that Germans believe them justified.

"If I am asked what we are fighting for," said Prime Minister Asquith, "I can reply in two sentences. In the first place to fulfill an obligation . . . not only of law, but of honor, which no self-respecting man could possibly have repudiated; secondly, to vindicate the principle . . . that small nationalities are not to be crushed, in defiance of international good faith."

America was not a direct guarantor, like Great Britain, of the neutrality of Belgium, tho in various conventions (of which Germany was also a signer) we pledged to the maintenance of the world principle of "good faith." But every nation was attacked when Germany broke faith. "The law protecting Belgium which was violated was our law and the law of every other civilized country. . . . It was our safeguard against the necessity of maintaining great armaments. Our interest in having it maintained as the law of nations was a substantial, valuable, permanent interest." (Elihu Root.) In the hope of an enduring peace, in the hope of an advancing civilization, we cannot forget Belgium. In the hope for unmoored self-development, we must not forget Belgium, until her wrongs are righted.

This is the seventh of a series of ten articles by Professor Adams. Power Company.

LEMON JUICE IS
SKIN WHITENED

CHEAP HOME MADE BEAUTY LOTION TO REMOVE TAN, FRECKLES, SALLOWNESS

At the cost of a small jar of ordinary cold cream one can prepare a full quart of the most wonderful lemon skin whitener and complexion beautifier by squeezing the juice of two fresh lemons into a bottle containing three ounces of orchard white. Care should be taken to strain the juice thru a fine cloth so no lemon pulp gets in, then this lotion will keep fresh for months. Every woman knows that lemon juice is used to bleach a darkened skin and remove such blemishes as freckles, sallowness and tan and is the ideal skin beautifier.

Just try it! Get three ounces of orchard white at any drug store and two lemons from the grocer and make up a quart of this sweetly fragrant lemon lotion and massage it daily into the face, neck, arms and hands. It is marvelous to whiten rough, red hands.—Adv.

An Inside Bath
Makes You Look
and Feel Fresh

Gives a glass of hot water with phosphate before breakfast keeps illness away.

This excellent, common-sense health measure being adopted by millions.

Physicians the world over recommend the inside bath, claiming this is of vastly more importance than outside cleanliness, because the skin pores do not absorb impurities into the blood causing ill health, while the pores in the ten yards of bowels do. Men and women are urged to drink each morning, before breakfast, a glass of hot water with a teaspoonful of limestone phosphate in it, as a harmless means of helping to wash from the stomach, liver, kidneys and bowels the previous day's indigestible material, poisons, sour bile and toxins; thus cleansing, sweetening and purifying the entire alimentary canal before putting more food into the stomach.

Just as soap and hot water cleanse and freshen the skin, so hot water and limestone phosphate act on the eliminative organs.

Those who get up with a bad breath coated tongue, nasty taste or have a dull, aching head, sallow complexion, acid stomach; others who are subject to bilious attacks or constipation, should obtain a quarter pound of limestone phosphate at the drug store. This will cost very little, but is sufficient to demonstrate the value of inside bathing. Those who continue it each morning are assured of pronounced results, both in regard to health and appearance.—Adv.

ACTIVITY ON AMERICAN FRONT

WITH THE AMERICAN ARMY, March 26.—On the Toul front the Americans have shelled the front lines of the enemy. The Huns have replied, using many gas shells. They have bombarded a certain town within the American lines for the third successive day.
