At the Theaters

The interesting role of Silas Mar-
tin, the miserly and unscrupulous
character of the Geraldine Farrar
production, "The Devil Stone," which
is at the Star today, is portrayed by
Tully Marshall, an actor of great note
both on stage and screen, who is a
member of the Jesse L. Lasky com-
pany of players. Mr. Marshall ap-
peared in the productions "Paid in
Full," "The City," and many others,
and will be remembered as the fanat-
ical monk in the Lasky production,
"Joan the Woman," which was also
produced under the direction of Cecil
B. de Mille, with Miss Farrar in the
stipular role.

Quarter Million Men
Now Building Ships

WASHINGTON, D. C., March 19.—

Approximately 250,000 men are en-
gaged in ship building in American
yards. Up to this time there has
been no shortage of labor except for
highly skilled men. A statement to
this effect was issued Sunday by the
employment service of the depart-
ment of labor.

There are about 600 ships under
construction. Seventy-six yards are
building wooden vessels. Fifty-four
companies are building steel vessels

"CLEOPATRA MORE SINNED
AGAINST THAN SINNING"

By Theda Bara

"The deeper I delve into the per-
sonal history of Cleopatra, whose
character I venture to portray on the
screen, writes Theda Bara, 'the more
I am convinced that history has made
too black a case against her. Authen-
tic historians, who are each and ev-
eryone male, would have us believe
that almost every woman ruler of dis-
tinction in history was at heart wan-
ton and openly dissolute in deport-
ment. From Cleopatra on down to
Catherine II. of Russia, Mary Queen
of Scots and Queen Elizabeth of Eng-
land, they are painted as devils in
disposition and demi-mondes by pre-
ference. Quite the contrary is true.
The most of them were dispatched
into life with a kick, as it were, and
had to fight for their birthrights and
hold them against all manner of
treachery and tremendous odds. Mor-
ally, they had not a chance from the
day of their birth, and it was only
natural intelligence of a superior
order that preserved in them any hon-
est or decent feeling whatever.'"

Why We Are At
War With Germany

By EPHRAIM DOUGLASS ADAMS
Executive Head, History Department,
Leland Stanford Junior University

What sort of a peace does Germany
hope to secure? That can be answer-
ed in a sentence: a peace which will
enable her to fulfill in the next war
the aims she has failed to fulfill in
this. What is the peace the allies
wish? Again the answer is brief: a
peace that will make sure that "it
shall not happen again."

This war has already killed (not
maimed or wounded) over 8,000,000
young and vigorous men, yet Ger-
many still believes that war is essen-
tial to human progress, and that any
act, however atrocious, is permissible
as long as it is an act of war. Against
that theory America has set her will.

Does anyone still doubt that Ger-
many believes in war? Here are four
leaders of Germany speaking: "Perpet-
ual peace is a dream, and it is not
even a beautiful dream; war forms
part of the eternal order instituted by
God." "A long peace not only leads
to enervation, but allows of the exist-
ence of a multitude of pitiful, trem-
bling, miserable creatures . . .
who cling fast to life with loud cries
about their 'right' to exist, block the
way for real strength, make the air
fetid, and altogether defile the blood
of the nation." "The worst of hypoc-
rites is the participation by Germany
in The Hague conference." "We must
not look for permanent peace as a re-
sult of this war. Heaven defend Ger-
many from that." And Trietschke,
the historian-tutor to the military
class of Germany, taught over and
over again that war was the only
means of achieving world leadership;

that "war is just and moral, and that
the idea of eternal peace is both un-
just and immoral and impossible."
These theories, put in practice,
have made of Germany the Cain of
civilization—"his hand against every
man's hand." In self-defense and in
mere self-respect, America was forced
to strike back. We could not sit still
when we realized that it was our duty
"to be and to remain the out-spoken
moral opponents of the present Ger-
man policy, and of the German state,
so long as it holds this present pol-
icy."

Germany has carried on its present war
in sixty-six yards, the statement
adds.
One hundred and forty ships al-
ready have been launched. Most of
them were under construction when
the government took them over, it is
explained.
The statement says that shipyards
are complying with the requests of
labor in obtaining labor exclusively
thru the employment service of that
department. Within the next six
months the shipyards will require
about 150,000 men, not allowing for
the labor turnover, the employment
service estimates.

You'll have to hurry if you expect
to get a real bargain in a home on
easy terms. See Chilcote. 7

PUT CREAM IN NOSE
AND STOP CATARRH

Tells How To Cure Chronic Nas-
als and Head Colds.

You feel fine in a few moments.
Your cold in head or catarrh will be
gone. Your clogged nostrils will open.
The air passages of your head will be
clear and you can breathe freely. No
more dullness, headache; no hawking,
snuffling, mucous discharges or dry-
ness; no struggling for breath at
night.

Tell your druggist you want a
small bottle of Kly's Cream Balm.
Apply a little of this fragrant anti-
septic cream in your nostrils, let it
penetrate through every air passage
of the head; soothe and heal the
swollen, inflamed mucous membrane,
and relief comes instantly.

It is just what every cold and ca-
tarrh sufferer needs. Don't stay
stuffed up and miserable.—Adv.

DRINK A GLASS
OF REAL HOT WATER
BEFORE BREAKFAST.

Says we will both look and feel
clean, sweet and fresh
and avoid illness.

Sanitary science has of late made
rapid strides with results that are of
untold blessing to humanity. The lat-
est application of its untiring research
is the recommendation that it is as
necessary to attend to internal sanitation
of the drainage system of the hu-
man body as it is to the drains of the
house.

Those of us who are accustomed to
feel dull and heavy when we arise,
splitting headache, stuffy from a cold,
foul tongue, nasty breath, acid stom-
ach, can, instead, feel as fresh as a
daisy by opening the sluices of the
system each morning and flushing out
the whole of the internal poisonous
stagnant matter.

Everyone, whether ailing, sick or
well, should each morning before
breakfast, drink a glass of real hot
water with a teaspoonful of limestone
phosphate in it to wash from the
day's indigestible waste, sour bile and
poisonous toxins; thus cleansing
tomach, liver and bowels the previous
sweetening and purifying the entire
alimentary canal before putting more
food into the stomach. The action of
an empty stomach is wonderfully in-
vigorating. It cleans out all the sour
fermentations, gases, waste and acid-
ity and gives one a splendid appetite
for breakfast. While you are enjoying
hot water and limestone phosphate on
your breakfast the phosphate hot
water is quietly extracting a large vol-
ume of water from the blood and get-
ting ready for a thorough flushing of
all the inside organs.

The millions of people who are both-
ered with constipation, bilious spells,
stomach trouble, rheumatic stiffness;
others who have sallow skins, blood
disorders and sickly complexions are
urged to get a quarter pound of lime-
stone phosphate from the drug store.
This will cost very little, but is suf-
ficient to make anyone a pronounced
crack on the subject of internal sani-
tation.—Adv.
