75% of all hauling can be done by a Maxwell truck

# MAXWELL TRUCK

There are now more than 6600 Maxwell trucks in use. They will do everything a 5-ton truck will do except haul 5 tons at one load.

Big trucks spend more gas hauling themselves than the Maxwell uses at peak load.

How well those Maxwells have done their work is shown by a service record of 99.6% perfect—the greatest record ever made by a motor-driven vehicle.

\$400 less than any other truck of similar capacity in the world.

BOYS IN SERVICE  
ENJOY THEIR WORK

A varied line of duties have already befallen Rex and Roy LaPrairie of this city, who recently enlisted in the service of Uncle Sam as truck and auto drivers, and are now in San Antonio, Texas.

In letters received by their mother, Mrs. R. L. Alexander of this city, they have been put at doing most everything so far except driving autos or trucks. Both appear to enjoy the life, however, thus far, and a good boost for the Y. M. C. A. work is given in their description of camp life.
