LONDON, April 5-Launching another tremendous attack between the lows: Somme and the Luce Rivers by the Klamath Falls-Germans, the British have been pressed back a short distance on the front east of Amiens to positions east of Villers Brettoneux. The Germans were thrown back in most places.

The Germans concentrated a huge mas, of troops near Albert, north of the Somme and the British artillery caught them under its fire, with devastating results. There was heavy artillery activity last night in the Bocquoy and Scarpe valleys.

Another sector of trenches has been taken over by Americans on the Heights of the Meuse River to the south of Verdun, but there has been comparatively little action here.

The field workers have received their instructions and orders, and are now ready to begin the work of the MOST ALL POINTS IN THEIR actual drive. What the result of the campaign is to be is up to the people of Klamath County. No forecasts or predictions have been announced from headquarters, but the precinct captains have raised the battlecry of the campaign to the masthead, "Fight, buy, or show the reason why."

A large map of the city has been prepared by F. R. Olds, who has charge of this department, and upon AGAINST PRENCE IN VICINITY this map will be shown the progress of the campaign in the city. It is expected that the government will denounce the lawless act of the mob. It is alleged that Prager who is a coal miner, made derogatory remarks regarding the president. He prayed in German after being taken from jail by the mob of miners, previous to his being hanged.

PROCLAMATION

10 . To the people of Oregon as . me to even outline at this time.

Editor Herald-I thank you for your offer, and will try and make as brief a reply to the charges in the recall petition as possible.

In my pre-election campaign I promised, if elected, to act in all matters of county business for what I honestly believed to be for the best interests of the taxpayers of the whole county. I consider this my most binding promise, and I can That Klamath Falls may be the honestly say that in every matter of first to go over the top in the Third small or great importance that has Liberty Loan campaign, and so win come before me in my official capac-

You all know that you can get face value for your warrant the moment it is issued, and Klamath County today is very nearly out of

This has been no small job, as those who are acquainted with the conditions can testify. I will say that while I realized that the finances of the county were in very bad shape, I, nor as I believe, no one else, had any true conception of the actual conditions and the immense probwhen it took office in 1915. We found a big tin box jemmed full of claims and bills against the county. Not only had this mass of bills never been paid, but they had never even been inspected, approved or audited, and no one knew whether they had been legally authorized, or whether unpaid bills against the new court touse, and \$49,000 against the road

SOON BE A LANGUAGE MORE DEAD THAN LATIN OR GREEK, IF BENTON COUNTY IDEAS ARE CARRIED OUT

CORVALLIS, April 5 .- The local school board has decided to eliminate the study of the German language here immediately, and to give the students in the German course full credit for the remaining two months of the term.

The action was taken as the result of considerable agitation against continuing the teaching of this language. The war council of Benton County had asked the school board to act at once. There were no applicants in the public school to take the beginners' course in German this term, and the second year course had dwindled to eight pupils.
