### At the Theaters

The Orpheus theater tonight will present Ethel Clayton in "Souls Adrift," the story of a couple shipwrecked on a desert island, told from an entirely different angle. The girl is a society leader, the man is the second engineer on her father's yacht and the girl's former accepted lover. The girl's father in former years stole the engineer's epoch-making shipping invention, and became immensely wealthy. The engineer is determined upon revenge. To the island come a pirating sailor man and his negro assistant, and when the engineer discovers the gems they have hidden there is a fight. A remarkable situation grows out of this fight. What it is and what has happened afterward forms a smashing climax for this intensely interesting and entertaining story.

"Roaring Bill" Wagstaff (Mr. Farnum) marries Hazel Weir (Winifred Kingston) a girl from the East, about whom there are ugly rumors. After he has cleared these away he begins to think that his wife has married him on the impulse of the moment, not because of any love for him. He decides to return to his life among the snows, but his wife gives proof of her affection, and he returns to claim her as his own. At the Orpheus Sunday night.

"The Rise of Jennie Cushing," the Artercraft production starring Elsie Ferguson, and now being shown at the Star theater, is adapted from the book by Mary S. Watts, and is a big, gripping story, modern in its theme and fearless in its treatment, significantly commenting on the tendencies of society today. Those who have read the book and have laughed and cried over the trials of Jennie will weep copiously and shriek with laughter at the touching scenes and the flashes of comedy in this photoplay, which marks the second appearance of the noted star in the films.

"Love Letters," Dorothy Dalton's latest Paramount picture, produced under the personal supervision of Thomas H. Ince, was written by Shannon Pife. Dealing with the life of Eileen Rodney, from her girlhood days when she committed the grave mistake of loving an unworthy suitor, to her career as the wife of a prominent lawyer, the story is almost startling in its vivid reality and cleverness. A few indiscreet love letters which she wishes to recover at all costs, to prevent her husband from finding out about the early affair, brings all sorts of difficult complications, from which Miss Dalton, as the heroine, emerges only after a great struggle. At the Star Sunday.

## ABSTINENCE FROM WHEAT SUGGESTED

IS ONLY SOLUTION TO PROBLEM OF SAVING THE CEREAL, SAYS MESSAGE RECEIVED BY COUNTY FOOD ADMINISTRATOR

A total discontinuance of the use of wheat for the next four months is suggested in a message received by County Food Administrator Baldwin today. The message in part reads: "I wonder how many people have considered that the real solution of the wheat saving problem is the absolute abandonment of us all of purchasing wheat flour at all. This need not be the hardship that it sounds, for the various substitutes are now more plentiful and we are learning to save them by eating more potatoes, rice and vegetables, especially potatoes.

Several thousand men, women and children have formed clubs and pledged to eat no wheat at all for the next four months, while others, who have not openly pledged themselves, are helping in this manner. They can't fight and raise food at the same time in France, and it is only by denying ourselves that we can give a means of life to them."

#### INDIANS MIGRATE

The Indians are reported to be migrating back to the reservation from Lost River, due to the fact that the fresh water has ceased to flow into the stream. They are said to be taking large quantities of dried fish with them.

### Two American Heroes in Attack on Germans

COL. DOUGLAS MACARTHUR

SERGEANT HANK GOWDY

Colonel Douglas MacArthur, son of General Arthur MacArthur, has been given the Cross de Guerre by the French government for heroic action. He was censor in the war department when the war began, but he demanded that he be sent to the front.

Sergeant Hank Gowdy, whose name has been mentioned as one of the Americans who attacked and repulsed the Germans in the Lunenburg region, was catcher for the Boston National League baseball club when it won the pennant. In fact, Gowdy's heavy batting won the pennant. He was the first big leaguer to enlist for Uncle Sam.

### Glass of Hot Water Before Breakfast a Splendid Habit

Open sluices of the system each morning and wash away the poisonous, stagnant matter.

Those of us who are accustomed to feel dull and heavy when we arise; splitting headache, stuffy from a cold, foul tongue, nasty breath, acid stomach, lumbic back, can, instead, both look and feel as fresh as a daisy by washing the poisons and toxins from the body with phosphated hot water each morning.

We should drink, before breakfast, a glass of real hot water with a teaspoonful of limestone phosphate in it to flush from the stomach, liver, kidneys and ten yards of bowels the previous day's indigestible waste, sour bile and poisonous toxins; thus cleansing, sweetening and purifying the entire alimentary tract before putting more food into the stomach.

The action of limestone phosphate and hot water on an empty stomach is wonderfully invigorating. It cleans out all the sour fermentations, gases, waste and acidity and gives one a splendid appetite for breakfast and it is said to be but a little while until the roses begin to appear in the cheeks. A quarter pound of limestone phosphate will cost very little at the drug store, but is sufficient to make anyone who is bothered with biliousness, constipation, stomach trouble or rheumatism a real enthusiast on the subject of internal sanitation. Try it, and you are assured that you will look better and feel better in every way shortly.—Adv.

## Why We Are At War With Germany

#### DOLLARS OR BOYS

The three great needs constantly put forth from Washington are: (1) food conservation to aid our Allies; (2) men; (3) money. The first, the Food Administration Bureau is attempting to secure largely by voluntary efforts. The second has been placed by law on a compulsory basis in the draft. The third will be compulsory by laws increasing present taxation to the extent of about one-quarter of the annual expenditures in the war; but three-quarters must be provided not by voluntary gift, but by voluntary loans.

The ease with which the draft of men was carried through, the quiet acquiescence of America in it, when advised by America's self-chosen leaders, was a magnificent proof of the essential patriotism of our people and of our confidence that we are a truly democratic nation. We trusted our advisers because we had ourselves elected them. Now we must trust them with our money and we must be ready for sacrifices. This war can not even be begun to be won until the people of America fully realize that sacrifices of all sorts, but especially of men and money, are inevitable.

Popular opinion seems to think we have already given much. Let us be honest. What have we given? True, we are preparing to give men money in that preparation, but our spending is as yet but a drop in the bucket compared to what our Allies have been spending for three years in defense of us. For that is what they have been doing—defending the world, and so defending us. We have been lending them money, at a good rate of interest. They do not ask us to give, even now. All that they expect is that we also shall bear our burdens, as they are bearing theirs, in this war for the future of humanity and for safety.

Look at a few facts of Great Britain's effort—not at grand totals, but at facts applied to the individual. In the last British War Loan there was a total of \$4,350,000,000 in cash subscriptions, which means about \$100 per person—men, women and children. This is the tenth of a series of ten articles by Professor Adams.
