At the Theaters

The new William Fox photoplay, "Two Little Imps," at the Orpheus tonight, is worth more than the price of admission. It shows Jane and Katherine Lee, the 5 and 7-year-old stars, at their best. It gives them full opportunity to exhibit all their film genius, and they take full advantage of it. This is the first picture in which these popular little screen children have been starred. The picture is something new, something to be expected from the Fox studios, and something that should not be missed.

Germans May Use Great Guns Like This to Bombard Paris

This great electro-magnetic gun may be the kind the Germans are using in the bombardment of Paris at a distance of some seventy miles. A patent for the gun shown here was granted by the United States patent office to Kristian Birkeland, a Swede. Its shells are not thrown by the explosion of powder in the barrel, but by electro-magnetic force. The gun does not wear out, for there is no friction within the barrel, and the shots may be fired much more rapidly than from a gun which uses powder. A gun similar to this was offered by Paul T. Kenny, an electrical engineer of New York City, to the war department some ten years ago. He got no encouragement. Later, when in Berlin, he presented the idea to the German war office. He thinks the Germans may have turned the idea to account against the allies and the United States.

Mr. Kenny's gun was to be wrapped

Eat Less Meat If Back Hurts

Take a glass of Salts to flush Kidneys if bladder bothers you

Eating meat regularly eventually produces kidney trouble in some form or other, says a well known authority, because the uric acid in meat excites the kidneys, they become overworked; get sluggish; clog up and cause all sorts of distress, particularly backache and misery in the kidney region; rheumatic twinges, severe backaches, acid stomach, constipation, torpid liver, sleeplessness, bladder and urinary irritation.
The moment your back hurts or kidneys aren't acting right, or if bladder bothers you, get about four ounces of Jad Salts from any good pharmacy; take a tablespoonful in a glass of water before breakfast for a few days and your kidneys will then act fine. This famous salt is made from the acid of grapes and lemon juice, combined with lithia, and has been used for generations to flush clogged kidneys and stimulate them to normal activity; also to neutralize the acids in the urine so it no longer irritates, thus ending bladder disorders.
Jad Salts cannot injure anyone; makes a delightful effervescent lithia-water drink which millions of men and women take now and then to keep the kidneys and urinary organs clean, thus avoiding serious kidney disease.—Adv.
