**At the Theaters**

A beautiful drama showing actual scenes in Texas and Old Mexico, with more than 600 soldiers and full-blooded Indians in their mountain stronghold, is depicted in "Old Buckskin," shown at the Star this evening. "Old Buckskin" and his wife give up a life of luxury to go to the frontier, where their adventures are both thrilling and spectacular.

The fact that Richard Harding Davis wrote and the Bluebird Photoplay company filmed it and that Franklyn Farnum appears in the leading role are about all that need be said about "The Scarlet Scar," which will be shown at the Orpheus theater tonight and tomorrow night. An exciting story of love and the newspaper business.

"The Soul Master," James Oliver Curwood's remarkable drama, has just been filmed by the Greater Vitagraph Company as a Blue Ribbon feature, with Earl Williams in the title role, and will be the attraction at the Temple today. The play, which has a sweet young girl, a salesgirl, for its heroine, was directed by a woman, Marguerite Bertsch.

**EASY TO DARKEN YOUR GRAY HAIR**

YOU CAN BRING BACK COLOR AND LUSTRE WITH SAGE TEA AND SULPHUR

When you darken your hair with Sage Tea and Sulphur, no one can tell, because it's done so naturally, so evenly. Preparing this mixture, though, at home is messy and troublesome. For 50 cents you can buy at any drug store the ready-to-use preparation, improved by the addition of other ingredients, called Wyeth's Sage and Sulphur Compound. You just dampen a sponge or soft brush with it and draw this through your hair, taking one small strand at a time. By evening all gray hair disappears, and, after another application or two, your hair becomes beautifully darkened, glossy and luxuriant.  
Gray, faded hair, though no disgrace, is a sign of old age, and as we all desire a youthful and attractive appearance, get busy at once with Wyeth's Sage and Sulphur Compound and look years younger. This ready-to-use preparation is a delightful toilet requisite, and not a medicine. It is not intended for the cure, mitigation or prevention of disease.—Adv.

**Hot Water for Sick Headaches**

Tells why everyone should drink hot water with phosphate in it before breakfast.

Headache of any kind is caused by auto-intoxication—which means self-poisoning. Liver and bowel poisons called toxins, sucked into the blood through the lymph ducts, excite the heart which pumps the blood so fast that it congests in the smaller arteries and veins of the head, producing violent, throbbing pain and distress, called headache. You become nervous, despondent, sick, feverish and miserable, your meals sour and almost nauseate you. Then you resort to acetaniline, aspirin or the bromides which temporarily relieve but do not rid the blood of these irritating toxins.  
A glass of hot water with a teaspoonful of limestone phosphate in it, drunk before breakfast for awhile, will not only wash these poisons from your system and cure you of headache, but will cleanse, purify and freshen the entire alimentary canal.  
Ask your pharmacist for a quarter pound of limestone phosphate. It is inexpensive, harmless as sugar, and al-
