

# Airplane Service Is Planned For Alaska

DAWSON, Y. T., March 30.—(By mail)—Airplanes may soon be carrying passengers and mails high over the rugged trails and wild waters taken by the hardy stamperers of 1898 in their rush for the gold of Klondike. According to a story brought here from the coast, a passenger carrying flying machine service is being projected for the route between Dawson and Skagway, Alaska, the nearest seaport.

It was thru Skagway and up over the jagged Dyea and Chilkoot passes and down the dangerous White Horse rapids and Niles Canyon of the Yukon River to Dawson that the pioneers came twenty years ago.

No details of the proposed airplane service have been received.

# First National Bank

**Have You a Little Bookkeeper in Your Home?**

If not, let us do the work for you. The service is free. We retain a competent force of men to keep track of your business. Your accounts are kept as straight or straighter than you would keep them yourself.

By maintaining a checking account in our bank, you get an accurate summary of your business transactions at the end of each month, or at any period in the meantime that you might desire. Cancelled checks are unmistakable items of expenditure.

Start an account with us and see how it works.

Special attention is called to the necessity of prompt deferred payments on Liberty Bonds, due as follows:

Five per cent with application on or before May 4, 1918.

Twenty per cent on May 28, 1918.

Thirty-five per cent on July 18, 1918.

Forty per cent on August 15, 1918 (with accrued interest from May 9, 1918, on the three deferred installments)

# Laws of the Road Cited By Officer

**Chief of Police Wilson Calls Attention of Automobile Owners and Drivers of Jitneys to the Laws of the Road and the Rules Governing Their Operation.**

The laws of the road, as defined by the Legislature of Oregon, and by ordinance of the City of Klamath Falls are:

- 1—Vehicles proceeding in opposite directions shall pass to the right, giving one-half the road to each vehicle.
- 2—Vehicles proceeding in the same direction overtake and pass by passing to the left.
- 3—The overtaking vehicle shall maintain its speed until clear of the overtaken vehicle, and for such distance thereafter as shall prevent dust and mud throwing on the overtaken vehicle.
- 4—The signal to pass shall be given by one blast of the horn, bell or other signaling device.
- 5—Should the overtaken vehicle then not give way, three such blasts shall be given, and on failure to comply the overtaking vehicle may at the next suitable place safe to both vehicles go by without further signal.
- 6—It shall be the duty of every overtaken vehicle to turn to the right and give one-half the road.
- 7—Vehicles approaching an intersecting road, street or highway shall be under control, so as to permit the vehicle on the right of the vehicle approaching to first cross the intersection.
- 8—At all intersections, the vehicle approaching the intersection from the right of any vehicle approaching the intersection shall have the right of way.
- 9—All vehicles approaching an intersection of a street, road or highway with the intention of turning right, shall, in turning to the right, keep closely to the right, and in turning to the left shall run to and beyond the center of the intersection. For example: A vehicle coming up Sixth street with the intention of turning the intersection at Sixth and Main, must give a vehicle on Main approaching the intersection at the same time from the direction of Seventh street the right of way across the intersection.
- 10—The person in charge of any vehicle proposing to turn an intersection must give a plainly visible or audible signal of his intention so to turn.
- 11—Every vehicle shall be kept upon the right half of the street, and no vehicle shall overtake and pass any other vehicle when the view ahead is not clear for at least 100 feet.
- 12—No vehicle shall be run at a greater speed than one mile in four minutes, or in plain English, 15 miles per hour, on any of the city streets.
- 13—No vehicle shall be operated on the street with an excessive smoking or noisy exhaust.
- 14—Vehicles are prohibited from standing on Main street between Second street and Ninth street, or on Sixth street between Main street and Klamath avenue, or on the easterly side of Fifth street, between Main street and Klamath avenue for a longer period than twenty minutes at any one time between the hours of 7 o'clock a. m. and 7 o'clock p. m.
- 15—Vehicles are prohibited from stopping within thirty feet of any street corner.
- 16—In stopping on Main street vehicles must stop parallel with and close to curb.
- 17—On streets where vehicles are allowed to park, vehicles shall run in to curb in the direction of travel, with front to curb, and at an angle of approximately 45 degrees.
- 18—Vehicles for hire are prohibited from standing on the streets mentioned in subdivision 15 above, between the hours of 7 o'clock a. m. and 7 o'clock p. m. The word "stand" as herein used means the use and occupancy of said streets by vehicles for hire while awaiting patronage.

**GIRLS! YOU CAN LIFT THEM OFF**

Doesn't hurt a bit to lift your sore, touchy corns right out

A noted Cincinnati authority discovered a new ether compound and called it freezone, and a quarter ounce of it now can be had for a few cents at any drug store.

You simply apply a few drops of this magic freezone upon a tender corn or painful callus and instantly the soreness disappears, then shortly you will find the corn or callus so loose that you can lift it off with the fingers.

You feel no pain, not a particle of soreness, either when applying freezone or afterwards, and it doesn't even irritate the skin.

Hard corns, soft corns or corns between the toes; also toughened caluses, just shrivel up and lift off so easy. It is wonderful! It works like a charm. Try it!

Women should keep it on their dressers and never let a corn ache twice.—Adv.

that beautiful dark shade of hair which is so attractive, use only this old-time recipe.

Nowadays we get this famous mixture, improved by the addition of other ingredients by asking at any drug store for a 50-cent bottle of "Wyeth's Sage and Sulphur Compound," which darkens the hair so naturally, so evenly, that nobody can possibly tell it has been applied. You just dampen a sponge or soft brush with it and draw this through your hair, taking one small strand at a time. By morning the gray hair disappears; but what delights the ladies with Wyeth's Sage and Sulphur Compound is that, besides beautifully darkening the hair after a few applications, it also brings back the gloss and lustre and gives it an appearance of abundance.

Wyeth's Sage and Sulphur Compound is a delightful toilet requisite to impart color and a youthful appearance to the hair. It is not intended for the cure, mitigation or prevention of disease.—Adv.

**Big Eaters Get Kidney Trouble**

Take Salts at first sign of Bladder irritation or Backache

The American men and women must guard constantly against kidney trouble, because we eat too much, and all our food is rich. Our blood is filled with uric acid which the kidneys strive to filter out, they weaken from overwork, become sluggish; the eliminative tissues clog and the result is kidney trouble, bladder weakness and a general decline in health.

When your kidneys feel like lumps of lead; your back hurts or the urine is cloudy, full of sediment, or you are obliged to seek relief two or three times during the night; if you suffer with sick headache or dizzy, nervous spells, acid stomach, or you have rheumatism when the weather is bad, get from your pharmacist about four ounces of Jad Salts; take a tablespoonful in a glass of water before breakfast for a few days, and your kidneys will then act fine. This famous salts is made from the acid of grapes and lemon juice, combined with lithia, and has been used for generations to flush and stimulate clogged kidneys; to neutralize the acids in the urine so it no longer is a source of irritation, thus ending bladder disorders.

Jad Salts is inexpensive; cannot injure, makes a delightful effervescent lithia-water beverage, and belongs in every home, because nobody can make a mistake by having a good kidney flushing any time.—Adv.

# Man Who Taught Roosevelt to Box Dies

Professor Mike Donovan, who taught Theodore Roosevelt and his sons how to box, has passed away in his 73d year. Mike Donovan more than forty years ago was recognized as the middleweight champion of the United States, the bare-knuckle middleweight champion, under London prize

**Hopes Women Will Adopt This Habit As Well As Men**

Glass of hot water each morning helps us look and feel clean, sweet, fresh.

Happy, bright, alert—vigorous and vivacious—a good clear skin; a natural rosy complexion and freedom from illness are assured only by clean, healthy blood. If only every woman and likewise every man could realize the wonders of the morning inside bath, what a gratifying change would take place.

Instead of the thousands of stinky, anemic-looking men, women and girls with pasty or muddy complexions; instead of the multitudes of "nerve wrecks," "rundowns," "brain fags" and pessimists we should see a virile, optimistic throng of rosy cheeked people everywhere.

An inside bath is had by drinking, each morning before breakfast, a glass of real hot water with a teaspoonful of limestone phosphate in it to wash from the stomach, liver, kidneys and ten yards of bowels the previous day's indigestible waste, sour fermentations and poisons, thus cleansing, sweetening and freshening the entire alimentary canal before putting more food into the stomach.

Those subject to sick headache, biliousness, nasty breath, rheumatism, colds; and particularly those who have a pallid, sallow complexion and who are constipated very often, are urged to obtain a quarter pound of limestone phosphate at the drug store which will cost but a trifle but is sufficient to demonstrate the quick and remarkable change in both health and appearance awaiting those who practice internal sanitation. We must remember that inside cleanliness is more important than outside, because the skin does not absorb impurities to contaminate the blood, while the pores in the thirty feet of bowels do.—Adv.
