

Eighteen Klamath Precincts Over Top

That eighteen precincts in Klamath County are over the top and in the blue column is shown by the official checking of returns upon April 25th. Five precincts have not as yet sent in their returns to headquarters, but they claim to have scored over 100 per cent of their quota, but credit cannot be given to them upon the official record until their subscriptions are handed in and checked up. During the past week all the precincts which were lagging behind have gone from the yellow column into the red. The figures show that there are several precincts which require but one little boost to place them in the honor column. Five of these have passed the 90 per cent mark, and no doubt during the coming week will pass into the blue. It will require vigorous and strenuous work, however, in some of the precincts if Klamath County is to score a full 100 per cent on precinct returns, and the workers in these precincts are urged to throw off their coats and clean up the job. The campaign will positively close the evening of May 4th, and after the close of business on that date banks will not receive further subscriptions for the Third Liberty loan.

Following is the standing of the various precincts at the close of April 25, 1918:

FAIR TRIAL

The Log of the Test Car Fleet

"Linear Mile, 1,044,686. Tiro Miles, 4,178,744"

Thus runs the log of the SIX FLEETS as it runs up the logues on leagues traveled by the Goodrich Test Cars in their nation wide tire-testing cruise of 1917. That grand total marks the mileage high tide of tire making. Read in it the dawn of a new understanding of the service, the rise of a new tire standard which includes all other standards--The TESTED of--

GOODRICH TESTED TIRES

The cold figures of the log underwrite the lasting strength of Goodrich Tires; for no tire could hide a weakness in that multiplied mileage. Those records and the tires stand surety for Goodrich Tires of 1918.

For 1918 Goodrich Tires--look at their generous, masterful size at any Goodrich dealer--took the bulk of the rough going. They measured up to all the Goodrich Tire qualities, and added new virtues.

BLACK SAFETY TREADS, and SILVERTOWN CORDS, challenged every handicap of road and weather, and defeated them with steadfast dependability and durability.

You make the test your guarantee of pure food and pure gold. Make it your guarantee for tires, and gain economy, comfort, and freedom from tire mishaps. Demand America's Tested Tires.
