

Believes Russia Will Re-Enter War

LONDON, April 4.—(Correspondence of the Associated Press)—Captain Jean Seba of the Czech-Slovak army, who has just reached London from the Russian port on the Murman coast, has been engaged for several months in organizing a Czech-Slovak army in Russia, composed mainly of men who were formerly in the Austrian army and became prisoners in Russia. In an interview with the Associated Press he said:

"Our army in Russia is so far a small one, but the men having been formerly in the Austrian army are well trained, and are thoroughly acquainted with the organization and methods of the enemy."

"My observations in Russia during the past few months convince me that for the present Russia is like a sick person, who needs a breathing space and a rest cure. I am sure she will again come into the war. But it is of prime importance that the Russian invalid should not be deserted by his friends, or left to his fate."

"With the help of the allies, Russia

can be brought back. There is already plenty of evidence of a reaction. The working classes are beginning to realize that if Germany is permitted to go on, everything will be lost. All over the country there are local Soviets and other organizations which will never give in to German influences."

GENEVA, May 1.—The German newspapers are warning the people that they must hurry and win the war before the Americans can arrive in full force.

PURE BRED SHORTHORNS SHIPPED IN

CARLOAD OF FINE YOUNG BULLS
WILL BE IMPORTED FROM
DAVIS, CALIF.—MANY STOCK-
MEN BREEDING UP

That a carload of pure bred Shorthorn bulls which are to be offered for sale to Klamath County stockmen, will be brought in the latter part of this week, is announced today by Luke Walker, a well known local stock dealer.

The animals have been shipped from Davis, Calif., where the State Agricultural College is located, by H. H. Schmidt, after considerable delay, according to a wire just received.

It is pleasing to note the tendency on the part of the stockmen during the past few months especially, to increase the quality of their herds by purchasing pure bred bulls from outside districts. It is being realized more and more that it costs no more to raise a high grade animal than a poor one, and in fact, in most cases, it costs less, and the initial expense is soon lost sight of in the result. These things are being brought home with greater emphasis as the feed becomes scarcer.

A May dancing party for the benefit of the St. Paul's Episcopal Mission, will be given at Moose hall May 24. Dance tickets 75 cents. Sandwiches and coffee will be served by several of the Episcopal Guild. 1-3t

Will Find Jobs For the Women

MRS. OLIVE STOTT GABRIEL

Mrs. Olive Stott Gabriel of the New York University School of Law, has been named chairman of the employment committee of the mayor's committee on national defense in New York City. She has been chosen for the place because it was believed she could do much toward finding positions for women where the men occupying them formerly had gone to the war. Mrs. Gabriel has been a successful lawyer since her graduation from the school in 1903.

KLAMATH OUTDOORS CALLING

WARM DAYS BRING MANY APPLICATIONS FOR FISHING AND HUNTING LICENSES AT COUNTY CLERKS OFFICE

With the warm balmy days of the past week, the call of the field and stream, which has been more or less dormant in the Klamath County sportsmen during the winter months, is commencing to make itself evident, and a visit to the county clerk's office, which is one of the first strong symptoms noted when the fever reaches a certain pitch, has resulted.

Officials at the county clerk's office assert that on an average of eight or nine applications for fishing or combination licenses are now received daily. The fish in Spring Creek are now biting fine, according to R. C. Spink, who is down for a few days from his home at Idlerest. Mr. Spink had a tussle with a fifteen-pound trout there a short time ago, which he landed successfully.

GERMANS PLAN INVASION OF THIS COUNTRY

GENERAL STAFF OF HUN FORCES HAVE DETAILS WORKED OUT AND ON FILE FOR SUBJUGATION OF UNITED STATES

CAMP LEWIS, May 1.—That the plans are now in the hands of the German general staff for the complete invasion of America and that they are worked out to the minutest detail was made public in a communication from Bennett Powell, acting secretary of war, published in the Tacoma Army Camp, and which is a part of an appeal for the success of the Third Liberty loan. The communication, in part, follows:

"Did it ever occur to you what would happen if we fell? If we are beaten in France the struggle will be transferred to American soil. Plans for the invasion and subjugation of the United States are now on file in the office of the German general staff. This we know definitely. This invasion will mean that we are to suffer here all the horrors of Belgium and Poland. Do you wish your wife and children to be actors in such a drama of frightfulness?"
