BEND BUCKING CRATER PARK ENLARGEMENT

COMMERCIAL CLUB LAST NIGHT ADOPTS STRONG RESOLUTIONS OPPOSING SENATOR McNARY'S NEW MEASURE

BEND, Ore., May 5.—The Bend Commercial Club last night passed a resolution condemning the bill recently introduced by Senator McNary, which would remove about 126 square miles from the Crater Lake forest and place it in the Crater Lake National park, on the grounds that the land is needed at this time for grazing purposes.

Resolutions were also passed by the Central Oregon Sheepmen's Association and other livestock associations, condemning the enlargement of the Crater Lake park at a time when the Nation is in need of the range for feed purposes.

It is not understood here why Senator McNary should have introduced a bill in the senate which would work such an injustice to the people of the state east of the Cascades.

The bill introduced by Senator McNary includes Mount Thielsen, Diamond Peak and a large territory of scenic country to the north of the present boundaries of the park.

It was introduced at the solicitation of communities west of the Cascades, who assert that the park should be made to include other attractions beside merely the lake, and draw the tourists for longer visits.

5 MILLION EGGS TAKEN IN KLAMATH THIS YEAR

(Continued from page 1)

that any of the fishing streams of Klamath will be depleted, but, on the contrary, it will result in greater facilities for the sportsmen of this section, as all of the streams will be continually restocked, and the great waste in the loss of the young trout just hatched will be prevented. The egg taking streams are only closed for a very short period each season, so that the operations of the commission will insure a perpetuation of this county as the great trout fishing section of the state, if not of the entire coast.

Mr. Finley took some excellent motion pictures of the Klamath hatchery, showing all stages of trout propagation, from the trapping of the fish to the taking of the eggs, and also as they appear in the eyeing stage, and later as fingerlings. He is very enthusiastic over the showing at the Klamath hatchery, and joins with Mr. Stone in urging the people of Klamath County in taking the first opportunity of visiting the hatchery, which is now recognized as the greatest trout hatchery in Oregon.

CHURCHES RESUME SERVICE

The churches which were closed last Sunday, on account of the prevalence of typhoid fever, will resume services next Sunday, as it is believed the danger of the spreading of the disease has passed. All of the churches will be fumigated in the meantime.

The purpose of the National War Savings committee is to create an army of savers who will, by saving, release labor and materials for the use of the government in the war, and who will lend their savings to the government to prosecute the war.

Germany Now Facing Serious Food Problem

WASHINGTON, D. C., May 5.—Further information revealing how critical the food situation in Germany has become has reached here from private sources. The nutrition committees of the reichstag and landtag have been holding daily sittings. The question of reducing the present rations has not been decided. It is indicated that there is but small hope of relief from the Ukraine, where the large cities are suffering from insufficient food. Even if Ukraine supplies are obtainable, it will not give an increase in the food ration. An official report made public in Germany on May 2 said there were 22,000 carloads of grain ready to be shipped for shipment to Germany, but even if it is there, it will do little to help prevailing conditions. AMSTERDAM, May 5.—To feel hunger without at the same time suffering from headache or any other disposition is very difficult for most people," reads the opening sentence of a significant advertisement inserted in Sunday's Tageliche Rundschau of Berlin by a Berlin chemical firm, producing a newly invented drug which "is not forming a substitute for the minimum daily sustenance, is an excellent preparation for stilling premature hunger and enables one to hold out until the next meal time."

Conditions Now In Persia Terrible

WASHINGTON, D. C. May 5.—Conditions in Persia are described as desperate in a dispatch to the state department from the American legation at Teheran. Famine is increasing, and typhus, the message said, is prevalent in most of the cities. The food shortage, the legation reported, has forced the population to eat dogs and even practice cannibalism.
