

# Style that is Outside Evidence of In-Built Quality

## There is nothing that suggests veneer, about styles of our clothes, made by THE HOUSE OF KUPPENHEIMER

You see a solidity of fabric, lapels that roll smoothly and firmly, shoulders and collars that show a foundation of good hair cloth and canvas beneath, and many other details that evidence in-built quality---quality that means long wear and permanent fit and style---real economy. Spring suits are here---the smartest in town---values that are rare these days

## Plan Your War Garden Now, Save Time and Money.

HELP INCREASE OUR EXPORT FOOD STOCKS

**N** CITY and country more war gardens are needed this year than ever before. Patriotism prompted 2,000,000 Americans to plant gardens last year, according to estimates of the United States Department of Agriculture. Transportation facilities of the nation will be strained this year hauling munitions of war and foods for the Allies. The surplus food created by home gardens will help in the railroad problem. And the nation will eat less of the goods we must export--wheat, meat, fats and sugar. Every boy and girl that helps with the garden is helping win the war. Leaflets of instruction in garden making may be secured from the Department of Agriculture at Washington, upon request, without charge.

ures of vital importance are before the senate and its committees, and to become familiar with their import and operation requires faithful attendance upon their consideration. By remaining here in Washington I shall be in a position to force upon the attention of congress the bill I have introduced to empower the president to fix the price on the necessities of life, which legislation is necessary, in my opinion, to remove the possibilities of actual suffering by the American people. In addition thereto, I am greatly interested in passing into law at this session of congress a measure calculated to invite private capital to assist irrigation projects thru the government guaranteeing the district bonds. Also I have recently introduced a bill granting preferential rights to soldiers and sailors. In view of this situation I am leaving my campaign to my friends in Oregon and those who approve of my course in congress.

Are you saving for yourself alone or buying War Savings Stamps and saving for yourself and your country?

## The KAISER "The beast of Berlin"

THE MOST TERRIFIC INDICTMENT OF THE MAN WHO MADE THIS WAR THAT HAS EVER BEEN PRESENTED

### WHAT DO YOU REALLY KNOW ABOUT THE KAISER, "THE MAD DOG OF EUROPE?"

Did you know that the kaiser had a poison-filled abscess in his ear, and that if it burst he would be a raving maniac?

Did you know that the kaiser's left arm is six inches shorter than his right, and that the hand is puny as a child's? And did you know how he carried it in order to disguise the deformity?

Did you know that the kaiser has a mania for admiring beautiful hands which greatly embarrasses the ladies of his court? That he wears many bracelets and feminine rings, copied from these he admires? That he has 360 full-dress uniforms; that he was twice king, twice a grand duke, 18 times a duke, twice a prince, nine times a count, besides being a bishop.

Did you know why he slaps his right thigh all the time? Of course, you didn't. Few people outside of the imperial circle know them. They are secrets as carefully guarded as has been the proof that Germany planned and started the war.

All these things and many more in the private life of the Jastak of Europe, are shown in "The Kaiser, the Beast of Berlin." To miss it is to miss the most illuminating expose of this enemy of mankind.

## McNary At Capital During His Campaign

**WASHINGTON, D. C., May 13.**—(Special)—In view of many inquiries from friends whether he would return to Oregon to engage in the finals of the primary contest, Senator Charles L. McNary issued the following statement today: "No, I shall not go to Oregon under any circumstances, as such a course would conflict with my plain duty to remain here in Washington and perform the various official obligations that arise from day to day. In returning to Oregon only one purpose could be served, and that is the advancement of my candidacy for the office of United States senator, which is small by comparison with the greater duty of rendering constant and uninterrupted service to the people of my state and nation in this grave hour of international conflict.
