

New Airplane Service Opens Up Wide Field

WASHINGTON, D. C., May 20.—With the establishment of a regular airplane mail service between Washington and New York, the postoffice considers that the project is experimental only in the sense that a new familiar means of locomotion is to be put practically to a new use. The war has demonstrated effectively that the airplane as a conveyance is almost as dependable and safe as an automobile, so the only real obstacle in the way of successfully operating the new air line lies in maintaining service under all kinds of weather conditions.

The war department has furnished twelve large training planes for use in the new service. Aviators have been detailed from the ranks of fighting airmen, as war department officials

feel that the newly commissioned fliers will acquire valuable training in piloting the big mail carriers over long cross-country flights.

The planes, each capable of a minimum speed of ninety miles an hour, are built along the lines of the regular bombing machine. They are one-seaters, as a maximum space is desired in the fuselage for the storing of mail bags.

The schedule provides for the departure of one plane each day from both Washington and New York. The machines leave promptly at 11:30 in the morning, and it is hoped to have the mail deposited at the terminals not more than three hours later. Starting from the Mall in Washington, near the Washington monument, the trip to

Philadelphia, about 135 miles, is expected to be made in about an hour and twenty minutes. At the hangars in North Philadelphia another machine will be waiting, ready to start the flight to New York as soon as the incoming plane lands and the transfer of mail bags is made. The second leg of the journey, from Philadelphia to Belmont field, in the Long Island suburbs of New York, should be made in about an hour. The larger planes carry about 600 pounds of mail, or approximately 24,000 letters. The smaller machines will carry about half that amount.

The rate of postage has been established by law at 24 cents an ounce or a fraction thereof. However, this entitles the sender to have the letter forwarded to the addressee by special delivery service, in case the airplane arrives too late for the regular city deliveries.

American boys are dying for their country. Surely you can save for it. Buy War Saving Stamps.

"A great net of mercy drawn through
an ocean of unspeakable pain"

WE'LL WIN

What does it mean to you to know that your American Red Cross:

- Is supporting 50,000 French children.
- Sends supplies to 3,423 French military hospitals.
- Provides 2,000 French hospitals with surgical dressings.
- Is operating thirty canteens at the front line.
- Is operating six other canteens at French railway junctions, serving 30,000 French soldiers a day.
- Operates a movable hospital in four units, accommodating 1,000 men.
- Is operating a children's refuge in one part of the war zone; and in another a medical center, and traveling dispensary, both capable of accommodating more than 2,000 children.
- Has opened a long chain of warehouses stocked with hospital supplies, food, soldiers' comforts, tobacco, blankets, etc., all the way from the seaboard to the Swiss frontier.
- Has warehouse capacity for 100,000 tons.
- Has 400 motor cars and operates 7 garages, making all repairs.
- Had shipped 46 freight car loads of assorted supplies to Italy from France within two weeks after it began operating in the former country.
- Had a battery of motor ambulances at the Piave front four days after the United States declared war on Austria.
- Started a thousand different activities in Italy at the time that nation was in its most critical condition.
- Has established 5 hospitals in England and operates a workshop for hospital supplies employing 2,000 women.
- And that 120,000 cases of supplies have been received at the Paris headquarters of the American Red Cross from your various chapters scattered throughout the United States.

What does all this mean to you? And that is but a fraction of the work your Red Cross has done and is doing. It means that without this ceaseless, heroic work of the American Red Cross we could never win this war.

Without your Red Cross quick, vital help to keep Italy in the fight for Liberty would not have been possible.

Without your Red Cross thousands of French soldiers now gallantly fighting for you at the front would have died of wounds, exposure and lack of food.

And great and wonderful as has been the work of the American Red Cross in the past, still greater and more wonderful must it be in the future—for now *your* boy is in the fight.

Your Red Cross cannot neglect France, England, Italy, Serbia, Roumania and little Belgium. It must give them all constantly increasing help, for the men of these countries have been fighting our battles.

But now we must all redouble our efforts and sacrifices for our Red Cross because a million mothers' sons are going to carry the stars and stripes to the greatest victory God has ever given to men fighting for honor and liberty.

With the help of your Red Cross your boy will win.

Prominent Scientist Lectures Here

MEMBER OF BOARD OF LECTURESHIP OF CHRISTIAN SCIENCE CHURCH AT BOSTON MAKES ADDRESS HERE YESTERDAY

Members of the Christian Science church and those interested in this faith, had the unusual pleasure yesterday of hearing an address by one of the nation's prominent leaders from the Mother Church at Boston, Mass., Prof. Hermann S. Hering. A large assemblage gathered at the Houston opera house to hear the lecture. He was introduced as follows by T. O. Hague:

"Friends and Neighbors—We have called you to this meeting to hear a lecture on Christian Science. While the teaching and living of Christian Science gradually is opening the eyes of doubters and critics, as a religion of love and obedience, there are many to whom a clear statement of the truths of Christian Science will naturally appeal when rightly comprehended.

"We have the most unqualified respect to the honest opinions of all Christian denominations. I was born in the English church, educated in the Congregational, and graduated from the Presbyterian church when the gates of Christian Science were opened to me as a religion of Love, by the teachings of Mary Baker Eddy, as stated in 'Science and Health,' and other writings of our revered leader. We do not have to remind you as to the spreading of Christian Science in every country of the world, fulfilling the teachings of our Master, who said: 'And I, if I (the Christ) be lifted up, will draw all men unto me,' together with another saying of His: 'If any man will do my will he shall know of the doctrine.'

"I have now the pleasure to introduce to you Professor Hermann S. Hering, member of the board of lecturership of the Mother Church, the First Church of Christ, Scientist, in Boston, Mass., who will now address you."

A Lecture on
CHRISTIAN SCIENCE
Entitled
"THE SCIENCE OF CHRISTIAN
HEALING"

By Prof. Hermann S. Hering, C. S. B.

Member of the Board of Lectureship of The Mother Church, The First Church of Christ, Scientist, in Boston, Mass.

What is the cause of the marvelous growth of the Christian Science movement, whose effects are felt in all civilized communities? Why are there so many churches being organized and beautiful edifices being erected? It is gratitude for the healing which has been accomplished—the healing of sin, sorrow, suffering, sickness.

The whole world is in need of healing, and it is very evident that there is a great demand for some better means of healing the ills of the world, both sin and disease, than is in general use today.

From the Gospels we learn that Christ Jesus, our Savior, was the Great Physician, who has for all time set the standard of perfect healing before humanity. That many do not believe in his Gospel, is due to the fact that they do not fully understand his teaching, especially the true nature and philosophy of the so-called miracles which he performed.

The Gospels record many instances of the healing of physical disease by Christ Jesus. He restored a withered hand; he healed a cripple and a man born blind; he healed cases of paralysis, leprosy, dropsy, hemorrhage, epilepsy, violent insanity, and he raised the dead.

Furthermore, he specifically commanded his disciples that they should continue the healing work. Peter, Philip, Paul and other followers healed paralysis, lameness, deformity, insanity, and even raised the dead in connection with their missionary work. Indeed, healing was very generally practiced among the early Christians.

Non-believers in the Bible and in what are called miracles are confronted with the fact that healing is taking place today, in their very midst, and thru purely spiritual means, which fact can be determined by any sincere investigator; yet they deny the availability of spiritual power over material things because they do not under-

stand spiritual law and the Principle which operates in Christian healing.

One cause for this difficulty is the failure to apprehend the relationship between the inner world of thought and the outer world of phenomena and thus to grasp the mental nature of existence. This is due mainly to the prevailing belief in matter, which is conceded to be the greatest stumbling block to an understanding of Christian healing and to belief in the Bible itself.

From the physical standpoint, matter is seen to be the appearance, externalization or projection of force or energy, and consequently what we touch, hear, see, smell, or taste, is in fact, force. In every case it is not matter or an object which cognizes or is cognized, but a mental phenomenon experienced in consciousness. We are conscious of existence mentally and the things we are conscious of are mental impressions objectified—sense phenomena. Thus existence, together with all its activities, appearances and phenomena, is in fact wholly mental. Christ Jesus assuredly proved the mental nature of matter and existence when he walked on the water, stilled the tempest, multiplied the loaves and fishes, healed the sick, raised the dead and overcame other material conditions.

Whatever enters our existence, enters it mentally, as a state of consciousness, and consequently disease, disaster and death are but experiences in consciousness. What else can they be? Where else can they be? Hence in order that they may be healed, it is very evident that a change must be brought about in the human consciousness, a transformation by the renewing of the mind, as St. Paul puts it.

The universe which is created and forever sustained by God, must be like his Creator, since like begets like; hence man, the real man, as defined in the first chapter of Genesis, is not material, but spiritual consciousness; not evil, but good; not mortal, but immortal. Thus we see that all reality, every expression of the divine activity, is infinite, indestructible, unchanging, perfect, harmonious, spiritual; consequently whatever has not these qualities is no part of Truth, not real. Hence, matter, mortal mind and all the phenomena of material sense, being unlike this divine reality, are unreal. On this basis of infinite Truth we are enabled to distinguish at any time between what is absolute, divine, real; and what is relative, human, unreal. This understanding, the perception and apprehension of divine Truth, Christian Science now makes possible to all.

Scientific Christian healing is Christian Science healing and involves the knowing of spiritual Truth, the recognition of material error as error, and the application to the error of the specific, antidoting, divine truth which corrects and heals it.

In Christian Science treatment there is no effort at mental manipulation, for the carnal, mortal mind is not a factor in the healing work. The healing mind is the divine Mind, and this being infinite and omnipresent, the knowing of the truth regarding the real man, together with the denial of the errors of mortal mind, brings the truth to bear upon the case, no matter whether the person is nearby or far away.

The love and gratitude which Christian Scientists feel toward Mrs. Eddy is not to be wondered at when one takes into account the great good which has come into their lives as the result of her teachings.

The whole world is indebted to her for her scientific and spiritual interpretation of the Bible, especially the words and works of the Master, and for her demonstration of the truth of his teaching. In the face of the so-called higher criticism, the doubt respecting the correctness of much Scripture teaching and the denial of the possibility of obeying Christ Jesus' commands, Mrs. Eddy's proof that the Bible is true stands out as the greatest, most significant achievement of this age, for thereby the truth of Christianity and the rightness of its basis is scientifically established. This has never been done before.

To Christian Scientists Mrs. Eddy is a living example of the triumph of faith in God, a faith deep and vital because rooted in spiritual experience. She knew God right. She looked to divine intelligence and proved that God is Mind. She was governed by spiritual law and proved that God is Principle. She looked to God for health and proved Him to be Life. She loved all mankind and proved that God is Love. She gave her all for the "pearl of great price," the knowledge of God, and offered it to all the world.

LEGAL NOTICES

Notice Inviting Bids for Installing Sewer Main

Bids will be received by the Common Council up to and including the 20th day of May, at 8 o'clock p. m., for installing a six-inch sewer main in Fairview Addition "one" and "two," between the points named as follows:

Beginning at the intersection (center of intersection) of Delta street and the alley separating Fairview Addition No. 1 from Fairview Addition No. 2, running thence south thru the center of said alley to Upham street; thence a connection with the manhole at the center of the intersection of Upham and Prospect streets; beginning again at center of intersection of said alley and Fulton street, and running thence west on Fulton street to the west boundary line of Oregon avenue, terminating in a manhole to be installed at said last mentioned point.

The main is to be installed under the direction and supervision of the city engineer, and will include the placing of Y's and manholes and lamp-holes as he may direct and order.

The city will furnish 600 feet of six-inch vitrified sewer pipe. The successful bidder to furnish balance of pipe required. The total length of main to be installed being 1,370 feet.

The installation to be completed within thirty days from the date of entering into bond and contract for its installation.

A bond of \$500 will be required from the successful bidder.

All bids must be accompanied by a certified check to the amount of 10 per cent of bid, to be forfeited by successful bidder in the event of failure to enter into contract and bond with the city council within five days after award.

By order of Common Council.
A. L. LEAVITT,
Police Judge.
