The Password for Tires

TESTED TIRE

CHALLENGE every tire before you buy. Make it give the watchword of tire quality, **Tested**. Make it show the counterclaim of tire supremacy, the Goodrich trademark. If a tire answers "Goodrich Tested," buy it. It is a friend.

It will give you full and lasting service because its service, put to the nation-wide road test of Goodrich Test Car Fleet, has measured up to the Goodrich standard of tires, the Tested of—

GOODRICH TESTED TIRE

There is no risk with the tire that can give the password "TESTED," for no weakness, no structural failure could hide itself during the month to month, season to season, testing of the Test Car Fleet.

SILVERTOWN CORDS, and **TRAC SAFETY TREADS**, challenged America's roads, and under light and heavy cars fought sand, gravel, and rock, in rain, mud, snow, and slush, and defeated them. The spiral-wrapped, cable-core tire body stood staunch against the hammering of mountain trails. The close-clutch, cross-barred, non-skid black safety tread, baffled the teeth of desert and prairie paths.

Demand this password of all tires before you buy, and you will get the durability, dependability, and economy of the tires which the roads of every region of our land proclaim, "America's Tested Tires."
