FEW FOLKS HAVE GRAY HAIR NOW DRUGGIST SAYS LADIES ARE USING RECIPE OF SAGE TEA AND SULPHUR

Hair that loses its color and lustre, or when it fades, turns gray, dull and lifeless, is caused by a lack of sulphur in the hair. Our grandmothers made up a mixture of Sage Tea and Sulphur to keep her locks dark and beautiful, and thousands of women and men who value that even color, that beautiful dark shade of hair which is so attractive, use only this old-time recipe.

Nowadays we get this famous mixture, improved by the addition of other ingredients by asking at any drug store for a 50-cent bottle of "Wyeth's Sage and Sulphur Compound," which darkens the hair so naturally, so evenly, that nobody can possibly tell it has been applied. You just dampen a sponge or soft brush with it and draw this through your hair, taking one small strand at a time. By morning the gray hair disappears; but what delights the ladies with Wyeth's Sage and Sulphur Compound is that, besides beautifully darkening the hair after a few applications, it also brings back the gloss and lustre and gives it an appearance of abundance.

Wyeth's Sage and Sulphur Compound is a delightful toilet requisite to impart color and a youthful appearance to the hair. It is not intended for the cure, mitigation or prevention of disease.—Adv.

GOODBYE FOR POOR ROOSTER

"CAN THE COCKEREL WEEK" STARTED BY O. A. C., IS PLANNED TO REDUCE MUCH OF ANNUAL LOSS IN FAULTY EGG PRODUCTION

SALEM, May 27.—U. L. Upson, formerly of Grants Pass, and an authority on poultry raising, is touring the state as federal poultry husbandman. He is investigating all the large poultry centers of the valley. While here he said:

"It is costing the farmers of Oregon about \$300,000 yearly because of faulty methods of producing and handling the present egg supply. A large part of the loss is occasioned by the production of fertile eggs during the warm months. For this reason the department of agriculture in conjunction with the Oregon Agricultural College, has designated the week beginning June 3d as "Can the Cockerel Week," and a state-wide campaign will be conducted to dispose of or can—literally as well as figuratively—all undesirable adult male fowls, and to dispose of all young cockerels as soon as they reach a marketable age."

R. C. Briggs of the U. S. geological survey, who is passing thru this district by auto, reached Klamath Falls yesterday.

Mrs. Claude Davis, who was taken sick last week, was removed to the Klamath General hospital on Saturday afternoon for medical treatment.

Mrs. C. S. Silaby, who has been ill for some time at her home in Hot Springs Addition, will leave tomorrow for a visit with relatives at Medford.

Mr. and Mrs. R. E. Wattenburg and Mrs. Jennie Hurn returned Saturday night from Seaside, Ore., where the two latter have been attending the Rebecca Assembly. They were accompanied by Mrs. Ralph Hurn of Portland, the bride of Ralph Hurn, who is now in the service in France.

Mr. and Mrs. Charles E. Worlen arrived last night from Portland with the intention of remaining several months in Klamath Falls. They will remain temporarily at the home of Mr. and Mrs. Burge Mason on Crescent avenue, and later move into their property adjacent, on Canby street.

Mrs. R. E. Smith returned today from a seven weeks' visit at Lake City, Iowa. The train on which Mrs. Smith was riding last week passed so close to the destructive cyclone which swept a wide portion of that state that the dirt from the edge of the storm blew over many of the passengers on the rear coach.

The Misses Nellie Moore and Katherine Ess were collecting for the Second Red Cross Drive in the Plevna district Wednesday and Thursday. They were very well pleased with the amounts taken in.

Miss Myrtle Ess spent a few days visiting Mrs. James Kerns this week. James Moore hauled hay to the Christy saw mill near Long Lake Friday.

Misses Irma Ager and Christine Murlock are home with their parents after spending the winter in Klamath Falls attending high school.

Walter Broadword, who operates a hardware establishment at Bonanza, was a week end business visitor at Klamath Falls.

J. S. McClellan, who operates a general mercantile business at Mt. Laki, was in town on business Saturday afternoon.

Mr. and Mrs. Robert DeHaven, who have resided on a ranch in the Lorella section for the past nine years, have left for San Diego, where they expect to remain in the future.

Child Appreciates Help From Klamath

The following is a translation of an interesting letter which has just been received by the St. Paul's Episcopal Guild from one of the little children of France who are being cared for by the ladies of this society:

"My Dear Benefactors—I thank you with all my heart for your kindness toward me. I have this morning received the sum of 45 francs. Your generosity does much to aid my mother to care for me and also my sister Fernande. I am 8 1/2 years old. My sister is 13.

"We have had the misfortune to lose our dear father. Never to see him again any more, and we loved him very much. I think of him often and have a heavy heart. What happiness it was for him to take me on his knees on his return from work, and how happy I was also. All this is ended for me. Father was killed in a battle by a grenade in Champagne in September, 1915.

"I go to school every day, and must work very much, so my mother will be

well pleased, but I love to play very much.

"During the winter we had American soldiers who were glad to come and warm themselves by our fire, as it was very cold here. They were very good and kind. After three months they went away and we have had no news of them. I am sending you a panny as a token of affection from your little sister in France.

U. S. Must Cut Use Of Wheat by One-Half

America Consumed 42,000,000 Bushels Monthly. From Now Until Harvest Must Use Only 21,000,000.

RATION PER PERSON IS 1 1/2 POUNDS OF WHEAT PRODUCTS WEEKLY

Military Necessity Calls for Greater Sacrifice Here—Allied War Bread Must Be Maintained—Our Soldiers and Sailors to Have Full Allowance.

If we are to furnish the Allies with the necessary proportion of wheat to maintain their war bread from now until the next harvest, and this is a military necessity, we must reduce our monthly consumption to 21,000,000 bushels a month, as against our normal consumption of about 42,000,000 bushels, or 50 per cent. of our normal consumption. This is the situation as set forth by the U. S. Food Administration at Washington. Reserving a margin for distribution to the army and for special cases, leaves for general consumption approximately 1 1/2 pounds of wheat products weekly per person. The Food Administration's statement continues: Many of our consumers are dependent upon bakers' bread. Such bread must be durable and therefore, requires a larger proportion of wheat products than cereal breads baked in the household. Our army and navy require a full allowance. The well-to-do in our population can make greater sacrifices in the consumption of wheat products than can the poor. In addition, our population in the agricultural districts, where the other cereals are abundant, are more skilled in the preparation of breads from these other cereals than the crowded city and industrial populations.

With improved transportation conditions we now have available a surplus of potatoes. We also have in the spring months a surplus of milk, and we have ample corn and oats for human consumption. The drain on rye and barley, as substitutes, has already greatly exhausted the supply of these grains.

To effect the needed saving of wheat we are wholly dependent upon the voluntary assistance of the American people and we ask that the following rules shall be observed:

- 1. Householders to use not to exceed a total of 1 1/2 pounds per week of wheat products per person. This means not more than 1 1/2 pounds of Victory bread containing the required percentage of substitutes and one-half pound of cooking flour, macaroni, crackers, pastry, pies, cakes, wheat breakfast cereals, all combined.
- 2. Public eating places and clubs to observe two wheatless days per week, Monday and Wednesday, as at present. In addition thereto, not to serve to any one guest at any one meal an aggregate of breadstuffs, macaroni, crackers, pastry, pies, cakes, wheat breakfast cereals, containing a total of more than two ounces of wheat flour. No wheat products to be served unless specially ordered. Public eating establishments not to buy more than six pounds of wheat products for each ninety meals served, thus conforming with the limitations requested of the householders.
- 3. Retailers to sell not more than one-eighth of a barrel of flour to any town customer at any one time and not more than one-quarter of a barrel to any country customer at any one time, and in no case to sell wheat products without the sale of an equal weight of other cereals.
- 4. We ask the bakers and grocers to reduce the volume of Victory bread sold, by delivery of the three-quarter pound loaf where one pound was sold before, and corresponding proportions in other weights. We also ask bakers not to increase the amount of their wheat flour purchases beyond 70 per

cent. of the average monthly amount purchased in the four months prior to March 1.

5. Manufacturers using wheat products for non-food purposes should cease such use entirely.

6. There is no limit upon the use of other cereals, flours, and meals, corn, barley, buckwheat, potato flour, et cetera.

Many thousand families throughout the land are now using no wheat products whatever, except a very small amount for cooking purposes, and are doing so in perfect health and satisfaction. There is no reason why all of the American people who are able to cook in their own households cannot subsist perfectly well with the use of less wheat products than one and one-half pounds a week, and we specially ask the well-to-do households in the country to follow this additional programme in order that we may provide the necessary marginal supplies for those parts of the community less able to adapt themselves to so large a proportion of substitutes.

In order that we shall be able to make the wheat exports that are absolutely demanded of us to maintain the civil population and soldiers of the allies and our own army, we propose to supplement the voluntary co-operation of the public by a further limitation of distribution, and we shall place at once restrictions on distribution which will be adjusted from time to time to secure as nearly equitable distribution as possible. With the arrival of harvest we should be able to relax such restrictions. Until then we ask for the necessary patience, sacrifice and co-operation of the distributing trades.
