

### Where Tar and Doughboy Meet

This is a scene in the library of "Unit No. 5," a home for soldiers and sailors in New York City, managed by the New York War Camp Committee Service. This organization operating under the general direction of Raymond D. Foodick, commissioner of training camp activities for the army and navy, got a large hotel in New York City and made room for one thousand cots for visiting tar and doughboy. Any man of the army or navy can sleep here for 25 cents, and he is guaranteed a good bed. He can pay 10 cents or 20 cents for his breakfast. Similar accommodations in New York City run by private enterprises would cost these men three times as much.

"who are at Ludendorff's elbow and are in charge of the western offensive. They are the inner High Command, being Ludendorff's personal and immediate war council."

Their names are given under the caption "Men of Action." They are: Colonel von Mers, Lieutenant-Colonel Wetzell, Lieutenant-Colonel Bauer, Major Fröhner, Major von Bockelberg, Major von Harbou, Captain Geyer.

It is hinted that Wetzell is chief of the intelligence department. Lieutenant-Colonel Bauer's forte is intuitive divination of Ludendorff's intentions," says the newspaper.

All of these seven men, it is said, have come to the front since the beginning of the present war. They are characterized as "men of untiring energy, drive, and capacity for quick decision."

### WARM WEATHER NOW HELPING STATE CROPS

LACK OF RAIN, HOWEVER, STILL SERIOUS DRAWBACK IN MOST CASES—IRRIGATED LANDS ARE IN GOOD CONDITION

PORTLAND, June 10.—The cold, unfavorable conditions of the previous week continued until the latter part of the present week, when somewhat higher day temperatures prevailed, says the summary of weather and crop conditions issued by the weather bureau here. "However," continues the summary, "there was no rain of any consequence and crops especially those on light lands, were beginning to suffer from drought. Vegetation has been practically at a standstill and needs good warm rains, particularly in dry farming districts, to insure satisfactory results. There were general complaints of strong northwest winds which crusted the soil and caused some burning of crops."

Referring to cereals the summary says that winter wheat is beginning to head in northern counties and some fields of winter rye are in bloom, but growth has been slow and the extreme cold nights have been damaging to late sown rye which is just coming up. Spring wheat and oats are only fair to good and are much in need of warmth and moisture.

Irrigated meadows are in good condition, but where water is not available there has been no advancement and hay crops are only fair. Pastures and ranges are becoming short and drying up, but livestock generally are in good shape notwithstanding the unfavorable conditions.

### German Press Condemn Those Speaking English

AMSTERDAM, May 15.—(Correspondence of the Associated Press.)—What the newspaper characterizes as "the filthy and treacherous Teutonic habit of speaking English instead of good, honest, beautiful German" is condemned by the Cologne Volkszeitung, thus:

"Thousands among us would rather let our tongues into a knot over an 'Irish stew' than use the good German word 'gulasch.' It is really indispensable that the English should teach us how to eat and drink!"

"In our dwelling houses there are 'stores,' there is a 'dining room,' we still encumber ourselves with 'shawls,' 'slips,' 'sweaters,' and other 'fashionable' things. The German young woman knows exactly what is 'fair' and what is 'shocking.' Her school friend addresses her as 'my dear,' and the honest German 'handdruck' is degraded into 'shake hands.'"

"At parting it sounds so much more distinguished to say 'farewell' than 'le-bwohl,' and on returning it is the correct thing to say 'how do you do?' in answer to which instantly comes the retort, 'very well,' which is supposed to be more cordial than our 'vorsulich.'"

"These lamentable lapses could be multiplied into the infinite, for there

is not a single department of the German life which they have not invaded. German people, pray, oh, pray, do honor your own glorious German mother tongue and uproot the vapid English from your memory."

#### DEFENDANT WOULD PAY BUT PLAINTIFF OBJECTS

SALT LAKE CITY, June 10.—A judgment for six cents against the Utah Power and Light company, recently occupied the attention of the United States District court, the corporation taking to that tribunal an appeal of satisfaction of judgment in favor of W. D. Wedell, of Ogden.

Wedell sued for \$3550 damages and a jury rendered judgment for six cents. Since that time the corporation has been trying to satisfy the judgment, but Wedell refused to accept the money and the judgment was remanded against the corporation. A motion filed with the court asked that the clerk of the court be compelled to accept the six cents and declare the judgment satisfied. The court ruled, however, that the motion must be argued in the district court in Ogden.

### Seven Hun Officers Rule Entire Army

AMSTERDAM, June 10.—The "Brains of the German Army," according to the Lokal Anzeiger, consists of seven German officers, none of them of higher rank than colonel, and four of them men who have risen from the ranks and belong to the lower classes. "It is they," says the newspaper.

### QUIT MEAT IF YOUR KIDNEYS ACT BADLY

TAKE A TABLESPOONFUL OF MALT IF BACK HURTS OR BLADDER IRRITATED

We are a nation of meat eaters and our blood is filled with uric acid, says a well known authority, who warns us to be constantly on guard against kidney trouble.

The kidneys do their utmost to free the blood of this irritating acid, but become weak from the overwork; they get sluggish; the eliminative tissues clog and thus the waste is retained in the blood to poison the entire system.

When your kidneys ache and feel like lumps of lead, and you have stinging pains in the back or the urine is cloudy, full of sediment, or the bladder is irritable, obliging you to seek relief during the night; when

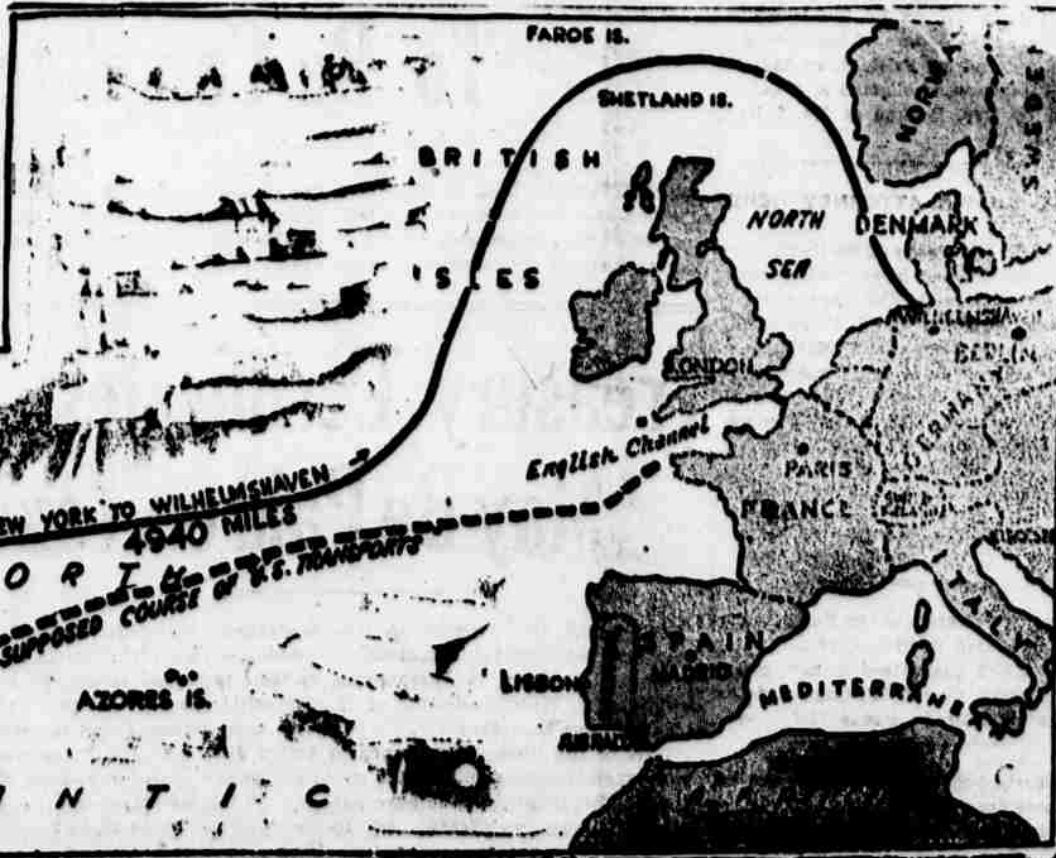

you have severe headaches, nervous and dizzy spells, sleeplessness, acid stomach or rheumatism in bad weather, get from your pharmacist about four ounces of Jad Salts; take a tablespoonful in a glass of water before breakfast each morning, and in a few days your kidneys will act fine. This famous salt is made from the acid of grapes and lemon juice, combined with lithia, and has been used for generations to flush and stimulate clogged kidneys, to neutralize the acids in urine so it is no longer a source of irritation, thus ending urinary and bladder disorders.

Jad Salts is inexpensive and cannot injure; makes a delightful effervescent lithia-water drink, and nobody can make a mistake by taking a little occasionally to keep the kidneys clean and active.—Adv.

### German Submarines Came Nearly 5000 Miles to Sink Ships Off Jersey Coast

German submarines which sank ships off the New Jersey coast had to travel nearly 5,000 miles around the north of Great Britain to reach their destination. The map shows their route from Wilhelmshaven, for it is not believed they have been able to leave Zeebrugge or Ostend since the

British raid which closed those harbors on the Belgian coast, and the English Channel is crossed with nets. The line in the east Atlantic showing the supposed route of American transports to France is believed to be the area from which these submarines have been driven by the activity of the American navy abroad.
