

Americans in the "Chow" Camp Back of the Lines in France

This is one of the first photographs to arrive in the United States showing Americans on the fighting line. These boys are in the "chow" camp, just having gone back from the front trenches for some warm food. While they are within firing distance of the Germans their "chow" camp is screened so the Boche cannot see it.

Cut In Fuel For Non-Essential Industries

WASHINGTON, June 12.—Curtailed coal supplies to manufacturers of passenger automobiles for the year beginning August 1 to 25 per cent of the quantity consumed in 1917-18 has been announced by the fuel administration. This is one of the steps in the drastic program for reduction of fuel allowed non-war industries to meet the expected coal shortage next winter.

Just how other industries will be affected has not been disclosed, and it is said to be probable that there will be no publication of a list of so-called non-essentials. Instead, an announcement may be made as each order is given applying to a particular industry.

There is understood to be before President Wilson now a report upon which it is proposed to base concerted action by the fuel administration, the food administration, the war industries board and the railroad administration, in the matter of curtailment of orders.

The fuel administration is prepared, however, to enforce its program, without waiting for the other agencies to act, if necessary.

Director of Conservation Noyes has reported to Administrator Garfield that 100,000,000 tons of coal, more than produced this year, will be needed to meet the demands of the coming year. This Dr. Garfield explained, is based upon an estimate of 80,000,000 tons for actual demands in sight with an additional 20,000,000 to allow for progressive war preparations. Increased production cannot meet this demand, Dr. Garfield said.

Chilets will take bonds of the Third Liberty Loan as part payment on city property. 25

EDUCATIONAL FILM TO BE HERE TUESDAY

The Klamath County Lumber and Loggers association has now completed arrangements to show the public an eight reel film on the preventable accidents in the lumber industry at the Houston Opera House next Tuesday, June 13.

This picture, which is unusually instructive, is being brought in by the association primarily for its instructive qualities, for those engaged in this occupation. Tickets will be distributed among all the mill and logging camp employees, and after those have been accommodated, the doors will be thrown open to the public without charge.

Those who have seen the pictures declare they are unusually instructive.

BANKER BACK FROM PORTLAND

Captain J. W. Siemens returned last night from a business visit of several days in Portland and Bend. Mr. Siemens went primarily to attend the convention of Thrift Stamp workers, of which he is chairman in Klamath county, and returns impressed with the necessity of immediate work among Klamath county people, in order to make a satisfactory showing for the county.

Mr. Siemens reports an enthusiastic convention of the state bankers at Bend, which he attended, and at which he was made a member of the executive committee.

He was accompanied on his return by his niece, Cleo Siemens, of Portland, who will visit at the Siemens home here and by his ward, Miss Nan Donnan, who will make her home from now on with the Siemens family here.

Tremendous Merchant Marine Is Predicted

SOUTH BEND, Ind., Notre Dame University, June 12.—America in 1920 will have a merchant marine of 25,000,000 deadweight tons, Chairman Hurley of the shipping board declared here in an address giving the most complete statement of the nation's ship-building program which has yet been made public.

The great commerce fleet, said Mr. Hurley, the largest ever assembled in the history of the world, and involving the expenditure of more than \$5,000,000,000, will link the United States to South and Central America by

weekly steamer service which will enable the Latin-American countries to utilize their unlimited natural resources in the freest competition with other nations. It also will bridge the Pacific for the transportation of the products of Japan, Russia, China, Australia, and the Orient, and will continue to promote America's trade with Europe.

"Our program calls for the building of 1856 passenger, cargo, refrigerator ships and tankers, ranging from 5,000 tons to 12,000 tons each, with an aggregate deadweight tonnage of 12,000,000," Mr. Hurley said.

DIVORCE SUIT FILED

Charging desertion, a suit for divorce has been instituted in the office of the Circuit Court clerk by Henry Haynes against Elizabeth Haynes, through his attorney, E. L. Elliott.

The complaint recites that there are three children and asks that the plaintiff be given control of the boy, Andrew J., and partial control of the boy, Alfred R. The custody of the daughter, Lorena, would be given to the defendant.

ly filled with water in the open range near Swan Lake, has been filed in the Circuit court by Caroline Lisky and brothers, Dave and Dan Lisky, against the H. H. Edmonds Lumber company.

The complaint states that the animal in question fell in the cistern and was drowned.

The plaintiffs are represented by Attorneys Renner and Kent.

CITY BAND NOW GETTING UNDER WAY

About 15 of the local band boys were out for practice at the Elks club last night, where the evening was spent in preparation for the Flag Day exercises Friday evening. The boys are scheduled to meet again tonight. Friday night will be the first appearance of the local organization this year. Members are planning to be on the job at the Fourth of July celebration and will probably appear on different dates in the summer.

WEATHER REPORT

Oregon—Probably showers and not so warm tonight, except near coast. Moderate winds, mostly southerly. Maximum yesterday, 84. Minimum today, 54.

NOTICE

The St. Pauls Episcopal guild will meet at the home of Mrs. J. H. Garrett on Thursday, June 15, at 2:30 p. m. All members are asked to be present as there are important business matters to be discussed.

Your Costliest Sacrifice

Modern comfort and luxuries demand a healthy body. Today's way of living slows down and logs the human machine.

Over-eating, irregular habits, insufficient exercise, highly concentrated foods have produced Constipation, a basic weakness from which most ills originate.

Before you realize the essential accumulations of poison in your system. Then come Headaches, Anemia, Hardened Arteries, Dyspepsia, Gastritis, Piles and other tearing-down ailments.

To end constipation, the uninformed turn to drug-laden purgatives—many habit-forming.

Drugs are violent. They end constipation unnaturally. They stunt the muscular movements of intestines.

Until the coming of Stanolax—the great corrective—the average person has faced a choice of evils: Constipation or harsh drugs.

Stanolax is not a cathartic—not a drug. It is a lubricant for the bowels. It cannot irritate. It encourages normal muscular action.

Stanolax is tasteless. It is colorless. It is neither digested nor absorbed by the system.

Stanolax does not act hastily, causing undue strains. It relieves gently, but surely, in a natural way, carrying off intestinal poisons.

Free yourself and keep freed from constipation, and all its harmful effects, by using Stanolax—sold by progressive druggists. One bottle is convincing.

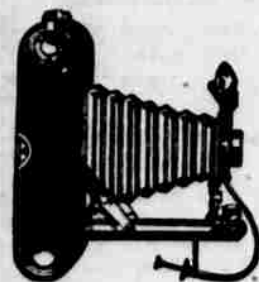

Manufactured Only by Standard Oil Company (Indiana) Chicago, U.S.A.

STANOLAX FOR CONSTIPATION

Stanolax is for sale in Klamath Falls by Underwood's Pharmacy and Star Drug Company
