Nation Is Asked To Conserve Beef

Washington, June 17.—To meet the needs of the American and Allied armies and the civilian population of France, Great Britain and Italy, the American people have been asked by the food administration to place themselves on a limited beef allowance from now until next September 15.

Householders are requested not to "under any circumstances" buy more than one and one-quarter pounds of clear beef weekly, or one and one-half pounds, including the bone, for each person in the household.

Hotels and restaurants are asked not to serve boiled beef more than two meals weekly, beef steak more than one meal weekly and roast beef more than one meal weekly.

"The demand for beef for our army," said the food administration's announcement, "is beyond our present supply. On the other hand we have enough increased supply of pork this summer to permit economical expansion in its use. It, therefore, will be a direct service to our armies and the Allies if our people will in some degree substitute fresh pork, bacon, ham or sausage for beef products."

Big Men to Speak At Ad Convention

San Francisco, June 17.—Arrangements rapidly are being perfected for the annual convention of the Associated Advertising Clubs of the World which will be held here July 7 to 12. According to the program thus far completed Governor William D. Stephens, Mayor James Rolph, Jr., and Franklin K. Lane, secretary of the interior, will make the various welcome addresses to the delegates who will come from practically every section of the United States.

Among those who are expected to make addresses on the various days are George Creel, chairman of the United States committee on public

information, Gerrett Fort, of the United States railway administration, Carl Vroman, assistant secretary United States department of agriculture, Charles M. Schwab, president of the United States emergency fleet corporation, Herbert S. Houston, member of the executive committee of the league to force peace, and others.

In the surgical dressing department were: Mesdames G. W. White, John Martin, L. Gerber, Jas. Driscoll, H. P. Thomas and C. F. Stone.

DRINK HOT WATER IF YOU DESIRE A ROSY COMPLEXION

Says we can't help but look better and feel better after an inside bath.

To look one's best and feel one's best is to enjoy an inside bath each morning to flush from the system the previous day's waste, sour fermentations and poisonous toxins before it is absorbed into the blood. Just as coal, when it burns, leaves behind a certain amount of combustible material in the form of ashes, so food and drink taken each day leaves in the alimentary organs a certain amount of indigestible material, which if not eliminated, form toxins and poisons which are then sucked into the blood through the very ducts which are intended to seek in only nourishment to sustain the body.

If you want to see the glow of healthy bloom in your cheeks, to see your skin get clearer and clearer, you are told to drink every morning upon arising, a glass of hot water with a teaspoonful of limestone phosphate in it, which is a harmless means of washing the waste material and toxins from the stomach, liver, kidneys and bowels, thus cleansing, sweetening and purifying the entire alimentary tract, before getting more food into the stomach.

Men and women with sallow skins, liver spots, pimples or pale complexion, also those who wake up with a coated tongue, bad taste, nasty breath, others who are bothered with headaches, bilious spells, acid stomach or constipation, should begin this phosphate hot water drinking, and are assured of very pronounced results in one or two weeks.

A quarter pound of limestone phosphate costs very little at the drug store but is sufficient to demonstrate that just as soap and hot water cleanse, purify and freshen the skin on the outside, so hot water and limestone phosphate act on the inside organs. We must always consider that internal sanitation is vastly more important than outside cleanliness, because the skin pores do not absorb impurities into the blood, while the bowels pores

L. T. COOPER, NOTED PHILANTHROPIST, GIVES LARGE PART OF INCOME TO CHARITY

Not in recent years, perhaps, has the coming of any public character aroused such widespread interest as has the proposed visit to Portland and other Western cities of L. T. Cooper, the millionaire philanthropist. Mr. Cooper is described as America's foremost leaders of advanced thought, and sprang into fame and fortune through his new health theories based on what is known as the Tanlac treatment. He never ceases to surprise you with the infinite variety of his knowledge, and his absolute correctness and thoroughness. In several of the larger cities he has done a great deal of relief work among the poor.

Mr. Cooper is a firm believer in practical philanthropy and his relief work is familiar to charity workers over the entire country. His Southern representative while in Houston, Texas, recently, distributed, under the personal direction of leading charity workers, one thousand dresses of excellent quality to poor women and children. In San Antonio, the following week he donated another thousand dresses to the poor of that city, and a few days later four hundred of the garments were provided by him for the poor women and children of Galveston. Ladies prominent in social life and many prominent citizens of these places assisted and co-operated with Mr. Cooper's representative in this worthy cause.

Gives \$5,000 Leaves of Bread Similar service was also performed by Mr. Cooper in Memphis, Birmingham, Atlanta, Little Rock, Shreveport, Vicksburg, Jackson, Nashville, Knoxville, Chattanooga, Macon, Savannah, Montgomery, Mobile and Augusta, and his establishment of the famous Tree Bread line at Louisville where he distributed \$5,000 leaves of bread absolutely free and without question to those in want, proved a revelation to charity workers there. In fact, in practically every city Mr. Cooper has visited he has shown his great sympathy for the poor and unfortunate by performing some unique act of charity.

Mr. Cooper contends that nine-

tenths of the diseases and ill health of the present day American is due to faulty digestion and improper assimilation of the food, which finally produces a stuffed-up condition of the vital organs.

It has been said that Tanlac, his celebrated medicine which is now accomplishing such remarkable results throughout the country, not only quickly overcomes all catarrhal inflammations of the mucous membrane, but acts directly in the correction of stomach, liver, kidney and intestinal disorders.

Tanlac has been so convincingly proved by the thousands upon thousands who have endorsed it, it is also a reconstructive tonic of great power, and has been known to entirely relieve the most obstinate cases of rheumatism and blood disorders in a very short time.

Tanlac Makes Phenomenal It is, indeed doubtful if anything ever placed on the market in the way of a medicine has sprung into such popular favor in so short a time. People everywhere have been quick to recognize its wonderful merit.

The demand for it has been nothing short of phenomenal.

In Seattle, Washington, over 50,000 bottles were sold and distributed by jobber and retailer in eight weeks time, which establishes a new record there and is unprecedented in the history of the drug business. In Denver over 65,000 bottles were sold in six months; in Fort Worth, Texas, 123,204 bottles were sold in twelve months; in Atlanta, Ga., over 160,000 were sold in twelve months time; in Dallas, Texas, 120,000 bottles were sold in twelve months time; in Knoxville, Tenn., the Kuhlman-Chambliss Co. sold and distributed 48,326 bottles in nine months; in Louisville, Ky., the Taylor-Isaac Company, who operate eight retail stores in that city sold 32,000 bottles in less than 90 days. In fact everywhere Tanlac has been introduced its sale has likewise been phenomenal and the demand for it continually increasing. A total of more than two and a half million bottles of the medicine has been sold through the Atlanta office alone during the past eighteen months, and it is without doubt the most widely

talked of medicine today.

When asked to explain this record breaking demand, Mr. G. F. Willis, international distributor of Tanlac, said: "There can be only one possible explanation, and it can be told in one word 'merit.' That tells the whole story. No preparation, no matter how extensively advertised, can possibly meet with such phenomenal success unless it possesses extraordinary curative power."

Thousands upon thousands are testifying daily that they have been relieved of disease after years of suffering, by its use.

Tanlac is sold in Klamath Falls by the Star Drug Co. adv.

Women Survivors of Carolina and Officers of the Steamer

These women survivors of the Port Rican liner steamer Carolina were photographed in the men's shirts they wore when they reached shore in a life boat. The commander of the German submarine which sank the vessel would not give them time to dress and they picked up shirts floating in the sea from the wreckage of the steamer. Christian Nelson, chief deck engineer, was in charge of the motor launch from which the 16 were lost during the storm. Edward W. Vogel, the wireless operator of the Carolina, stuck to his post till the last person left the ship.
