France Is Home of 2,000,000 Refugees

Paris, May 30.—(Correspondence of The Associated Press.)—France has "mothered" more than 2,000,000 refugees imposed upon her while she was engaged in war, with the country unprepared to receive a helpless mass and with but 40,000,000 population.

These 2,000,000 refugees have been handled with system. They have distributed over France with

as much foresight as to their ability to adjust themselves, as possible. Each department has now within its borders from 10,000 to 25,000 refugees. When a city is ordered evacuated by the military authorities, if possible, trains are made up for the civil population. Groups are formed and the whole organized into convoys and their destination of the section of country to which they are sent.

The whole is performed by the centralized French government. The transfer of refugees from the war zone to a safe place where they can settle is conducted much as is the transfer of the army from one section to another. It is done with military precision so far as the exigencies of the situation will allow.

At the Churches

Rev. W. E. Lowther, pastor of the Methodist church in Reno, Nevada, will speak Sunday morning and in the evening. Rev. Oliver will preach on the "Great World War and The Kingdom of God."

Evangelical Lutheran church services will be held in the Baptist church, corner of Eighth and Washington streets at 7:30 p. m. Sunday school at 2 p. m. Sermon text, Col. 1: 16. Subject: "What Does the Bible Tell us About the Angels?" All Lutherans of Klamath Falls are most heartily invited to attend these services. All others interested are welcome. Anyone knowing of Lutherans in or around Klamath Falls please notify M. C. Rossman, pastor, 137 First street.

"Pray and the Reign of Nature" will be the subject for the sermon at 11 a. m. in the Presbyterian church. In the evening "War and Christian Discipleship" will be the theme. Sabbath school at 6 a.

Hospital Plane Latest Way of Aiding Wounded

Dallas, Texas, June 22.—A hospital airplane is the latest innovation approved by the young flyers and has at the Love field aviation school. It is an emergency airship manned by a skilled pilot with a physician in the observer's seat, and it is kept ready during all hours of flying practice to enable medical help to reach a fallen aviator.

The hospital "ship" is always ready for instant use. That there may be no delay, the emergency machine is "cranked up" every 20 minutes so that the engine may be kept warm and ready to produce its best speed as soon as needed. The pilot and the physician stay close at hand. Observers with field glasses keep a watchful eye upon the men in the air and the instant a flyer starts falling information is telegraphed to the ambulance, the fire wagon and the hospital "ship" simultaneously.

Oftentimes when a forced landing occurs it is in a field distant from any road, and the ambulance can reach it only by traveling a long and roundabout way. The hospital "ship" can save time, not only by its speed, but also by going direct to the scene of the accident.

The ubiquitous evidence of pre-

parations for accidents is thoroughly approved by the young flyers and has no depressing effects on their spirits. Always during flying times the ambulances, manned and with motors running, stand on the "dead line" ready to start. Forced landings sometimes occur, with occasional accidents, but most frequently the injuries are not serious, so the ambulances have no terrors for the cadets. They call them "meat wagons."

Adjutant Wyman has just announced that work in aerial wireless and aerial photography is being done at Love field now, special equipment being placed on the planes last week for those purposes.

SAGE TEA KEEPS YOUR HAIR DARK

WHEN MIXED WITH SULPHUR TO BRINGS BACK ITS BEAUTIFUL LUSTRE AT ONCE

Gray hair, however handsome, denotes advancing age. We all know the advantages of a youthful appearance. Your hair is your charm. It makes or mars the face. When it fades, turns gray and looks streaked, just a few applications of Sage Tea and Sulphur enhances its appearance a hundred-fold.

Don't stay gray! Look young! Either prepare the recipe at home or get from any drug store a 50-cent bottle of "Wyeth's Sage and Sulphur Compound," which is merely the old time recipe improved by the addition of other ingredients. Thousands of folks recommend this ready-to-use preparation, because it darkens the hair beautifully, besides no one can possibly tell, as it darkens so naturally and evenly. You moisten a sponge or soft brush with it, drawing this through the hair, taking one small strand at a time. By morning the gray hair disappears; after another application or two, its natural color is restored and it becomes thick, glossy and lustrous, and you appear years younger.

Wyeth's Sage and Sulphur Compound is a delightful toilet requisite. It is not intended for the cure, mitigation or prevention of disease.—Adv

SAYS HOT WATER WASHES POISONS FROM THE LIVER

Everyone should drink hot water with phosphate in it, before breakfast.

To feel as fine as the proverbial fiddle, we must keep the liver washed clean, and almost every morning to prevent its sponge-like pores from clogging with indigestible material, sour bile and poisonous toxins, says a noted physician.

If you get headaches, it's your liver. If you catch cold easily, it's your liver. If you wake up with a bad taste, furred tongue, nasty breath or stomach becomes rancid, it's your liver. Sallow skin, muddy complexion, watery eyes, all denote liver uncleanness. Your liver is the most important, also the most abused and neglected organ of the body. Few know its function or how to release the dammed-up body waste, bile and toxins. Most folks resort to violent calomel, which is a dangerous, salivating chemical which can only be used occasionally because it accumulates in the tissues, also attacks the bones.

Every man and woman, sick or well, should drink each morning before breakfast, a glass of hot water with a teaspoonful of limestone phosphate in it, to wash from the liver and bowels the previous day's indigestible material, the poisons, sour bile and toxins; thus cleansing, sweetening and freshening the entire alimentary canal before putting more food into the stomach.

Limestone phosphate does not restrict the diet like calomel, because it can not salivate, for it is harmless and you can eat anything afterwards. It is inexpensive and almost tasteless, and any pharmacist will sell you a quarter pound, which is sufficient for a demonstration of how hot water and limestone phosphate cleans, stimulates and freshens the liver, keeping you feeling fit day in and day out.—Adv.

First British Official Photos of the Battle of Picardy

These are the first official British photographs of scenes in the battle of Picardy, the greatest battle of the world, to arrive in the United States. The upper photograph shows two British flyers alighting from a triplane over the German lines and giving their report to a British officer. At the rear of the airplane will be seen two Lewis machine guns mounted in

a pair. This method of handling the Lewis machine gun is new and unknown to the American makers of it. It was the Lewis gun, an American invention, it may thus be seen again, which helped stay the march of the Hun hordes in their latest attempt to destroy civilization. Below is a British tank hurrying through a French village on the way to the front to meet the advancing Germans.

Thermometers....

Splendid out-door and in-door thermometers, barometers, for thermometers—scientifically calibrated, tested and guaranteed to be correct.

Our line of "Tyco" thermometers and fever thermometers covers every practical need.

Prices are very reasonable.
