At the Theaters

Through the riot of thrills and adventure that run in "Headin' South," the Artcraft picture starring Douglas Fairbanks now being shown at the Star theater, a love romance stands out. Catherine MacDonald, the new leading lady for Fairbanks, discloses

Relieve your foot troubles

Rest Your Feet While Working

If you are on your feet all day you are taking long chances with your arches. Nature never intended them to be bridges, but shoes make them so. Too much strain on the arches and down they go. The first symptoms are unnaturally tired feet, and often pains in the legs and back. Take warning. The

WIZARD

Adjustable ARCH Builder

provides the support nature intended your arches to have. By distributing the weight of your body evenly over the feet the strain is avoided and serious consequences averted. You can walk, dance or stand without becoming unnaturally tired. The Wizard Adjustable Arch Builder is not an ordinary metal plate arch support. It is a featherlight, flexible, all leather device that can be adjusted to fit your arch by simply arranging the inserts in the pockets so that they feel comfortable. They give instant and permanent relief. If you have been wearing ordinary arch supports change and get a pair of Wizard Arch Builders. By gradual adjustments at home, you can build up your own arch to normal, with ease and comfort.
