Camp Lewis July 4th, Parade Ground

Tacoma, Wash., July 1.—(Special)—This is the Tacoma Stadium, where thousands of soldiers from Camp Lewis, America's largest permanent encampment, close to the city, will show how the war game is played, on July 4th. Infantry, artillery and cavalry will participate in this huge show, arranged to give the people of the states of the Washington department of war a glimpse of how soldiers are prepared to take their places on the line in France. Men from nearly every city and town in Washington, Oregon, California, Nevada, Montana, Wyoming, Idaho, Utah and Alaska will take part with their full equipment. National army men drawn from Minnesota and the Dakotas will have a share also in the spectacle. The Stadium seats 40,000 persons. It is fringed on two sides by lawns and nodding trees, on the third the Stadium high school and fourth opens on the blue waters of Puget Sound.

Great Caution Urged Regarding Forest Fires

Portland, July 1.—A letter urging renewed efforts toward fire prevention has been sent out by State Forester F. A. Elliott and Federal District Forester G. H. Cecil, to 26 district fire wardens, 52 co-operative state and federal fire wardens, 100 forest rangers and 300 fire patrolmen in the state.

"The dry season is at hand," says the letter, "and fire protection plans must now be brought in to effective operation. For a number of reasons forest losses are at this time particularly lamentable.

"Since the forest fire warning was first sounded in the United States, an army of trained forest fire fighters of no mean efficiency has been developed. To this army you belong. Many of your former co-workers, skilled in fire protection work, are now in France. Therefore it is up to you to carry an additional burden.

"The huge drain on this country's resources because of the war, has drawn hosts of men from productive industries and increased the cost of living. Every forest fire needing men and supplies for its extinguishment is a further economic drain. It is particularly our present duty to prevent this waste as well as waste of timber.

"Seventy-five per cent of all fires are shown by our records to be caused by carelessness or evil design.

"In the coming fire season, those against the government of the United States will not discourage destruction of government property. Loyal citizens will co-operate and on them you must rely for success. Every patriot must act as the representative of the public—put out small fires himself and report the large ones immediately to the nearest forest ranger."

Making the 4th a Perfect Day

Whether you stay at home on the Fourth, go autoing, or have a family picnic, you will find many things at Upp's which will add to the delight of the holiday.

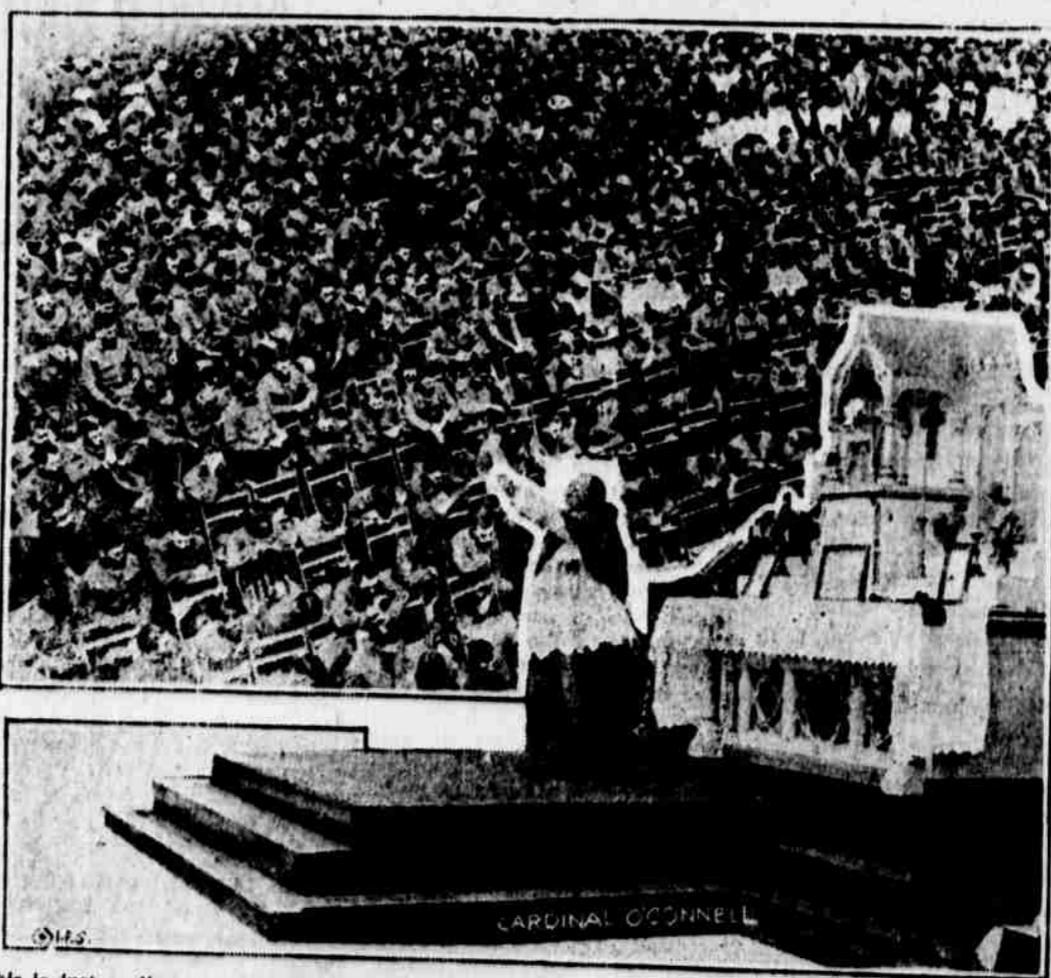

First, of course, are the articles of jewelry you must have to be correctly dressed—pendants, brooches, pins, tie clasps, coat chains, sleeve links.

If you are going away over the Fourth, be sure you have a traveling case and other necessities in toilet goods—also a fountain pen.

Cardinal at Mass Before 10,000 Soldiers at Camp Devens

This is just a glimpse of the 10,000 American soldiers at prayer and of Cardinal O'Connor of Boston, officiating at mass in Camp Devens, Mass. It was one of the largest church services ever held for drafted soldiers, and the first time a cardinal has been before such a crowd of them.

DRINK A GLASS OF REAL HOT WATER BEFORE BREAKFAST.

Says we will both look and feel clean, sweet and fresh and avoid illness.

Sanitary science has of late made rapid strides with results that are of untold blessing to humanity. The latest application of its untiring research is the recommendation that it is so necessary to attend to internal sanitation of the drainage system of the human body as it is to the drains of the house.

Those of us who are accustomed to feel dull and heavy when we arise, splitting headache, stuffy from a cold, foul tongue, nasty breath, acid stomach, can, instead, feel as fresh as a daisy by opening the sluices of the system each morning and flushing out the whole of the internal poisonous stagnant matter.

Everyone, whether ailing, sick or well, should each morning before breakfast, drink a glass of real hot water with a teaspoonful of limestone phosphate in it to wash from the day's indigestible waste, sour bile and poisonous toxins; thus cleansing, toning, liver and bowels the previous sweetening and purifying the entire alimentary canal before putting more food into the stomach. The action of an empty stomach is wonderfully invigorating. It cleans out all the sour fermentations, gases, waste and acidity and gives one a splendid appetite for breakfast. While you are enjoying hot water and limestone phosphate on your breakfast the phosphate hot water is quietly extracting a large volume of water from the blood and getting ready for a thorough flushing of all the inside organs.

The millions of people who are bothered with constipation, bilious spells, stomach trouble, rheumatic stiffness; others who have sallow skins, blood disorders and sickly complexions are urged to get a quarter pound of limestone phosphate from the drug store. This will cost very little, but is sufficient to make anyone a pronounced crank on the subject of internal sanitation.—Adv.

Government Asks for One Day Celebration

BULLETIN NO. 52 1. Altho I fully recognize that it has been the custom for logging camps and mills to close down for several days during the Fourth of July holiday period, yet, in view of our present national crisis, it would not seem proper that we, who have a great work to do in this war, should slacken our efforts any more than those men whom we have sent across the water should slacken theirs. 2. I therefore ask employers and employees of every logging camp, mill, and engineering and river operation to take only one day's holiday this coming Fourth of July. 3. Please advise me of your decision. BRICE P. DISQUE, Colonel, Signal Corps, Commanding. The owners of the sawmills in this community are eager and willing to co-operate to the fullest extent with the government in this respect. It has been clearly demonstrated that we are short of forest materials in our war needs, and it is earnestly hoped that all employees will also co-operate and be back ready to work after the one day's celebration of the Fourth. It is hoped that every man will receive this order from the government, give it serious contemplation and then perform the duty asked.
