**Most Serious Drought In Years Continues**

Portland, July 6.—The most serious drought experienced by Oregon farmers in many years continued during the past week, according to the weekly summary of crop and weather conditions issued by the weather bureau here.  
 The temperature was variable but averaged above normal except on the coast, says the report. For the most part the days were warm and the nights cool. Light frost occurred in Benton county on June 29, but no damage resulted. There was abundant sunshine. The week was practically rainless and drying winds prevailed in many localities. The drought is the most serious experienced in many years. The weather has been very favorable for harvest, haying and the gathering of berries. Forest fires were numerous and hard to control. Some pastures and farm lands along the lower Columbia are under water, due to the melting of snow in the mountains. Aphides are becoming less troublesome, but many fields of grain in the Willamette valley and in Southern Oregon will not recover from the damage already done.  
 Winter wheat, the summary de-

clares, is approaching maturity in most sections. Harvest is in progress in Baker, Douglas and Umatilla counties this week. In some of the eastern and central counties the crop is fair to good; but elsewhere the yield will be much reduced by drought. Spring wheat has suffered more from drought than has winter wheat and except over a limited area the crop is poor to fair. Barley and rye have also suffered from drought. A small acreage of these crops have been harvested. Corn has made good growth notwithstanding the dry weather and with favorable conditions during the remainder of the season should make a good crop. Should the drought continue the yield will be small.  
 Except where irrigation is practiced and over limited areas where showers occurred in the preceding week, meadows are dry and the hay crop will be short. Cutting of grain hay and the first crop of clover and alfalfa made good progress under favorable conditions. Pastures and ranges deteriorated rapidly under the influence of dry weather. Stock in some sections is showing the effect of shortage of feed, but generally is holding up well.

**Neglected Men**

And the wives and mothers of others will appreciate the complete attention paid to details that go into the construction of our clothing.  
 The buttons are on to stay. The seams and stitches will hold during the life of the garment. The workmanship is 100 per cent perfect.  
 The style and price is right—that is a foregone conclusion.

**Glass of Hot Water Before Breakfast a Splendid Habit**

Open sluices of the system each morning and wash away the poisonous, stagnant matter.

Those of us who are accustomed to feel dull and heavy when we arise; splitting headache, stuffy from a cold, foul tongue, nasty breath, acid stomach, lame back, can, instead, both look and feel as fresh as a daisy by washing the poisons and toxins from the body with phosphated hot water each morning.  
 We should drink, before breakfast, a glass of real hot water with a teaspoonful of limestone phosphate in it to flush from the stomach, liver, kidneys and ten yards of bowels the previous day's indigestible waste, sour bile and poisonous toxins; thus cleansing, sweetening and purifying the entire alimentary tract before putting more food into the stomach.  
 The action of limestone phosphate and hot water on an empty stomach is wonderfully invigorating. It cleans out all the sour fermentations, gases, waste and acidity and gives one a splendid appetite for breakfast and it is said to be but a little while until the roses begin to appear in the cheeks. A quarter pound of limestone phosphate will cost very little at the drug store, but is sufficient to make anyone who is bothered with biliousness, constipation, stomach trouble or rheumatism a real enthusiast on the subject of internal sanitation. Try it, and you are assured that you will look better and feel better in every way shortly.—Adv.

**West Point's Athletic Hero Takes A Bride on the Day of Graduation**

Lieut. ELMER OLIPHANT and BRIDE (MISS BARTON'S DAUGHTER)  
 Elmer Oliphant, perhaps the greatest athlete West Point has ever shown, was doubly happy the other day when he graduated. For, he took a bride as well as a diploma. Oliphant was a star in foot ball, base ball and basket ball, and had he wished to enter professional base ball instead of the army he would have been snapped up by any one of a half dozen big league clubs.
