At the Theaters

Corinne Griffith, who stars in "The Love Doctor," the Greater Vitagraph Blue Ribbon Feature, which will be the attraction at the Temple theater tonight, has a collie pup, a gift from a friend, which she hopes will be a worthy successor to old Shep, the famous Vitagraph collie which died a few months ago. Miss Griffith is training the pup, which already shows signs of becoming an actor and perhaps a star.

Miss Griffith plays opposite to Earle Williams in "The Love Doctor," one of the most powerful melodramas screened by Vitagraph, Albert E. Smith, president. It tells of a surgeon who interchanges the brain cells of two girls that he may make one capable of love and save the other from her own passions.

In the Paramount picture, "The Honor of His House," Sessue Hayakawa, the well known Japanese star who rose to fame thru such pictures as "The Cheat," "Allen Souls," "Honorable Friend" and others, is supported by a splendid cast, including Florence Vidor as his leading lady. Other prominent players are Jack Holt, Mayme Kelso, Forest Scobey and Tom Kurahara.

Directed by William C. DeMille, the story has been given some unusual twists, dealing with the old "eternal triangle" situation in a novel manner. At the Star theater tonight.

How society members are sometimes placed at the mercy of unscrupulous persons who attempt to put a bad construction on their innocent acts is shown in "The Silence Sellers," a Metro Wonderplay adapted from the story by Blair Hall in "Snappy Stories," starring that superb actor, Mimi Petrova. This five-part feature will be seen at the Orpheus theater Tuesday and Wednesday.

In the case of "The Silence Sellers" secret service agents baffle the efforts of society blackmailers, and a climax is reached that is entirely unexpected. The way in which "The Tattle Tale," a society journal of gossip, comes into the story, and guides the destinies of all concerned is unusual and amazing. Mimi Petrova has the part of Laura Sutphen, the brilliant hostess at whose week end party the events of this fascinating story culminate.

"Speed! Speed!" Says Arlie to the King

That was what Arlie Latham, long a big league baseball player and a coach, cried to King George of England when he began training the ruler, who had agreed to pitch the first ball in a game between American soldiers July 4 in England. The king knew how to throw a cricket ball, but a baseball was a mystery to him.

tered on the 8th day of July, 1918, directing publication of said notice of sale in the Evening Herald and Klamath Record, two newspapers of general circulation in said county, at least once each week for four consecutive weeks, ending on the 8th day of August, 1918, that being the day preceding said sale.

HAVE DARK HAIR AND LOOK YOUNG

NOBODY CAN TELL WHEN YOU DARKEN GRAY, FADED HAIR WITH SAGE TEA

Grandmother kept her hair beautifully darkened, glossy and attractive with a brew of Sage Tea and Sulphur. Whenever her hair took on that dull, faded or streaked appearance, this simple mixture was applied with wonderful effect. By asking at any drug store for "Wyeth's Sage and Sulphur Compound," you will get a large bottle of this old-time recipe, improved by the addition of other ingredients, all ready to use, for about 50 cents. This simple mixture can be depended upon to restore natural color and beauty to the hair.

A well known downtown druggist says everybody uses Wyeth's Sage and Sulphur Compound now because it darkens so naturally and evenly that nobody can tell it has been applied—it's so easy to use, too. You simply dampen a comb or soft brush and draw it through your hair, taking one strand at a time. By morning the gray hair disappears; after another application or two, it is restored to its natural color and looks glossy, soft and beautiful. This preparation is a delightful toilet requisite. It is not intended for the cure, mitigation or prevention of disease.—Adv.

A quarter pound of limestone phosphate costs very little at the drug store but is sufficient to demonstrate the just as soap and hot water cleanser purifies and freshens the skin on the outside, so hot water and limestone phosphate act on the inside organs. We must always consider that internal sanitation is vastly more important than outside cleanliness, because the skin pores do not absorb impurities into the blood, while the bowels pass do.—Adv.

Men and women with shallow skin, liver spots, pimples or pallid complexion, also those who wake up with a coated tongue, bad taste, nasty breath, others who are bothered with head aches, bilious spells, acid stomach or constipation should begin this phosphate hot water drinking, and are assured of very pronounced results in one or two weeks.

DRINK HOT WATER IF YOU DESIRE A ROSY COMPLEXION

Says we can't help but look better and feel better after an inside bath.

To look one's best and feel one's best is to enjoy an inside bath each morning to flush from the system the previous day's waste, sour fermentations and poisonous toxins before it is absorbed into the blood. Just as coal, when it burns, leaves behind a certain amount of incombustible material in the form of ashes, so food and drink taken each day leaves in the alimentary organs a certain amount of indigestible material, which if not eliminated, form toxins and poisons which are then sucked into the blood through the very ducts which are intended to send in only nourishment to sustain the body.

If you want to see the glow of healthy bloom in your cheeks, to see your skin get clearer and clearer, you are told to drink every morning upon arising, a glass of hot water with a teaspoonful of limestone phosphate in it, which is a harmless means of washing the waste material and toxins from the stomach, liver, kidneys and bowels, thus cleaning, sweetening and purifying the entire alimentary tract, before putting more food into the stomach.

Men and women with shallow skin, liver spots, pimples or pallid complexion, also those who wake up with a coated tongue, bad taste, nasty breath, others who are bothered with head aches, bilious spells, acid stomach or constipation should begin this phosphate hot water drinking, and are assured of very pronounced results in one or two weeks.

A quarter pound of limestone phosphate costs very little at the drug store but is sufficient to demonstrate the just as soap and hot water cleanser purifies and freshens the skin on the outside, so hot water and limestone phosphate act on the inside organs. We must always consider that internal sanitation is vastly more important than outside cleanliness, because the skin pores do not absorb impurities into the blood, while the bowels pass do.—Adv.
