

Drafted Men to Get Preliminary Points

Boards of Instruction to Be Appointed to Aid Registrants Previous to Their Call to Training Camps. Men Thus Helped Complete Training Month Earlier

Portland, July 23.—Uncle Sam wants his selective service men who are called to the colors hereafter to reach the training camps mentally and morally fit in every way, and with at least an elementary knowledge of military drill.

The condition in which a man reaches camp makes a surprising difference in his usefulness as a soldier. Actual experience has demonstrated that men who come into camp clean, sober, willing and determined to do their part, will be ready to leave for the battle field at least a whole month, often more, earlier than others not so fit.

This having been demonstrated, Uncle Sam has undertaken a plan to educate all selective service men so they will be better soldiers and better men when it comes their time to be called to the colors.

With this in view, the various local draft boards throughout the country have just been notified, thru a leaflet from the provost marshal general at Washington, of a method for bringing personal instruction to each man by means of local boards of instruction, to be appointed by the draft boards.

These boards of instruction are to be composed of thoroughly patriotic and capable citizens of each community. It is intended that they shall do more than instruct. For instance, the members of the instruction board will endeavor to ascertain and clear up all perplexities that may beset the registrant, and to be of practical assistance to him in every way.

The first meeting of the registrants for instruction, the leaflet suggests, might well be at the time of the medical examination. The registrants may be assembled in small groups for personal interviews. It is suggested, and encouraging suggestions made to them as to the personal value of military training and of outdoor life, the chances for promotion, the aid and friendly support of the Red Cross, the Army Knights of Columbus, the Y. M. C. A., the Ha-

brew Welfare Board, and the Commission on Training Camp Activities.

Prior to their induction, it is planned that the men shall be called together once or twice by order of the local draft board, to meet in groups for instruction in the following subjects:

(a) The provision which the Government has made for the protection and welfare of disabled soldiers and, in the event of death, of their families, and dependents, thru its War Risk Insurance Bureau.

(b) The Government provision for allowances and allotments to soldiers' dependents, these provisions being so liberal that the soldier can rest assured his dependents will be amply cared for.

(c) Discussion of such topics as "Why America Entered the War," "Why America Must Win the War," "The Necessary Character of the American Soldier," "Sexual Restraint and the Avoidance of Liquor as a Patriotic Obligation," "Camp Life," etc.

It is also planned to conduct military drill to familiarize the men with its first principles. It has been found that this work actually places the men a month or so ahead in capacity of becoming efficient soldiers, and of course the well drilled man has a much better opportunity of obtaining quick promotion than the man who has to begin at the beginning and learn everything after he enters the service.

The Government is encouraging draft registrants wherever possible to enter local military reserve organizations in their communities to drill.

The new 1918 low cost life, accident and health policies of the Travelers are modern all the way thru, and they cost less. See Chilcote.

Route Over Which Builder of Battleplanes Offers to Sail Them to the Front Lines of Battle

In order to save space on cargo ships W. H. Workman, representing the Handley-Page airplane concern of Great Britain, has made a proposition to sail 10,000 planes from the middle west, where they could be constructed, to Newfoundland, then to the Azores and on to Lisbon and then to the battle line in France. The longest flight on this route would be 1,500 miles from Newfoundland to the Azores. He has suggested old cruisers might be placed along the route to save aviators who might be forced to go down, but he does not believe many of them will fail.

Toilet Novelties

Dainty and attractive things that are very useful on a lady's dressing table:

PUFF BOXES.
ATOMIZERS.
MANICURE GOODS.
BRUSH AND COMB SETS.
MIRRORS.
PIN TRAYS.
ETC., ETC.

Prices low enough to place them within reach of all.

HEADACHE STOPS, NEURALGIA GONE

Dr. James' Headache Powders give instant relief—Cost dime a package.

Nerve-racking, splitting or dull, throbbing headaches yield in just a few moments to Dr. James' Headache Powders which cost only 10 cents a package at any drug store. It's the quickest, surest headache relief in the whole world. Don't suffer! Relieve the agony and distress now! You can. Millions of men and women have found that headaches and neuralgia misery is needless. Get what you ask for.

DRINK HOT WATER BEFORE BREAKFAST

Says you really feel clean, sweet and fresh inside, and are seldom ill.

If you are accustomed to wake up with a coated tongue, foul breath or a dull, dizzy headache; or, if your meals sour and turn into gas and acids, you have a real surprise awaiting you.

Tomorrow morning, immediately upon arising, drink a glass of hot water with a teaspoonful of limestone phosphate in it. This is intended to first neutralize and then wash out of your stomach, liver, kidneys and thirty feet of intestines all the indigestible waste, poisons, sour bile and toxins, thus cleansing, sweetening and purifying the entire alimentary canal. Those subject to sick headaches, backache, bilious attacks, constipation or any form of stomach trouble, are urged to get a quarter pound of limestone phosphate from the drug store and begin enjoying this morning inside bath. It is said that men and women who try this become enthusiastic and keep it up daily. It is a splendid health measure, for it is more important to keep clean and pure on the inside than on the outside, because the skin pores do not absorb impurities into the blood, causing disease, while the bowel pores do. The principle of bathing inside is not new, as millions of people practice it. Just as hot water and soap cleanse, purify and freshen the skin, so hot water and a teaspoonful of limestone phosphate act on the stomach, liver, kidneys and bowels. Limestone phosphate is an inexpensive white powder, and almost tasteless.—Adv.
