Klamath County News
PLEVNA

A Red Cross society was formed in
the Plevna district Friday. Mrs. H.
Murdoch is chairman. The ladies are
to meet at the school house next
Thursday afternoon at 8 o'clock to
commence their work. All are asked
to be present.

Jim Moore and family and Miss
Mildred Talbot motored to Crater
Lake Sunday.

George Ager moved his sheep to
Clover creek this week.

R. V. Eas has been setting up his
combined harvester. It is now work-
ing splendidly.

Mrs. George Shell spent Tuesday
with Mrs. Floyd Kenniston.

Miss Marie Talbot spent the week
end in Klamath Falls visiting with
friends.

Jimmie Moore is very sick with a
cold.

George Heavila has been binding
grain for O. T. Hogue this week.

STUB HUNTING SEASON
OPENS IN VIENNA

London, July 29.—(British Wire-
less Service.)—One singular outcome
of the preceding grave food shortage
in Vienna is the institution of "potato
hunts." The people of the Aus-
trian capital carrying knapsacks and
baskets, make their way into the
country to bargain with the farmers
for a few vegetables. In most cases
the farmers will not sell from their
fields for money, but will barter for
other necessities.

The price of potatoes, says the
Hague correspondent to the Times,
has been driven up to a crazy height.
If any city dweller finds a willing
seller who allows him to enter the
field and dig potatoes, other would-
be buyers will not be denied. Some
farmers at Stammerdorf have de-
manded as much as six shillings for
two pounds of potatoes.

American boys are crying for their
country. Surely you can save for it.

SAGE TEA TURNS
GRAY HAIR DARK

IT'S GRANDMOTHER'S RECIPE TO
BRING BACK COLOR AND LUS-
TRE TO HAIR

That beautiful, even shade of dark,
glossy hair can only be had by brew-
ing a mixture of Sage Tea and Sul-
phur. Your hair is your charm. It
makes or mars the face. When it
fades, turns gray or streaked, just an
application or two of Sage and Sul-
phur enhances its appearance a hun-
dred fold.

Don't bother to prepare the mix-
ture; you can get this famous old
recipe improved by the addition of
other ingredients for 50 cents a large
bottle, all ready for use. It is called
Wyeth's Sage and Sulphur Compound.
This can always be depended upon to
bring back the natural color and lus-
tre of your hair.

Everybody uses "Wyeth's" Sage
and Sulphur Compound now because
it darkens so naturally and evenly
that nobody can tell it has been
applied. You simply dampen a sponge
or soft brush with it and draw this
through the hair, taking one small
strand at a time; by morning the gray
hair has disappeared, and after an-
other application it becomes beau-
tifully dark and appears glossy and
lustrous. This ready-to-use preparation
is a delightful toilet requisite for
those who desire dark hair and a
youthful appearance. It is not in-
tended for the cure, mitigation or
prevention of disease.—Adv.

Business
and the War

Business cannot be "as usual"
during the war. Readjustments
come in every line of trade.
But the government is trying
to carry on the war with the
least possible disturbance to
business in the country.

On the other hand, the Un-
ited States and our Allies are
making every possible effort to
stop the business of Germany,
for Germany, like America,
gets the money to carry on the
war from business.

The jewelers of America are
co-operating earnestly with the
government. They are meet-
ing every demand and sugges-
tion promptly and patriotically.
The government does not want
the jewelry business to stop.

It is patriotic to buy and
wear jewelry.

Get the Habit of
Drinking Hot Water
Before Breakfast

Says we can't look or feel right
with the system full
of poisons.

Millions of folks bathe internally
now instead of leading their system
with drugs. "What's an inside bath?"
you say. Well, it is a guaranteed to per-
form miracles if you could believe
these hot water enthusiasts.

There are vast numbers of men and
women who, immediately upon arising
in the morning, drink a glass of real
hot water with a teaspoonful of lime-
stone phosphate in it. This is a very
excellent health measure. It is intended
to flush the stomach, liver, kidneys
and the thirty feet of intestines of the
previous day's waste, sour bile and in-
digestible material left over in the
body which if not eliminated every day
becomes food for the millions of bac-
teria which infests the bowels, the
quick result is poisons and toxins
which are then absorbed into the blood
causing headache, bilious attacks, foul
breath, bad taste, colds, stomach trou-
ble, kidney misery, sleeplessness, im-
pure blood and all sorts of ailments.

People who feel good one day and
badly the next, but who simply can
not get feeling right are urged to ob-
tain a quarter pound of limestone phos-
phate at the drug store. This will cost
very little, but is sufficient to make
anyone a real crank on the subject of
internal sanitation.

Just as soap and hot water act on
the skin, cleansing, sweetening and
freshening, so limestone phosphate
and hot water act on the stomach,
liver, kidneys and bowels. It is vastly
more important to bathe on the inside
than on the outside, because the skin
pores do not absorb impurities into the
blood, while the bowel pores do.—Adv.

Tramps In Northwest
Almost Thing of Past

St. Paul, July 29.—War has virtu-
ally blotted out the grimy trail of
the professional tramp in the North-
west, according to railroad officers
and officials of states from Minnoso-
ta to the Western coast.
The Northwestern tier of states,
along the summer playground of the
box car transient, have to rigorously
enforced the "work or fight" order
and other war measures that tramps
who formerly appeared in droves af-
ter having wintered in the cities, have
been reduced to a few lonely strag-
glers.

constables are quick to draft them

FLOOD LAND MADE USEFUL

Sacramento, July 29.—A sea of
what replacing a sea of water, 20,
000 acres in one tract bringing forth
the crops of which Uncle Sam and
his Allies in the world war are in
such great need, is a transformation
on what was overflowed land, near
Sacramento.

The huge tract formerly covered
with the flood waters of the Sacra-

in a basin of some strip-odd thou-
sand acres, most of which has been
reclaimed and turned to agriculture
thru the efforts of the Federal and
state governments, at a cost of mil-
lions of dollars.
