Suggestions:

Stir your tea, coffee or cocoa well. Don't leave sugar in the bottom of the cup.

Sweeten breakfast cereals with honey, syrup, maple sugar, raisins, or dates.

Substitute molasses, maple syrup, or syrups made from sorghum and corn, for part of sugar used in cooking.

Substitute syrups or honey for part of the sugar in cake. One cup of syrup or honey will take the place of one cup of sugar and one-fourth of a cup of liquid. In almost any cake recipe the syrup or honey may be used for one-half of the sugar.

Make your cakes without frosting. Use fresh, dried or preserved fruit for dessert in the place of "made dishes" that require sugar. Bake apples or pears with a little water for several hours, until a rich syrup forms. If more sweetening is desired add honey or molasses. Cook dried prunes without sugar in the water in which they were soaked until the liquid is almost boiled away. If more juice is wanted add water to the syrup. The long, slow cooking develops a rich flavor and the addition of sugar is unnecessary.

"OVER THE TOP" IS
VOICE FROM TRENCHES

"A voice from the trenches" is the way Sergeant Empey's great story "Over the top," has been described by critics. As a drama with the fighting sergeant in the very role he enacted in the trenches, it will be shown tonight at the Opera House.

The soldier-author with his play holds the mirror up to human nature as he found it in the English private soldier. His story will appeal to young and old alike, to all who love pathos and humor, great deeds and manly men.

The New York Times, in commenting upon the story, "Over the Top" said:

"Prospective soldiers can learn here pretty nearly just what is awaiting them, in both incident and sensation, while their folks at home will be heartened."

Like the book, this Vitagraph drama is filled with anecdotes that will bring the smile and laughter. Empey proves that life in the trenches is not all gloom by any means.
