R. C. SENDS SUPPLIES TO PRISONERS

"If unlucky enough to get captured, send your first prison camp postal to the American Red Cross, Berne." This in substance is the advice which the war department is having officers give the men of the American Expeditionary forces before they go to the front. By sending this postcard to the bureau of prisoners' relief, American Red Cross, Berne, the captured man sets in motion machinery so his family will be notified as promptly as possible, and also enables the Red Cross to begin shipments of twenty pounds of food every week and clothing, tobacco, toilet articles, comforts and luxuries as needed.

At the Theaters

In a statement which he made lately in regard to Ann Pennington's newest Paramount picture, Director Edward Dillon said "The picture will give Miss Pennington opportunities to wear some stunning gowns and an especially chic bathing costume in the swimming scenes. She will also have a chance to display her prowess at high diving and dancing. There is a big comedy element, and from what I have seen of her work so far, I believe Miss Pennington will surprise even those who have admired her previous work on the screen." Ann Pennington, noted dancer of the Siegfried Follies, will appear in "The Antics of Ann" at the Star theater tonight.

How a little girl seeks to secure a dear lady to take the place of her own mother, who has died, and of the strange and thrilling adventures which befell her in her quest, are charmingly told in "Wanted—A Mother," the new World-Picture Brady-Made which will be shown at the Orpheus theater tonight.

Madge Evans, the World's kiddie star, is the star of this most unusual production. Madge takes the role of Eileen Homer in this production. George MacQuarrie, who is starred with Madge Evans in this production, takes the role of Mr. Homer, Madge's father. A number of film favorites are seen in the cast and the scenic effects leave nothing to be desired. The story is a tense one and a surprising one. It combines all the elements that go to make perfect screen entertainment. See it.

a statement given to The Associated Press before leaving for France, "is to convince the world of labor if the whole people of the United States is devoting all its fighting strength to nothing more or less than to secure the peace laid down by President Wilson.

"Once this fact is accepted by the Socialists of the Allied nations there will be an end of pacifism there and a spread of peace sentiment in Austria and Germany. Already it is claimed that the Socialists of Austria and Germany have agreed to accept substantially these terms. If this is true the need of an inter-belligerent Socialist conference disappears since the Socialists of all nations will have agreed upon the peace terms asked by the United States.

"Whether the expected peace offensive finds sufficient response among the labor and Socialist bodies of the Entente nations to injure morale to the extent that Germany may obtain peace while her military autocracy remains a danger to democratic nations depends largely upon the possibility of convincing such bodies that America stands solidly behind President Wilson's peace terms.

"The overwhelming mass of British laborers and Socialists wish to win the war. They are misrepresented by a small group controlling their political organization. Even this group protests its desire for victory, but some believe victory impossible and others charge that if obtained it will be used by imperialists to pave the way for future wars.

"Yet all, pacifist or pro-war, join in praise of President Wilson's program. Their discussion with representatives of every shade of labor and Socialist opinion shows that there is almost unanimous and enthusiastic agreement upon this point. President Wilson is today the great hope of the Democratic world.

"But those who are already pledged to pacifism, peace by negotiation, inter-belligerent Socialist meetings, or other means of securing peace without fighting, argue in excuse that the America may be solidly backing war efforts. It is not solid in support of Wilson's peace terms.

"Suspicion of an American plutocracy and possible alliances with imperialistic elements elsewhere is now the main stock in trade of Socialist pacifists, who are still sufficiently strong to be dangerous allies to a skillful German drive. Facts have at least overcome a German propaganda sufficiently to convince even this class that America means to fight with all her strength."

REVENUE COLLECTED EXCEEDS ESTIMATE

WASHINGTON, D. C., Aug. 13.—More than \$2,500,000,000 has been collected in internal revenue taxes, including income and excess-profit taxes, for the fiscal year. This exceeds by over \$100,000,000 the estimates made a few months ago, and by over \$200,000,000 the estimates made a year ago when the revenue measures were passed by congress.

The success in collecting this large revenue is attributed by the treasury department to the patriotism and co-operation of the American people in promptly and cheerfully meeting the war burdens imposed upon them.
