

DECORATIONS IN IRISH TOWN FOR CANDIDACY OF CAPTAIN REDMOND FOR FATHER'S PLACE

CAPT. WILLIAM A. REDMOND

This is one illustration of the feeling that prevails in the town of Waterford, Ireland, where the late John E. Redmond, Irish Nationalist leader, was born. The picture shows a house in Waterford, the old district of his father, the late John E. Redmond, Irish Nationalist leader. He was opposed by Dr. White, a Sinn Feiner. PLANS PROPOSED FOR SOLDIERS AFTER CONFLICT

WASHINGTON, Aug. 13.—When the soldier of 1865 laid down his arms to take up a civil occupation, he turned westward to a matchless public domain which he helped to develop into the world's richest farms and cities. The government was able to point the way to a method by which the returned soldier was able to turn his talents for a livelihood, and the government now is laying the ground work to have similar land available when the great war ends and the millions of American soldiers return to civil life.

While the vast domain that awaited the civil war veteran can not be duplicated for those who return from the European battle fields, there are millions of acres which can be made available with proper legislation and subsequent development, and which, according to the present plans, will be offered to the returning soldier with ample time to pay for the cost of development if he desires to accept it.

FEW FOLKS HAVE GRAY HAIR NOW

DRUGGIST SAYS LADIES ARE USING RECIPE OF SAGE TEA AND SULPHUR

Hair that loses its color and lustre, or when it fades, turns gray, dull and lifeless, is caused by a lack of sulphur in the hair. Our grandmothers made up a mixture of Sage Tea and Sulphur to keep her locks dark and beautiful, and thousands of women and men who value that even color, that beautiful dark shade of hair which is so attractive, use only this old-time recipe.

Nowadays we get this famous mixture, improved by the addition of other ingredients by asking at any drug store for a 50-cent bottle of "Wyeth's Sage and Sulphur Compound," which darkens the hair so naturally, so evenly, that nobody can possibly tell it has been applied. You just dampen a sponge or soft brush with it and draw this through your hair, taking one small strand at a time. By morning the gray hair disappears; but what delights the ladies with Wyeth's Sage and Sulphur Compound is that, besides beautifully darkening the hair after a few applications, it also brings back the gloss and lustre and gives it an appearance of abundance. Wyeth's Sage and Sulphur Compound is a delightful toilet requisite to impart color and a youthful appearance to the hair. It is not intended for the cure, mitigation, or prevention of disease.—Adv.

Secretary Lane has announced that it will be the policy of the department of the interior to ask for legislation by which arid lands of the west, cut over lands of the Northwest, and swamp lands in the middle west and the south, can be reclaimed and the soldier given a preferred status in its allotment. Bills are now before Congress on that subject, and the plan now is to weld into an administration bill a measure embracing Secretary Lane's ideas, the legislation to be patterned after a bill now before the House public lands committee by Representative Smith of Idaho.

The amount of swamp and cut-over lands is extensive, reports from the Department of the Interior indicate but just how extensive is not known. It is estimated that approximately 60,000,000 acres of swamp and overflow land can be made available for farming. Some of it has passed into private ownership. It lies chiefly in Florida, in the states along the Atlantic and Gulf coasts, in the Mississippi delta and in Missouri, Indiana, Michigan, Minnesota, Wisconsin and California.

It is estimated that of the cut-over and logged-off land there is approximately 200,000,000 acres suitable for agricultural development. A larger per centage of this land is now in private ownership, and it is shown that failure to develop it is due largely to inadequate methods of approach, says Secretary Lane. Unless a new policy of development is worked out in co-operation between the United States, the states and the individual owners, a greater part of it will remain unsettled and uncultivated. The land lies chiefly in Washington and Oregon, Virginia, North Carolina and South Carolina, Georgia, Florida, Alabama, Mississippi, Louisiana and Texas.

Other than the planning, the development should be by the returned soldier, according to Secretary Lane's views.

"The dam or the irrigation project should be built by him," Mr. Lane says. "The canals, the ditches the breaking of the land and the building of the houses, should, under proper direction, be his occupation. He should be allowed to make his own home, cared for while he is doing it, and given an interest in the land for which he can pay thru a long period of years, perhaps thirty or forty years. So that the soldier on his return would have an opportunity to make a home for himself, to build a home with money which we would advance and which he would repay, and for the payment we would have an abundant security."

Believed Pro-German Refused by Chinese

PEKIN, Aug. 13.—The Chinese government has declined to receive Monsignor Petrelli, recently appointed papal minister to China, on the ground that he is a personal friend of Admiral von Hanne, German secretary of foreign affairs, and late minister to Peking.

RESIDENTS OF PARIS OBTAIN ENOUGH FOOD

PARIS, July 30.—(Correspondence of The Associated Press).—Paris is of course not the old "gay Paree" of peace time, but it has suffered surprisingly little from the war when other cities and countries are considered. Pretty nearly everything one needs to live is still available, tho in restricted and reduced measure.

Probably no one but Parisians themselves have been able to keep track of the decrees and regulations governing food and other consumption. Americans may be interested to know just how their allies in the great capital—and many countrymen too—are faring these days. Here is a list of the restrictions.

Meat may yet be purchased or eaten on three days in the week: Wednesday, Thursday and Friday. Not more than 200 grams (two fifths of a pound) may be purchased on Tuesday, so there can be no hoarding, and not more than 100 grams may be served in a restaurant on Tuesday.

Bread is limited to 200 grams (three-fifths of a pound) daily for all people between the ages of 13 and 60. An additional allowance of 100 grams a day is made to manual laborers and women in delicate health. Persons over 60 receive but 200 grams daily.

Flour, pastry and cakes—would-be purchasers of flour are entitled to half the amount of flour allowed them in bread form, i. e., 150 grams a day, if they are willing to go without bread entirely. Pastry and cakes are forbidden.

Sugar is limited to one pound per month, and half a pound to persons over 60.

Coal for families for one, two or three persons, 150 kilos of 5.20 lbs. monthly; families of four or five persons, 150 kilos; of six or more persons, 180 kilos.

The gas consumption likewise has been considerably cut down, so that he who in 1913 used two cubic meters a day may now only use 1.4 meters. Similarly with electricity.

Petrol, otherwise kerosene, and gasoline for illumination, are permitted in the following quantities: two quarts a month to persons who have no gas in their homes; five quarts a month for those who cook exclusively with kerosene.

State Fair, Salem, Oregon, September 23-28. Splendid exhibits, excellent music, high class entertainments and a superb racing card. For particulars write A. H. Lea, Salem, Oregon.

The new 1918 low cost life, accident and health policies of the Travelers are modern all the way thru, and they cost less. See Chilcote.

"UNCLE JOE" CANNON HAS LONG RECORD

WASHINGTON, Aug. 13.—If the voters of the eighteenth Illinois district elect "Uncle Joe" Cannon for a twenty-second term in Congress next November, he will have equaled a record achieved by only one other in point of congressional service. Already the former speaker has out-served all other present and former members of the House for long service in that body. The late William Boyd Allison, former representative and later senator from Iowa, held a record in Congress with forty-four years service in both Houses.

Mr. Cannon's record is for service in the House alone. One more term would complete a service of forty-four years. Were it not for an affair in 1890, when the Democrats took control of the House, following passage of the McKinley tariff law, and another incident of 1912, when the Progressives split the Republican vote, Mr. Cannon's service would have been for twenty-four terms continuous, (forty-eight years). As it is he began his service in 1873 and has served since with the exception of the two terms mentioned.

Besides Mr. Cannon and the late Senator Allison, Justin Morrill of Vermont, late representative and senator, is among the former members who saw long service in Congress. Mr. Morrill served forty-three years continuously as a representative and later as a senator.

Mr. Cannon's first term was in the forty-third Congress. He was first elected speaker in the fifty-eighth Congress and re-elected in the fifty-ninth, sixtieth and sixty-first sessions.

Local Red Cross Activities

Those present in the sewing room yesterday were Madames S. M. Taylor, O. D. Burke, Garris Maier, N. J. Nyhart, Mary Waterhouse, L. L. Stein, T. R. Skillington, H. M. Strain, J. Evans, A. D. Osborn, L. E. Sullivan and Misses Josephine McClain and Anna Hackland.

RUSS MIGRATE TO JAPAN

TOKIO, Aug. 13.—The exodus of Russians from their country into Japan has so steadily increased that the foreign community in this country has become chiefly Russian. All the foreign hotels are crowded with Russian refugees. It is difficult for world travellers to find accommodation in any of the foreign style hotels in Japan.

BUY A THRIFT STAMP TODAY

TWO MILLION HAND GRENADES MADE A MONTH

WASHINGTON, D. C., Aug. 13.—Hand grenades of four types are now being produced at the rate of 2,000,000 a month, it is announced by the ordnance department.

Within the next four months, according to program, this rate will be more than doubled. Rifle grenades are being produced at the rate of about 1,000,000 a month. This rate will be multiplied appreciably within the next six months.

Orders have been placed for more than 60,000,000 grenades of both hand and rifle type, and more than 15,000 persons are employed in various plants thruout the country engaged in making them.

Of the hand grenades under manufacture, there are two types of the so-called fragmentation grenades, which depend on the effect of explosives and the scattering of fragments one type of phosphorus grenade, which, on bursting, throws a shower of burning fragments of phosphorus and a cloud of dense white smoke, and a gas grenade, which spreads a low-lying cloud of dense white suffocating gas.

The soldier throws the hand grenade muck after the manner of an athlete putting the shot. When ready to throw the grenade, he grasps it firmly in the right hand, removes the safety pin, and keeps the lever tight against the body of the grenade. As it leaves the soldier's hand, the lever is released, and a firing mechanism is timed to explode the grenade in from four to six seconds after it is thrown.

The rifle grenade holder is attached to the muzzle of the rifle much as a bayonet is. The bullet from the rifle passes thru a tube in the center of the grenade, forcing a striker against a primer, which ignites the fuse. The grenade is thrown a distance of 200 yards by the force of the gases generated by firing the rifle. The grenade is timed to explode about eight seconds after it leaves the rifle muzzle.

Buy a nice level lot in Mills Addition and build a home. Liberty Bonds taken in payment. Ask Chilcote about the new price.

SIMPLE WASH REMOVES RINGS UNDER EYES

Klamath Falls people will be surprised how quickly pure Lavoptik eye wash relieves blood shot eyes and dark rings. One young man who had eye trouble and very unsightly dark rings was relieved by ONE WASH with Lavoptik. His sister also removed a bad eye strain in three days. A small bottle of Lavoptik is guaranteed to benefit EVERY CASE weak, strained or inflamed eyes. Aluminum eye cup FREE.—Whitman Drug Co., Adv.

LEMONS WHITEN THE COMPLEXION

ANY WOMAN CAN MAKE UP THIS CREAMY LOTION FOR A FEW CENTS

The juice of two fresh lemons strained into a bottle containing three ounces of orchard white makes a whole quarter pint of the most remarkable lemon skin beautifier at about the cost one must pay for a small jar of the ordinary cold creams. Care should be taken to strain the lemon juice thru a fine cloth so no lemon pulp gets in, then this lotion will keep fresh for months. Every woman knows that lemon juice is used to bleach a darkened skin and remove such blemishes as freckles, sallowness and tan, and is the ideal skin softener, whitener and beautifier.

Just try it! Get three ounces of orchard white at any drug store and two lemons from the grocer and make up a quarter pint of this sweetly fragrant lemon lotion and massage it daily into the face, neck, arms and hands.

Before the fire, get a hay insurance policy from Chilcote.

DRINK HOT WATER BEFORE BREAKFAST

Says you really feel clean, sweet and fresh inside, and are seldom ill.

If you are accustomed to wake up with a coated tongue, foul breath or a dull, daisy headache; or, if your meals sour and turn into gas and acids, you have a real surprise awaiting you.

Tomorrow morning, immediately upon arising, drink a glass of hot water with a teaspoonful of limestone phosphate in it. This is intended to first neutralize and then wash out of your stomach, liver, kidneys and thirty feet of intestines all the indigestible waste, poisons, sour bile and toxins, thus cleansing, sweetening and purifying the entire alimentary canal.

Those subject to sick headaches, backache, bilious attacks, constipation or any form of stomach trouble, are urged to get a quarter pound of limestone phosphate from the drug store and begin enjoying this morning inside bath. It is said that men and women who try this become enthusiastic and keep it up daily. It is a splendid health measure, for it is more important to keep clean and pure on the inside than on the outside, because the skin pores do not absorb impurities into the blood, causing disease, while the bowel pores do.

The principle of bathing inside is not new, as millions of people practice it. Just as hot water and soap cleanse, purify and freshen the skin, so hot water and a teaspoonful of limestone phosphate act on the stomach, liver, kidneys and bowels. Limestone phosphate is an inexpensive white powder, and almost tasteless.—Adv.

BULK DRUGS Quality Drugs

It isn't economy—and it isn't wise—to buy anything but the best in drugs.

We have gained the confidence of our customers by selling drugs of the highest quality only. You cannot buy any other kind here, and you are always safe and sure that nothing but the best drugs will be sold in this store.

WOOD ORDER A YEAR'S SUPPLY OF GREEN SLAS

STRIKING PHOTOGRAPH OF BLOWING UP OF U-BOAT ABOUT TO ATTACK ALLIED SHIP

Just before the submarine here she was blown out of the water was torpedoed it was about to attack the allied ship at the right. An airplane above signalled the ship and at the same time dropped depth bombs. The ship also dropped several. One made a direct hit and blew the submarine to bits before she could turn loose her torpedoes.
