PRIZE FIGHTER KNOCKS GERMAN OUT WITH FIST

PARIS, Aug. 18.—Forced in close hand fighting to use the but of his gun, over the head of a boche to lay him low, Terry Murphy, the Pittsburgh lightweight champion, unable to recover his gun rapidly enough, next swung with his right fist upon a German lieutenant who was ready to draw upon him and knocked the Hun into unconsciousness. It was Terry's first knockout in France.

Terry's unit was brigaded with the French in the sector about Chatou-Thierry. He was one of hundreds of volunteers from his regiment to seek duty in the front line. It was the intention at first to have the volunteers proceed brigaded with a French battalion. They were given their proper formation and sent to advance with the French police only to a certain point, the idea being to familiarize them with actual fire. Further advance was to be made by the police leaving the American volunteers behind. At the point they were to stop, they were overcome with eagerness, went right along with the police and made a creditable showing.

Ex-Photographer Takes Six German Prisoners

Adrian Duff, a former news photographer of New York, is the hero of a recent raid into the German lines. He returned with six prisoners. At the outbreak of the war in 1914 Duff was sent to Belgium and spent nearly a year on the German side of the battle line in Belgium and France, taking pictures for American newspapers.

CATTLEMEN ASK GOVERNMENT AID

CHICAGO, Aug. 18.—An appeal to Secretary McAdoo for government aid in financing cattle raising was telegraphed by W. E. Tagg, president of the National Livestock exchange. Mr. Tagg states that cattlemen for the most part can get only six month loans and asks an appropriation by congress from which 12 month loans can be made. Unless this is done, he says, herds will decrease in the next two years. He explains that unusual climatic and financial conditions are curtailing the buying of light stock for feeding, and affecting breeding herds.

Local Red Cross Activities

Those present at the Red Cross rooms in Merrill on Friday, Aug. 16, were Mesdames J. A. Brown, Fred Stukel, Joe Stukel, Geo. Wilson, C. M. Merritt, R. L. Dalton, D. Stukel, H. C. Moore, R. H. Anderson, R. C. Anderson, M. Giacomin, and Misses Vivia Moore and Alma Wilson.

Those present in the Red Cross rooms in Merrill on Saturday, Aug. 17, were Mesdames Geo. Wilson, D. Stukel, Geo. Offield, Fred Stukel, Joe Stukel, C. M. Merritt, J. A. Brown, Gene Hammond, Emma Hammond, Albert Myers, R. C. Anderson and Misses Edna Merritt and Alma Wilson.

PERSONAL MENTION

LITTLE SIDELIGHTS ON LOCAL HAPPENINGS AMONG THE PEOPLE OF THIS CITY AND VICINITY. GOINGS AND COMINGS OF LOCAL FOLKS

Mrs. W. C. Daggett is a tourist visitor from Berkeley, Cal.

John McFall of the Bonanza district was a county seat week end visitor.

Mrs. J. C. Kimball and son are in the city for a short time from Los Angeles.

Jess Jarvis was in town on business from his ranch near the city Saturday afternoon.

R. W. Tower paid the county seat a visit from his ranch below Keno Saturday.

Mr. and Mrs. S. C. Bruce of San Francisco are here for a short time. They are guests at the Hotel Hall.

Frank Grohs who operates a stock ranch east of Langell valley, is a Klamath Falls business visitor.

H. J. Blair, O. Myers, J. F. Hittson and Edgar D. Hafer are guests at the White Pelican from Medford.

H. H. Van Valkenburg bought supplies from the city merchants Saturday for his ranch on the Keno road.

Mrs. E. Stuart Clark was among the train arrivals last night from Boston. She is registered at the White Pelican.

William Fordney, who operates the general store at Lorella, is in the city for a few days looking after business interests.

Attorney Walter Van Emon has gone to Portland on matters of business, expecting to return some time this week.

J. O. Goltswalte of the Modoc Lumber Co. of Chiloquin and F. D. Andrews, are county seat business visitors today.

Mrs. Chas. Sevits left yesterday morning on the train for points in Southern California. She was accompanied by her little sister, Edna Sevits.

Mrs. Hattie Clark and Mrs. N. Woodward were arrivals here yesterday afternoon, from Summer Lake in Lake county. They are guests at the Hotel Hall.

Mrs. C. H. Simon and H. S. Warren of Montague, Cal., are Klamath Falls business visitors today. They are guests at the White Pelican hotel.

Mr. and Mrs. Burge Mason with their son Burge, Jr., will leave tomorrow by auto for Portland for a visit with Mrs. Mason's parents, Mr. and Mrs. C. E. Worden. Mr. Mason expects to return in a few days, leaving his family for a more extended visit.

IF YOU ARE PARTICULAR Latest in drapes and curtain goods. Our stock of Arcola Sunfast and Manville Drapes, art tapestries, bungalow cretonnes, Marquessettes, mercerized rope, curtain Swiss, voile, plain and figured combination scrims is now complete, up-to-date and admirably suited for any room in your home. Guaranteed to please the particular at prices to please the thrifty. See window display. 19-1f JOHNSTONE FURNITURE CO.

BIRTHDAY OF LAFAYETTE TO BE OBSERVED

NEW YORK, Aug. 19.—For the proper celebration thruout the United States on September 6, of the 161st anniversary of the birth of Lafayette, the Great French hero and friend of the American colonies, the American Defense Society today issued a call to the people of the United States, emphasizing the national debt America owes Lafayette and urging Americans to repay part of this debt by annually honoring his name and memory.

This is also the anniversary of the first battle of the Marne in 1914, and thru hte co-operation of the two hundred and seventy-six branches of the society, and of many civic and patriotic organizations who have already volunteered to help in making Lafayette Day a great success. It is expected that it will be fittingly observed in every city in the United States. The call which is signed by Charles Stewart Davison, Chairman of the Society's Board of Trustees, says:

"It seems very right and fitting that Americans should honor the name and memory of Lafayette on September 6th out of the gratitude that is strong, that will never wither or die in the heart of Americans and I urge all patriotic Americans to do their part toward seeing that this day is fittingly observed thruout the country. Thru Lafayette and his devotion to our cause, France and the United States fought shoulder to shoulder at Yorktown, and thru their co-operation the independence of the struggling colonies was realized and the liberty of a whole continent assured.

"Today as we plan to celebrate the

Charles D. Orth, chairman of the congressional campaign committee of the National Security league, prosecuting a campaign thruout the country for the election of 100 per cent patriots for congress, says:

"The day of the typical American political spirit of 'Let George do it' should for once for all be ended. Are the only Americans who can do their duty those who are offering their lives in the trenches, on the sea, or in the air? Or are there left at home enough patriots of the active, as distinguished from the merely vocal, sort to do their duty in this crisis by giving the nation and its precious lives, now or to be in service, the adequate guidance and stewardship which can only be supplied by an eminently capable congress?"

GIANT PLANES IN FEW YEARS ARE PREDICTED

(By J. H. Duckworth)

NEW YORK, Aug. 19.—Huge airplanes capable of carrying 100 passengers and flying from New York to San Francisco or from New York to London in from 36 to 48 hours, will be built before very long, according to Caproni, designer of the famous aeroplane of that name.

Starting as this prediction may appear to the layman, to the experts of these giant air liners are but the cold, logical development of the tremendous strides forward the necessities of war have forced airplane engineers to make.

At the Aero club of America today I discussed the 100-passenger flyer with a number of American and Allied aeronautical engineers, not one of whom doubted for a moment that the era of the passenger plane is now dawning. The collective views of these experts were summed up by Henry Woodhouse, a governor of the Aero club, author of the Textbook of Military Aeronautics, as follows:

"So great has been the recent improvements in airplane motors and so successful has the application of fundamental engineering principles been applied to airplane construction that the obstacles that for so long stood in the way of making larger airplanes have now been eliminated.

"The world's leading aeronautical engineers, like Handley-Page, Caproni and Curtiss agree that aeroplanes and dirigibles can now be built to almost any size.

"The so-called fundamental limits against building large planes are purely obsessions of men with single track minds. The following show how this class of people say 'impossible' to things even after they have been performed.

"In 1903 Prof. Simon Newcomb 'proved beyond question' that heavier than air machines were impossible. Later it was said that the recoil of a gun or dropping of a bomb heavier than 50 pounds would upset an airplane; that a machine equipped with two motors would be unable to lift its own weight, and that if one motor stopped the machine would spin around. All these 'impossible' things are now realities.

According to Mr. Woodhouse a machine to carry 100 passengers would not have to be more than twice as large as the largest airplane in use today. The largest Caproni is a 15-ton machine. Of these 15 tons 40 per cent is useful weight, that is, cargo. One hundred passengers weighing on the average 150 pounds total 15,000 pounds, or a little over six tons.

Get the Habit of Drinking Hot Water Before Breakfast

Says we can't look or feel right with the system full of poisons.

Millions of folks bathe internally now instead of loading their system with drugs. "What's an inside bath?" you say. Well, it is a guaranteed to perform miracles if you could believe these hot water enthusiasts.

There are vast numbers of men and women who, immediately upon arising in the morning, drink a glass of real hot water with a teaspoonful of limestone phosphate in it. This is a very excellent health measure. It is intended to flush the stomach, liver, kidneys and the thirty feet of intestines of the previous day's waste, sour bile and indigestible material left over in the body which if not eliminated every day becomes food for the millions of bacteria which infests the bowels, the quick result is poisons and toxins which are then absorbed into the blood causing headache, bilious attacks, foul breath, bad taste, colds, stomach trouble, kidney misery, sleeplessness, impure blood and all sorts of ailments.

People who feel good one day and badly the next, but who simply can not get feeling right are urged to obtain a quarter pound of limestone phosphate at the drug store. This will cost very little, but is sufficient to make anyone a real crank on the subject of internal sanitation.

Just as soap and hot water act on the skin, cleansing, sweetening and freshening, so limestone phosphate and hot water act on the stomach, liver, kidneys and bowels. It is vastly more important to bathe on the inside than on the outside, because the skin pores do not absorb impurities into the blood, while the bowel pores do.—Adv.

This Camouflage Failed to Work

Emil Picht, forty-two, years old who came here from Germany in 1914, was recently arrested in New York City dressed in a blond wig and feminine attire. He told the detectives that he was impersonating a woman in order to catch a man who had insulted a woman friend. Picht will probably be interned.

CARELESS CATTLEMEN PUNISHED

SAN FRANCISCO, Cal., Aug. 19. Because he was too tired to fight a forest fire which he had discovered, and because he had failed to report it to the Forest Ranger, a rancher and stockman of Fall River Mills, Shasta County, has been ordered to remove his cattle from the Shasta National Forest within ten days.

Some time ago the rancher and his son, while on a trip to Dick Rock Flat, in the mountains south of Bartlett, Siskiyou County, discovered a forest fire. They returned home next day without making any attempt to put the fire out and, altho they passed two telephones on their way, neglected to report the matter to the Forest Ranger.

Before obtaining a permit to graze cattle or sheep on the National forests of California, every stockman must sign an application in which he agrees to "render all reasonable aid in extinguishing forest fires within the district in which the stock is grazed. The permit itself may be revoked and the stock must be removed from the Forest" for a violation of any of the terms of the application on which it is based."

"To successfully protect food, forage and forests from fire," says Act.

GOVERNMENT MUST ADOPT BRANCH WORK

CAMP LEWIS, Tacoma, Aug. 19.—Provision for Red Cross, Y. M. C. A., Knights of Columbus and Jewish Welfare league army camp workers must be made by congress or the war department must take over these activities in camp and cantonment was the opinion expressed here today following a conference with military authorities, under the proposed plan of drafting men from 18 to 45 years of age.

All these workers are exempt under present provisions for drafting men for the army, but the majority of them will come within the proposed new age limit. Until now men of draft age liable for military service have not been accepted by these organizations.

That the war department will take over the camp work of the Red Cross and merge these activities and follow this by the assignment of soldiers experienced in this work to the joint organization was believed by many.

ing District Forester Headley," we must have the whole-hearted support of everyone using the National Forests. The stockmen of the state have as a whole come forward in excellent shape this year. Such individual cases as the instance cited will of course be promptly dealt with."

QUIT MEAT IF YOUR KIDNEYS ACT BADLY

TAKE A TABLESPOONFUL OF SALT IF BACK HURTS OR BLADDER BOTHERS

We are a nation of meat eaters and our blood is filled with uric acid, says a well known authority, who warns us to be constantly on guard against kidney trouble.

The kidneys do their utmost to free the blood of this irritating acid, but become weak from the overwork; they get sluggish; the eliminative tissues clog and thus the waste is retained in the blood to poison the entire system.

You have severe headaches, nervous and dizzy spells, sleeplessness, acid stomach or rheumatism in bad weather, get from your pharmacist about four ounces of Jad Salts; take a tablespoonful in a glass of water before breakfast each morning, and in a few days your kidneys will act fine. This famous salt is made from the acid of grapes and lemon juice, combined with lithia, and has been used for generations to flush and stimulate clogged kidneys, to neutralize the acids in urine so it is no longer a source of irritation, thus ending urinary and bladder disorders. Jad Salts is inexpensive and cannot injure; makes a delightful effervescent lithia-water drink, and nobody can make a mistake by taking a little occasionally to keep the kidneys clean and active.—Adv.
