GERARD FILM REVIEWED BY NATION HEAD

An event unique in the political history of these United States occurred at Washington recently when President Wilson, his cabinet, members of the diplomatic corps, army and navy men and others in official life, viewed a motion picture made from material furnished by an ambassador to a foreign country.

The possibilities of "My Four Years in Germany" for a screen play could not long be overlooked, nor were they, and the motion picture seen by the President and his party was the result of that observation.

What the president and United States officials saw may be seen by all who visit the Houston Opera House Saturday or Sunday evening. It is a perfect reproduction of scenes of great import that were staged in Berlin and in the war zone after and even before the Germans had declared war, by Ambassador Gerard, and which have been described by him in his famous book: "My Four Years in Germany."

Suggestions:

Stir your tea, coffee or cocoa well. Don't leave sugar in the bottom of the cup.

Sweeten breakfast cereals with honey, syrup, maple sugar, raisins, or dates.

Substitute molasses, maple syrup, or syrup made from sorghum and corn, for part of sugar used in cooking.

Substitute syrups or honey for part of the sugar in cake. One cup of syrup or honey will take the place of one cup of sugar and one-fourth of a cup of liquid. In almost any cake recipe the syrup or honey may be used for one-half of the sugar.

Make your cakes without frosting.

Use fresh, dried or preserved fruit for dessert in the place of "made dishes" that require sugar. Bake apples or pears with a little water for several hours, until a rich syrup forms. If more sweetening is desired add honey or molasses. Cook dried prunes without sugar in the water in which they were soaked until the liquid is almost boiled away. If more juice is wanted add water to the syrup. The long, slow cooking develops a rich flavor and the addition of sugar is unnecessary.
