Buy a lot in Mills Addition. Prices are very low and terms easy. Will take your Liberty Bonds. See Chilcote. 20-6

Look and Feel Clean, Sweet and Fresh Every Day

Drink a glass of real hot water before breakfast to wash out poisons.

Life is not merely to live, but to live well, eat well, digest well, work well, sleep well, look well. What a glorious condition to attain, and yet how very easy it is if one will only adopt the morning inside bath.

Folks who are accustomed to feel dull and heavy when they arise, splitting headaches, stuffy from a cold, foul tongue, nasty breath, acid stomach, etc., instead, feel as fresh as a daisy by opening the sluices of the system each morning and flushing out the whole of the internal poisonous stagnant matter.

Everyone, whether ailing, sick or well, should, each morning, before breakfast, drink a glass of real hot water with a teaspoonful of limestone phosphate in it to wash from the stomach, liver, kidneys and bowels the previous day's indigestible waste, sour bile and poisonous toxins; thus cleansing, sweetening and purifying the entire alimentary canal before putting more food into the stomach. The action of hot water and limestone phosphate on an empty stomach is wonderfully invigorating. It cleans out all the sour fermentations, gases, waste and acidity and gives one a splendid appetite for breakfast. While you are drinking your breakfast the water and phosphate is quietly extracting a large volume of water from the blood and making ready for a thorough flushing of all the inside organs.

Millions of people who are both nervous and debilitated, bilious, epileptic, rheumatic, phlegmatic, etc., etc., find relief and health in this simple, natural, and invigorating morning inside bath.

Admission 10c and 15c.

SALEM WANTS CANTONMENT

SALEM, Ore., Sept. 12.—A committee of Salem Commercial Club, has waited on Governor Withycombe to call his attention to the possibilities at the State Fair grounds for the establishment of a cantonment that could handle thousands of soldiers.

It was pointed out that the new coliseum is one of the largest buildings of its kind in the United States, that there is an immense barn space at the grounds which could be converted into a barracks room and the grounds themselves would furnish an ideal place for training soldiers. By expenditure of no large sum of money, they stated, an ideal spot for cantonment purposes could be developed.

The governor has the matter under consideration and it may be presented to the war department.

AUTOMOBILE SHOWS FOR 1919 CANCELLED

WASHINGTON, D. C., Sept. 12.—At the request of the war industries board the national automobile shows of 1919, which were to have been held during January and February in New York and Chicago, have been cancelled. It was announced late today. Automobile industrial leaders have urged promoters of local shows to abandon all plans for such during the coming winter in order to meet the requirements of the board.

Good four room bungalow near government, with bath, large living room, fire place, lawn and big lot. Excellent location. Price \$2800.00 on easy terms. See Chilcote 20-8

PERSONAL MENTION

LITTLE SIDELIGHTS ON LOCAL HAPPENINGS AMONG THE PEOPLE OF THIS CITY AND VICINITY. GOINGS AND COMINGS OF LOCAL FOLKS

E. S. Kirby and family are down from Odessa.

J. J. Chambers of Bunch Lake, is in the city on business today.

Mrs. E. P. Higginson of Modoc Point, is registered at the Hotel Hall.

Gene Childers is down from his place on the Upper Marsh for a short business trip.

Mr. and Mrs. E. T. Shepherd of Shepherd's Piano Depot, returned yesterday from a business trip to Portland and have reopened their music store here for the winter.

C. F. Stone and Joel T. Ward returned Wednesday from Diamond Lake. Mr. Stone expects to go back to the lake today if the weather will permit traveling in a car.

E. J. Murray came up yesterday from his gravel pit at Hoey, north of Weed, to register for the selective draft.

Mrs. W. P. Hardenbrook, who lives at 237 North Fifth Street, was greatly relieved yesterday on receiving a letter from her son, Bert, stating that he had been in France several weeks and was doing fine. This was the first she had heard from him since receiving a letter on June 20 while he was still in one of the cantonments in the United States. Evidently the card announcing his safe arrival in Europe must have become lost.

NEW HEBREW UNIVERSITY IN JERUSALEM

JERUSALEM, Sept. 12.—The ceremony of laying the foundation stone of the Hebrew University on Mount Scopus was witnessed by 6,000 people. The site is on the eastern slope of the mountain, overlooking the valley of the Jordan as it enters the Dead Sea.

Dr. Weizmann, head of the British Committee in charge of the work, said in his address: "Out of the misery and desolation of war is being created the germ of a new life. This university, altho intended primarily for Jews, will give an affectionate welcome also to members of every race and every creed, and will be accessible to all classes of the people."

A record attendance of women is expected and the accommodations in the dormitories for women are being increased to a maximum. Special interest is being taken in the war work for women.

O. A. C. TO OPEN ON SEPTEMBER 30

OREGON AGRICULTURAL COLLEGE, CORVALLIS, Sept. 12.—The college will open September 30 instead of September 23 as previously announced. This will give time to complete the readjustment of courses and arrangements for housing the men in barracks, and it will not be necessary for the members of the S. A. T. C. to pay their own expenses for a week as would be the case if the institution opened September 23, as men will not be inducted into the S. A. T. C. before October 1.

A record attendance of women is expected and the accommodations in the dormitories for women are being increased to a maximum. Special interest is being taken in the war work for women.

Are You Using Our Coffee and Teas

We Must Do Our Bit Here!

to help win the fight over there; Every day we are throwing away and burning up stuff that the medical department of our government want and need, to save the lives of our boys, and to save those lives will not cost us more than a few minutes of our time. We refer to the saving of the pits of peaches, plums and similar fruit. These are needed to make carbon to put in the gas masks.

Save the Pits

Bring them to us, no matter how small the quantity, or send them in by the children, and we will see that they reach the right place.

DO IT TODAY AND EVERY DAY—SAVE THE PITS

Peaches and Plums are plentiful.

ACCURATE FIRE IS REQUIRED OF AVIATOR

SOMEWHERE IN FRANCE. — (Correspondence of the Associated Press).—Accurate machine-gun fire is the chief requirement of the successful combat aviator, allied aviator, experts agree. Fortunately for the Allies that is one department in which their aviators excel.

It is interesting to note the progress made in the weapons used by aviators. At the opening of hostilities airplanes were used mainly for observational work. Their pilots were armed generally with carbines, and sometimes only with an automatic revolver. Then came the fighting airplanes and the single and double machine gun.

But these newer and more deadly weapons are useless unless properly aimed, and this is no small task as the pilot must aim not his gun, but his whole machine. He must use his airplane as a gun mount. It is easy to conjure some of the pilot's difficulties when the gun mount is manoeuvring and travelling twice as fast as any express train, while its target is in similar action.

Nor is that all the difference between aerial and ground gunnery. On the ground, ammunition is practically unlimited. In an airplane, every ounce of weight counts, and ammunition is therefore strictly limited. The greater, consequently, is the need for accuracy in shooting.

It is important that no ammunition shall be carried which is not absolutely reliable and all is selected and tested. Guns are rigorously inspected, for a jam at a critical moment might prove fatal. In training, on the other hand, ammunition is carefully selected for its badness; the object being, by means of frequent gun jams, to make the clearing of a stoppage automatically simple to the pilot.

The successful air fighter must be a good pilot; but even the most brilliant trick flyer, the "stunter" who can throw his machine about in the air and make it a supremely difficult target for his adversary, is nevertheless incompletely equipped as a fighter unless he can combine brilliant flying with brilliant gunnery. Foch's rule that "offense is the best defence" applies even more in the air than on land, and it is by following their rule that the Allied fighters have won their ascendancy over the Germans.

All styles in Army Shoes at 11-47 K. K. K. STORE.
