

EVERY AMERICAN SOLDIER IN FRANCE KNOWS WHAT THIS SIGN MEANS

Every American soldier in France over there without carrying your mask. The signs have been placed at innumerable places along the western front.

YANKS SPREAD WIRE NETWORK THRU FRANCE

TOURS, CENTRAL FRANCE, Oct. 9.—(Correspondence of the Associated Press).—Along the railway routes and the great national highways of France one sees mile after mile of the new telegraph and telephone lines set up by the American army, with squads of linemen in khaki stringing the wires and laying out new lines.

It was one of the extensive systems suddenly installed on a huge scale with the coming of the Americans, spreading a vast wire network over all France and realizing government operation of telegraph and telephones on foreign soil even before it was under way on home soil.

course with American officials in London; wireless receiving and sending plants for detecting enemy exchanges and carrying on our own radio work; couriers and dispatch riders; weather observers to warn when storms may impede military operations, and all those modern methods of rapid communication which have become indispensable to warfare.

It is a complete linking together of the army, front and rear, headquarters, staff and line, keeping the commanding officers in constant touch with every division and every other branch in the huge field of operations. The movement of troops and the actual fighting of battles are largely dependent on this highly developed army communication, which not only joins our own army but keeps up the liaison of a vast united command.

It is something over 500 miles from the French coast to the battle line in Eastern France, and through this distance there is a complete system of 10 and 20-wire American telegraph lines, linking the rear with the front and also spreading through the vast ramification of warehouses, camps, hospitals, construction shops and military establishments of all sort extending from the ports inland to the firing line.

There is another multiple line running southward toward the Mediterranean and over to the Spanish frontier.

These are the trunk lines, extending clear across France and, besides

these main arteries, every division and branch of the army had its own telegraph and telephone lines keeping up constant intercourse with headquarters. In every area occupied by the army along the front a complete system of lines runs back to switchboard central stations—from regiment back to the brigade, brigade to division, division to corps, corps to headquarters.

On the first day of the big battle above Chateau-Thierry when the Americans began their famous drive, there were 27,000 messages averaging over 50 words each—all the way from an extended report on an operation to a short sharp order for some new move in the swiftly-moving drama. Within six weeks since the Americans had got into action, the communication between front and rear had quadrupled, and six weeks ago had quadrupled over the service on April 1 when the American activities were beginning to get in motion.

The culmination of the great battle late in July stirred into intense activity every branch of communication, with orders flying to hospitals, supply centers, ordnance works, and to the training and rest camps for the steady movement of fresh troops.

By the window of almost every ticket office in the land you will find the Travelers' name plate. This is the company that lends the world in accident and health insurance. See Chicago.

THANKS LADY WHO GAVE INFORMATION

OVERHEARS CONVERSATION THAT LEADS TO HIS RECOVERY—GAINS 18 POUNDS

"I have already gotten back about eighteen pounds of the weight I lost while sick, and now my health seems to be just perfect," said Harry V. Hortlocher in a recent conversation at the Mattheeson Hotel, 304 Columbia street, Portland, regarding the benefits he has derived from the use of Tanlac. Mr. Hortlocher is a well known carpenter and is employed by the Standifer Construction Company of Vancouver, Washington.

"On the 26th day of last March," explained Mr. Hortlocher, "I was taken down with an attack of stomach poisoning—ptomain poisoning, I believe they call it—which almost carried me away, and since that time until I got Tanlac, nothing I would eat agreed with me. What little I did manage to eat would soon sour, causing gas and terrible pain and misery. I lost my appetite almost entirely, and often just the smell of anything cooking would make me dreadfully sick at my stomach. My food evidently did me no good, as I fell off from one hundred and eighty pounds to one hundred and fifty. I just had to lay off from my work, as I felt too weak and exhausted for several weeks to even attempt to do anything. Just climbing up the stairs to my room would exhaust me, take all my energy. I was constipated all the time, had headaches, and noticed that my nerves were going all to pieces as I couldn't get a good night's sleep. Nothing did me any good, and I had become uneasy and worried about my condition.

"One day while in the Owl Drug Store I happened to overhear a lady who was buying a bottle of Tanlac, tell the man who was waiting on her, that she had been suffering from stomach trouble for years, and that Tanlac was the only medicine she had ever taken that did her any good. Well, she didn't know it, but just that little remark of hers sold me a bottle of Tanlac right then and there and if I only knew her name I would like to thank her for putting me onto the thing that has given me back my health and strength. My stomach feels now like it is in just as good shape as it ever was. And such an appetite as I do have! I believe I could eat five meals a day without suffering a particle afterwards. By using the Tanlac Tablets in connection with Tanlac I have been relieved of constipation, and I'm never bothered anymore with headache. I now feel a hundred per cent strong and well, and am putting in full time at my work and I certainly do think Tanlac is a great medicine."

Tanlac is sold in Klamath Falls by the Star Drug Co.

AUSTRIANS NOW FAVOR LIBERAL CONCESSIONS.

(By Associated Press). AMSTERDAM, Oct. 9.—Count Tisza, the former premier of Hungary, speaking at the reform congress at Budapest, is quoted by the Berlin Vossische Zeitung correspondent at the Hungarian capitol as saying that autonomy, so far as possible, would be granted to the various nationalities living in Hungary, that Austrian territory occupied by Italy would go to Italy and that parts of Galicia would be annexed by New Poland.

SUBSTITUTE FOR RADIUM FOUND

GOLDEN, Colo., Oct. 9.—Dr. Richard E. Moore of the United States bureau of mines here has announced he had discovered a substitute for radium, which he has named mesothorium. He will explain his discovery to the American institute of mining engineers, which meets in Milwaukee, October 10.

As there are only three ounces of radium in the world's entire supply, mesothorium will at once come into wide use as a substitute for that element in luminous paints, airplane dials, compasses and gun sights, according to Dr. Moore.

The purpose of the National War Savings committee is to create an army of savers who will, by saving, release labor and materials for the use of the government in the war, and who will lend their savings to the government to prosecute the war.

At the Theaters

In "The Inn of the Blue Moon," by Louis Joseph Vance, which is to be the photoplay attraction at the Temple Theatre tonight, the beautiful Doris Kenyon is called upon to assume two roles—two sisters whose parents separated when the children were infants. The girls are brought up in wholly different environment and at maturity, one is a simple country lass and the other a stellar social luminary in New York's luxury-loving set. Miss Kenyon therefore has a remarkable opportunity for the display of her versatility. The result is said to be highly meritorious and satisfying.

In Charles Ray's latest Paramount picture, "The Hired Man," now showing at the Star Theatre, there are seen the grounds and side shows at a real county fair. These scenes were filmed at the California fair which was held near Los Angeles, and shows the farm exhibits, the races, and many of the standard fair attractions, including even a balloon ascension. It was noticeable, however, that even the latter failed to attract the crowds until Mr. Ray and his company moved into its vicinity, so great was the fascination of watching a "regular" photoplay in the making. The cast which supports Mr. Ray is exceptionally good, including Charles French, Doris Lee, Gilbert Gordon, Lydia Knott and Carl Ullman.

IF KIDNEYS AND BLADDER BOTHER

TAKE BATHS TO FLUSH KIDNEYS AND NEUTRALIZE IRRITATING ACIDS.

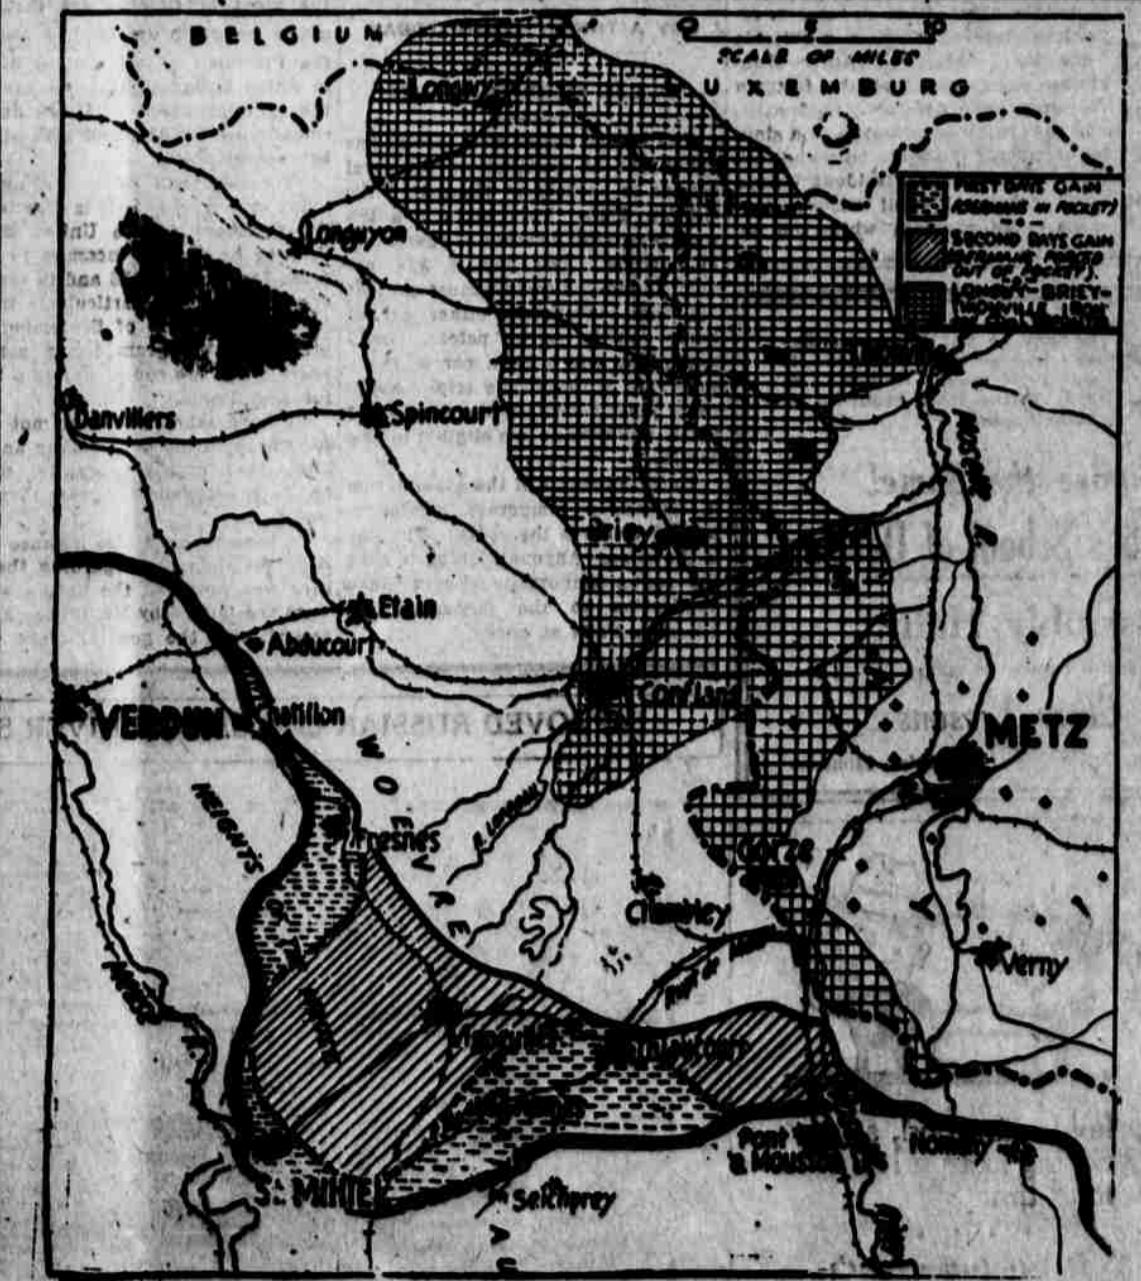

Kidney and Bladder weakness result from uric acid, says a noted authority. The kidneys filter this acid from the blood and pass it on to the bladder, where it often remains to irritate and inflame, causing a burning, scalding sensation, or setting up an irritation at the neck of the bladder, obliging you to seek relief two or three times during the night. The sufferer is in constant dread, the water passes sometimes with a scalding sensation and is

very profuse; again there is difficulty in voiding it.

Bladder weakness, most folks call it, because they can't control urination. While it is extremely annoying and sometimes very painful, this is really one of the most simple ailments to overcome. Get about four ounces of Jad Salts from your pharmacist and take a tablespoonful in a glass of water before breakfast, continue this for two or three days. This will neutralize the acids in the urine so it no longer is a source of irritation to the bladder and urinary organs which then act normally again.

Jad Salts is inexpensive, harmless, and is made from the acid of grapes and lemon juice, combined with lithium, and is used by thousands of folks who are subject to urinary disorders caused by uric acid irritation. Jad Salts is splendid for kidneys and causes no bad effects whatever. Here you have a pleasant, effective, quickly relieves bladder trouble. Adv.

GREAT COAL AND IRON REGION OF FRANCE AMERICANS ARE NOW HELPING TO GET BACK FROM THE GERMAN'S FORCES

The squares in this map from Belgium on the north to a point within a few miles of the new battle line established by the American drive show the great coal and iron region of France. From this region Germany has been drawing her coal and iron supplies that have made it possible

for her to continue the war. Should the American advance drive the Germans from it the war will be as good as won—in so far as it can be won on the western front. For here are the richest deposits in Europe outside of Russia. The horizontal dashes show the

This Range of Possibilities

This Electric Range will do everything that any other kind of cook stove will do and do it better. There is no waste of fuel, as the heat is concentrated just where it is wanted and is under instant control. Shrinkage in food is also less than with other stoves. Neither smoke, fumes nor ashes are given off by this electric range. It is, therefore, the ideal equipment for the kitchen. It is always ready for immediate use at a turn of the switch and costs nothing for fuel when not actually cooking. You will be surprised at the low cost of electricity for cooking under the "Combination Cooking and Lighting Rate" fixed by the Public Service Commission. We will be glad to explain this rate to you and can refer you to many satisfied customers in Klamath Falls who have taken advantage of it. Or we will be glad to demonstrate in your own home if you are interested.
