

**SKIMMED FEELING
HARDSHIPS OF WAR.**

NOME, ALASKA, (By Mail)—Eskimos have learned that Liberty bonds; war saving stamps, and increased living costs leave the white man less money for curios than in

former years. Consequently they are offering specimens of their hand-work in ivory, bone and hide at prices far below those of former years. Most of the Eskimos who sell their curios to visitors and residents here come from the Diomed Islands, which lie in Bering Sea, Russian, and the other in American waters.

CANTEENS ESTABLISHED

Over 700 canteen stations have been established by the American Red Cross on the railway lines of this country and at the embarkation points to furnish refreshments to enlisted men when traveling thru the country.

**GAS SHORTAGE
OVERSEAS IS
NOW SERIOUS**

The Sunday saving of gasoline in America will prove to be a tremendous benefit to the military machine overseas, according to Charles G. Titus of Sacramento, who arrived at an Atlantic port recently, after having served a year as a division secretary for the Y. M. C. A. in France.

"The entire motor transport service overseas," said Mr. Titus, "has been crippled by the shortage of gasoline, and for one period of three days not a wheel of the more than 400 'Y.' trucks was turned. That meant that other war work organizations were crippled also, and that the fighting men served by the Knights of Columbus and the Salvation Army had to be satisfied with the limited stocks which could be cached.

"A hut in France is a whole lot like New York City; the supplies must arrive regularly or a stringency in the market is immediately noticeable. When the war work organizations are deprived of the comforts which they desire and to which they are entitled. The request that automobiles be kept in their garages on Sundays means a saving that will make it possible for our boys to have their comforts, their smoke, and their sweets, their movies and their men and women entertainers."

Mr. Titus added his word of praise to the volume which already has been bestowed upon the marines who made history at Chateau-Thierry. The marines were a part of the division to which he was attached.

"I hated to leave that division," Mr. Titus added, "but the directors of the United War Work campaign called me back to tell as many persons as possible in America what I saw in the eleven months I was in France. After I have delivered the message I'm going back. In that division, with the Knights of Columbus, Salvation Army and the American Library Association co-operating enthusiastically, the Y. M. C. A. had not less than 24 workers at any one time, 15 of them women.

"There was one religious worker, one sports leader, one educational director, and the rest was made up of motor transport men, construction and warehouse men, and about 50 hut secretaries, who come in closest touch with the fighting forces and represent their home land to them.

"But while the hut secretaries are in the majority, and meet the general and the private on equal terms, without the motor transport men the

foundation for their work would crumble. There is great need for experienced drivers and mechanics, so great, in fact, that during great battles we were forced to recruit temporary drivers from the huts. It so happened that our best man was also our best driver, and also our best cook, as was proved on occasion when our supplies failed to come thru and we had to prepare our own meals."

**DENVER LOAN SLACKERS
NAMES SENT TO TRENCHES**

DENVER, Colo., Oct. 18—Denver soldiers, serving at the battle front, will learn who of those at home subscribed to the Fourth Liberty Loan. Lists of bond buyers are to be sent to every Denver unit in France, by the Committee in charge of the local sale.

**SPANISH INFLUENZA RAPIDLY
SPREADING**

**PERSONS WEAK AND RUNDOWN
BABY VICTIMS. FORTIFY YOUR
SELF AGAINST IT BY TAKING
TANLAC.**

According to late reports issued by State and Federal health authorities the Spanish influenza epidemic is rapidly spreading to all parts of the country, and it now seems that practically every state in the Union will be seriously affected before it runs its course.

It has not only become a great and terrifying menace to the public health

but unless checked, it is apt to seriously affect the progress of war work in all its various departments. Already the Shipping Board has announced that ten per cent of its workers had been affected. The disease has made its greatest progress in the East where it has claimed its victims by the thousands. Reports from other sections, however, are equally alarming; and both civil and military authorities have warned the public to take every precaution to prevent its further spread. In many cities, schools, churches, and theaters have been closed and public gatherings of all kinds forbidden.

Medical authorities agree that people who are weak and rundown are the earliest victims of the influenza epidemic. If you find yourself tired, weak and losing flesh, or if you are in a generally run-down condition, or if you catch cold easily this warning should be heeded promptly. You are really in great danger, because the germ of this disease is very catching and you are apt to fall an easy victim if you come in contact with the germs. People who are well and strong are not likely to contract the disease because they are able to throw it off. The common-sense way to keep from taking it is to fortify the system against attack by building up the constitution.

In other words to use the old adage, "An ounce of prevention is worth a pound of cure." And if you are in a sub-normal condition the proper thing to do is to begin immediately to build up your powers of resistance. To accomplish this, nothing on earth will strengthen you and build you up like Tanlac, the powerful reconstructive tonic, which contains the very elements needed by the system to give you fighting strength and ward off the influenza germ.

First of all Tanlac begins its action by creating a good healthy, appetite for wholesome, nourishing food, and assists every organ of the body to perform its natural functions,

thus helping to build up health and strength in the natural way. Tanlac is also the ideal strengthening tonic for persons who are suffering from the after effects of influenza, Grippe, or Bronchial troubles, and hundreds of thousands are using it daily with the most gratifying results.

In connection with the Tanlac treatment, it is necessary to keep the bowels open by taking Tanlac Laxative Tablets, samples of which are included with every bottle of Tanlac. It is also important that the every day rules of hygiene be observed; that is, sleep in well ventilated rooms, get plenty of fresh air and exercise and keep away from crowds. Tanlac is sold in Klamath Falls by the Star Drug Co. Adv.

**EVERYTHING GOES
Telford Bros.
GARAGE**

**Closed on Sunday
Beginning Sunday
October 20**

The Oregon State Council of Defense has requested that no delivery of petroleum products be made on Sunday. The Standard Oil Company is glad to comply with this request, and beginning Sunday, October 20th, and thereafter until further notice, all of our distributing stations in the State of Oregon, including our automobile service stations, will be closed on Sunday. No sale or delivery of any kind will be made on Sunday. As in the case of our previous announcement regarding the sale of gasoline and engine distillate only between the hours of 6 a. m. and 6 p. m. (now week days only), this request is made for the purpose of conserving man power, and we know that our patrons will patriotically co-operate in making this important war measure effective.

**DRINK HOT WATER
BEFORE BREAKFAST**

Says you really feel clean, sweet and fresh inside, and are seldom ill.

If you are accustomed to wake up with a coated tongue, foul breath or a dull, dismy headache; or, if your meals sour and turn into gas and acids, you have a real surprise awaiting you.

Tomorrow morning, immediately upon arising, drink a glass of hot water with a teaspoonful of limestone phosphate in it. This is intended to first neutralize and then wash out of your stomach, liver, kidneys and thirty feet of intestines all the indigestible waste, poisons, sour bile and toxins, thus cleansing, sweetening and purifying the entire alimentary canal.

Those subject to sick headaches, brackeche, bilious attacks, constipation or any form of stomach trouble, are urged to get a quarter pound of limestone phosphate from the drug store and begin enjoying this morning inside bath. It is said that men and women who try this become enthusiastic and keep it up daily. It is a splendid health measure, for it is more important to keep clean and pure on the inside than on the outside, because his skin pores do not absorb impurities into the blood, causing disease, while the bowel pores do.

The principle of bathing inside is not new, as millions of people practice it. Just as hot water and soap cleans, purify and freshen the skin, so hot water and a teaspoonful of limestone phosphate act on the stomach, liver, kidneys and bowels. Limestone phosphate is an inexpensive white powder, and almost tasteless.—Adv.

Ice Boxes on Wheels

Refrigerator cars for carrying meat are ice boxes, traveling on wheels.

Most people in America would have to go without fresh meat, or would have to pay more for what they could get, if it were not for these traveling ice boxes.

Gustavus F. Swift, the first Swift in the packing industry, saw the need of these traveling ice boxes before others.

He asked the railroads to build them. The railroads refused. They were equipped, and preferred to haul cattle rather than dressed beef.

So Gustavus F. Swift had to make the cars himself. The first one was a box car rigged up to hold ice. Now there are 7,000 Swift refrigerator cars. Each one is as fine an ice box as you have in your home.

Day and night, fair weather and foul, through heat and cold, these 7,000 cars go rolling up and down the country, keeping meat just right, on its way to you.

Thus another phase of Swift & Company's activities has grown to meet a need no one else could or would supply, in way that matched Swift & Company ideas of being useful.

When you see one of these Swift & Company cars in a train, or on a siding, you will be reminded of what is being done for you as the fruit of experience and a desire to serve.

Swift & Company, U. S. A.
