

ARMISTICE TERMS ARE TO BE DRASTIC

NO INDULGENCE GIVEN ENEMIES

HUNS WILL BE GIVEN NO CHANCE TO "COME BACK" IN ARMISTICE TERMS WHICH GENERAL DIAZ WILL SUBMIT

CONDITIONS INSPIRED BY WILSON'S PRINCIPLES. ENEMY WILL NOT PROFIT BY TIME TO GET OUT OF PRESENT TRAP

(By Associated Press)

WASHINGTON, D. C., Nov. 2.—Information from diplomatic channels says that the Supreme War Council in the armistice terms will require the Germans to withdraw thirty miles beyond the Rhine, surrender Heligoland, with the German fleet, including the submarines.

The terms are so drastic that some of the military experts doubt whether the Germans will accept them without further fighting.

PARIS, Nov. 2.—A Geneva dispatch to the Temps says: "The abdication of William the Second may be considered an accomplished fact. The official publication is delayed for an opportune moment."

WASHINGTON, D. C., Nov. 2.—Intimations of the drastic nature of the terms submitted by General Diaz to the Austrians are given in a Rome dispatch, which says:

"The Italian victory is hourly assuming such proportions that any kind of indulgence toward the enemy, which up to the last minute of his dominion has insulted our brethren, devastated our lands and fought with the utmost barbarity, would be a crime.

"The conditions of the armistice are inspired by the principles of President Wilson, namely to render it impossible for the enemy to recommence war, and to prevent him from profiting by an armistice to withdraw from a difficult military position."

WINTER TO BE MOST SEVERE ON RUSSIANS

LONDON. —(Correspondence of the Associated Press).—Russia is facing a winter of hunger and cold augmented this year because of the extreme scarcity of fuel which prevails in all parts of that country. The lack of coal has been keenly felt ever since the loss of the Donets basin to the Germans early last spring. It affected the railroads and caused factories to be shut down.

The Cascho Slovak operations in Siberia and in the Ural region have prevented any relief from that direction.

The stores of wood in Moscow and Petrograd, owing to the lack of transportation facilities and other difficulties too numerous to mention, are far from sufficient to meet the demands of a long winter. A Moscow paper estimated months ago that the supplies of wood in that city would hardly suffice to satisfy the needs of public utilities this winter, and that in consequence all private enterprises and homes could not hope to get even a limited quantity of it.

To one who has experienced the discomforts of a cold Russian winter even under better conditions, the situation is far from alluring. The chilly atmosphere of an unheated apartment, darkness in the streets and homes, the quiet of a city undisturbed by the rumble of street cars and motor vehicles, and, lastly, the uncomfortable feeling of an empty stomach—such are the prospects of the coming winter in Russia.

HUGHES BRINGS SHADY ACTS OF OFFICERS OUT

AIRPLANE REPORT COMPLETED IN AUGUST IS MADE PUBLIC BY PRESIDENT—"DEFECTIVE ORGANIZATION" CAUSE OF DELAY

WASHINGTON, D. C., Nov. 2.—The long-awaited report on the aircraft investigation, conducted during the last five months by Charles E. Hughes and Attorney General Gregory, has been placed before President Wilson and made public.

Delays and wastes of the production program, the report declares, were due chiefly to "defective organization of the work of aircraft production and serious lack of competent direction of that work by the responsible officers of the signal corps."

No fault is found with the management of aircraft affairs since the reorganization of last May, which placed John D. Ryan in charge. The civilian personnel of the aircraft production board is excoriated of wrong doing.

Attorney General Gregory, in a letter transmitting the report to President Wilson, says he is in "substantial accord" with the findings of Hughes.

The report finds no "graft" in the generally accepted sense, but makes recommendations for proceedings against army officers held guilty of dealing with corporations in which they were interested.

The chief waste from the original appropriation of \$891,581,866, the report says, was in the abandonment of two types of airplanes—one of them the Bristol—and failure to salvage, aggregating about \$24,000,000. Figures show that last May \$134,000,000 of that great appropriation had been disbursed, and up to October 1 the expenditure had reached about \$140,000,000 for all aviation purposes. This did not include expenditures of the sales department, which buys material and recells it to manufacturers, and for advances for building plants.

Contracts let, however, committed about \$470,000,000 of the fund. These figures are given in answer to the general charge that the sum had all been expended with practically no results.

The attorney general concludes in his letter of transmittal that "no such profits have been allowed as to justify a charge of bad faith."

Colonel E. A. Deeds, about whom raged most of the charges which brought on the investigation, the report recommends, should be brought before court martial for sending confidential war department information on the aircraft situation to former business associates in Dayton, Ohio, and for being sponsor last February for a "grossly misleading statement" to the effect that "first American-built battle planes are today en route to the front in France."

Criminal prosecutions of three army officers are recommended on the ground that they transacted business with corporations in which they were financially interested. These officers are: Lieutenant Colonel J. G. Vincent, former vice president of the Packard Motor Car company, now in charge of the airplane engineering division of the aircraft production bureau; Lieutenant Colonel George W. Minter, a stock holder in the Curtiss Airplane and Motor corporation, production manager of the aircraft bureau, and Second Lieutenant Samuel B. Vrooman Jr., inspector of propeller lumber and stock holder of the S. B. Vrooman company of Philadelphia.

TEAR DOWN OLD LIBERTY LOAN POSTERS

The government asks that posters of the Fourth Liberty Loan and other drives as well which have passed, be no longer displayed. A little consideration will show the advisability of this.

To meet this expressed wish of the government, I would ask our people to take down the old posters which adorn their walls and windows. Exception, of course, should be made of the posters advertising War Savings stamps, which are on sale at all times, and which we should encourage in every way.

Our county quota was over-subscribed 30 per cent, and now the national quota is announced to be over-subscribed 15 per cent. The posters have done their work. Don't forget to take them down.

KAISER STILL HOLDS GRASP ON THRONE

BECOMES FRAGMENTED NOW—EVER AND TAKES REFUGE IN GERMAN GRAND HEADQUARTERS. PRESS GROWS BITTER.

PARIS, Nov. 2.—Emperor William who is persisting in his refusal to abdicate is reported to have taken refuge at the German Grand headquarters immediately after the war cabinet meeting.

LONDON, Nov. 2.—"If the moment comes when the interests of Germany demand it, I should abdicate without hesitation; but the moment does not seem to have come."

Emperor William is quoted as having said this in an address to members of the German Reichstag, according to a dispatch to the Exchange Telegraph from Amsterdam, quoting advice from Berlin.

The Emperor said the people must not think he had decided to remain on the throne at all costs.

AMSTERDAM, Nov. 2.—The censor has permitted the Arbeiter Zeitung to publish a leading editorial article violently denouncing the "punky" German Kaiser, "who preferred to see bitter humiliations inflicted on his people rather than abdicate."

Arguing that voluntary abdication would have produced easier terms for an armistice, the newspaper adds: "A real Emperor would rather proudly abdicate before being branded by the whole world as the man who caused his nation's humiliation."

WOMAN KEEPS LONELY VIGIL IN ROCKIES

BUTTE, Mont., Nov. 2.—Miss Mabel Geenan, a school teacher of this city, released a man for war work the past summer by setting a lookout on Nez Perce mountains, a lonely peak on the very summit of the Rocky Mountain range 50 miles from a railroad and far away from the main trail. She says she liked it, immensely. Most of the summer Miss Geenan was alone, except for the companionship of her horse and the wild creatures of the forest, altho Mrs. John Brownahan of this city spent about a month with her on her mountain height.

ENEMY NOW TAKING YANKEES SERIOUSLY

WITH THE AMERICAN FORCES IN FRANCE, Nov. 2.—Orders cautioning German soldiers to be on the alert in an endeavor to avoid surprise attacks by the Americans issued by German commanders were found by the Americans during the German retreat from the St. Mihiel salient. One document said: "The Americans who are opposite us are to be taken seriously in small enterprises. The largest vigilance is recommended at dawn and during the cool hours of the morning. Surprise attacks are ordinarily launched at that hour. Sentinels whose strength and nerves have been worn out during the night relapse and become indisposed. In view of our recent experience it is especially important to watch our troops at this moment of the day. In front of us we find the American division, troops young, inexperienced and just landed."
