Subscriptions Must Be Paid In Advance

In compliance with the ruling of the pulp and paper section of the War Industries Board regarding the conservation of newsprint paper, all subscriptions must be paid for in advance before delivery can be made.

Following is the new ruling of the War Industries Board, Washington, D. C., with reference to subscriptions:

"Discontinue sending papers after date of expiration of subscription, unless subscription is renewed and paid for." This ruling is now in effect.

We ask your patriotic co-operation with us in complying with this war-time measure of our government by paying the carrier boys promptly when they call the first of the month. Otherwise, we have no discretion in the matter but to discontinue the paper. Beginning November 1st, carriers will collect for the paper for the current month in advance, instead of for the month past, as has been the custom.

KING DECORATES SUCCESSFUL GENERAL

King George of England is here shown decorating General Sir H. C. Plummer, one of those who has made good.

PINE FORESTS GOING RAPIDLY INTO BIG BOATS

GALVESTON, Tex., Nov. 5.—Pine trees in which birds were building nests at sowing time last spring are now made into ships ready for cargoes of grain destined for Europe and the forests of the south everywhere show the results of the great shipbuilding drive.

Construction of a single ship of the Ferris type, calling for nearly two million feet of lumber, necessitates the clearing of nearly a thousand acres of pine trees. The Daugherty type ship requires a million and a half feet of lumber. While the pine forests of Louisiana and Texas produce from 10,000 to 20,000 feet of lumber an acre, only a small percentage on this is available for shipbuilding.

Two score vessels already have been launched at Beaumont, Orange and Houston, and the consumption of lumber at Orange alone will denude more than 100,000 acres of forest. Shipyards at Beaumont and Houston will take as much more. The yards at Lake Charles, Morgan City, New Orleans, Slidell, Rascagoula, Gulfport, Biloxi, Pensacola and Mobile likewise are drawing on the forests of the south, and the woodland cleared will total millions of acres when the shipbuilding campaign is over.

The Emergency Fleet Corporation has contracted for all available ship timber and would use more if it could be produced. At Beaumont the fleet corporation has built one of the largest lumber yards of the country on forty acres of land presented by the city.

Louisiana has 50,000 men in its 700 saw mills, while Texas has no more than half that number, altho Texas has a larger of saw mills. If labor sufficient to operate the mills at full capacity were unavailable, both Texas and Louisiana would be producing more lumber this year than ever before.

TO DARKEN HAIR APPLY SAGE TEA

LOOK YOUNG! BRING BACK ITS NATURAL COLOR, GLOSS AND ATTRACTIVENESS

Common garden sage brewed into a heavy tea with sulphur added, will turn gray, streaked and faded hair beautifully dark and luxuriant. Just a few applications will prove a revelation if your hair is fading, streaked or gray. Mixing the Sage Tea and Sulphur recipe at home, though, is troublesome. An easier way is to get a 5-cent bottle of Wyeth's Sage and Sulphur Compound at any drug store all ready for use. This is the old time recipe improved by the addition of other ingredients.

While wispy, gray, faded hair is not sinful, we all desire to retain our youthful appearance and attractiveness. By darkening your hair with Wyeth's Sage and Sulphur Compound, no one can tell, because it does it so naturally, so evenly. You just dampen a sponge or soft brush with it and draw this through your hair, taking one small strand at a time; by morning all gray hairs have disappeared, and after another application or two, your hair becomes beautifully dark, glossy, soft and luxuriant.

This preparation is a delightful toilet requisite, and is not intended for the cure, mitigation or prevention of disease.—Adv.
