METRIC SYSTEM TO BE URGED ON CONGRESS

WASHINGTON, D. C., Nov. 26.—Adoption of the metric system of weights and measurements for the United States will be urged upon Congress by the American section of the International High Commission, which aims to bring about greater uniformity of commercial law and regulations and more stable financial relations between the United States and the South and Central American republics.

The American section holds that in view of probable closer commercial relations between North and South America, it would be of immense value to business interests to substitute the meter, kilometer, centimeter, liter, hectoliter, hectare, gram and kilogram for the yard, mile, inch, quart, gallon, acre, ounce and pound.

GERMANS SAID TO HAVE FOOD FOR THIS YEAR

LONDON, Nov. 26.—(British Wireless Service).—A neutral correspondent writes to the Morning Post that he has received a letter from Kiel in which this occurs: "We are better off for food this year than in 1917. There is plenty of grain and potatoes so there will be no shortage."

The Post comments as follows: "This only confirms the belief held in authoritative quarters here that the conditions of scarcity advertised in Germany's daily whine about the armistice conditions do not exist. Out of their own mouths, or those of their rulers and newspapers, before the collapse, the Germans can be shown to have confessed to have sufficient supplies to carry them thru the winter."

BIG STOCK OF BOOZE FOUND HID IN TOWN

OFFICERS MAKE SUCCESSFUL RAIDS LAST NIGHT. LARGE QUANTITY OF WET GOODS HELD AS EVIDENCE.

Nine cases of whiskey from Pelican City and fifty four quarts from the Argraves Rooming House on Second Street was the result of unexpected calls by Chief of Police, Hank Wilson, Federal Officer, Price Bech and Deputy Sheriff T. E. Griffith last night. Police headquarters at the City Hall looks today like the store room back of a saloon.

John Oliver and Charles Buti, Italians at Pelican City were arrested in connection in the raid on their house there and their hearing was started this afternoon in the Justice Court of N. J. Chapman.

The culprit in the Argraves raid was Roy Rhodes, a local jitney driver, who is now in the city jail awaiting a hearing. That a land office bootlegging business was being carried on in both instances is the belief of the officers in view of the big hauls made. The Gem Rooming House near the west end of Main Street was also raided but without result.

ASK FRATERNAL INSURANCE LAW BE MODIFIED

SALEM, Ore., Nov. 26.—Inspired by some of the fraternal insurance societies, it is probable that a bill will be introduced to bring about the repeal of the fraternal insurance laws. A movement that is now under way is especially directed against that law governing fraternal insurance societies, which provides that the state shall have jurisdiction and supervision over societies and make such examinations as the state may deem necessary from time to time.

The contention of those who hope to erase the law from the statute books is that there should be no state supervision relative to rates and they claim the present law may force some of the societies out of business or demand changes in their operation. The law which is under fire is a modification of what is known as the "Mobile law" and was passed by the legislature of 1917.

LOWER MARSH PUBLIC LANDS TO BE LOCATED

HINT THAT FERTILE LANDS NOW BEING RECLAIMED IN LOWER KLAMATH LAKE MAY SOON BE THROWN OPEN

What may be taken as an indication of the early opening to settlement of the public lands now being reclaimed from the bed of the Lower Klamath Lake a few miles south of this city, is the arrival of Surveyor Fred Mench from the United States Land Office at Portland to make a survey of the lands that are sufficiently well drained for this purpose. The survey is being made for the United States Reclamation Service. Mr. Mench is today in conference with county Surveyor, J. C. Cleghorn.

It is believed that parts of five or six townships can now be surveyed. Tule Lake is being reclaimed by closing the gate at the Klamath strait, where it is crossed by the Southern Pacific Railroad. By this move fifty four thousand acres of fertile land will eventually be brought under production. Some of the land is now sufficiently drained for pasture use. A portion of it is privately owned while some remains public domain. A National bird reserve covers part of this area.

OREGON FUEL SITUATION IS NOW SPLENDID

PORTLAND, Nov. 26.—So excellent is the fuel situation in Oregon that dealers are complaining because there is so little demand for their stock on hand and mines are complaining because the dealers are putting in so few orders, according to Fred J. Holmes, federal fuel administrator for Oregon.

This state of affairs is due in part to the abundance of fuel resources close at hand, partly to the laying in of early supplies by the consumer and partly to the balmy November weather.

Oregon is probably the most favored state in the Union as regards the fuel situation, according to Mr. Holmes with plenty of heat for everybody.

The ceremony was performed at nine o'clock. The groom is a rancher and his bride lived on a homestead nearby.

There has been no intimation given as to the United States policy in this issue.

HOOVER IS NOT WORRYING OVER GERMANY NOW

LONDON, Nov. 26.—Herbert Hoover, American food administrator, who has been mentioned as the possible world's food administrator, will visit all the European countries and confer with the food controllers of each before completing his plans for handling the food situation which has arisen from the sudden ending of the war.

Hoover so stated when he arrived here in company with Edward N. Hurley, chairman of the United States shipping board. Both men were greeted by a crowd of Americans when they arrived from Southampton, where they landed from the liner Olympic earlier in the day. Hoover declared that at present he has no plans for feeding Germany, inasmuch as these must await future consideration.
