Wilson May Get Noble Peace Prize

GRAND FORDS, N. D., Dec. 2.—A special cable dispatch to the Norwegian in this city from Christiania indicates that the Nobel peace prize for 1918 may be awarded to President Wilson, who, according to the

ENGLISH WILL BE LANGUAGE OF PEACE MEET

(By Associated Press) PARIS, Dec. 2.—The question of conducting the proceedings of the peace congress in English is being discussed, with some prospect that this innovation will be brought about. If it is, it will be the first great international congress with English as the official language, as French has long been recognized as the medium of diplomacy.

For practical reasons, it is said, the use of English language would be more convenient to a larger number of the delegates than French, for during the sessions of the inter-allied conference all but two of the delegates spoke English, whereas a considerable number did not speak French, and were unable to understand the proceedings when French was used.

The printed record of the daily proceedings will be in both French and English for the convenience of all, and, in addition, several of the governments will have their own publications, dealing with the developments.

Economic questions are coming prominently to the front in connection with the presence here of Herbert C. Hoover, American food administrator, who has been joined by Edward N. Hurley, chairman of the shipping board. They conferred at Colonel House's residence on food distribution and tonnage.

France needs considerable amount of tonnage for the rehabilitation of her merchant shipping fleet during the war and thru enforced activity of her shippers during the war. One plan is a governmental project involving the expenditure of approximately 1,000,000,000 francs.

There has been considerable discussion also concerning the amount of tonnage likely to come from the United States following on Captain Tardieu's statement recently that he had been assured of 100,000 tons. The presence of Mr. Hurley has given an opportunity to go over these and other shipment questions.

C. O. P. WOULD RAISE ITS RATES

YREKA, Dec. 2.—The State Railroad Commission has today by eight-yearly looking over the properties of the California-Oregon Power company, with a view of establishing power rates.

The company has made application to raise rates and the commission has been checking up the inventory of the valuations on property.

The California-Oregon Power company operates plants, electric lines and water systems for towns in Siskiyou and Tully counties, California, and in Jackson and Klamath counties, Oregon. It has just completed a line to Kennett, Shasta county, to connect with the Northern California Power company to transmit electricity to San Francisco and the Bay Cities for power purposes.

ANNOUNCEMENT

In spite of the termination of the war, the prices of the different kinds of food for dairy cows have continued to soar, and the nature of a dairyman's work makes it difficult to keep the necessary help at any price. It has and will always continue to be the policy of this dairy to serve its customers milk which is produced only under the most sanitary conditions, but it has been found impossible to do this longer under the old schedule of prices. We have accordingly been forced to adopt the new list of prices, which will go into effect December 10.

- For those who have paid already in advance, the rates will not be effective until next month.

Matty Looks Good in This U. S. A. Uniform

Here is Christy Mathewson, one of the heroes of baseball, perhaps as great a pitcher as the game has seen, in his new uniform as a captain in the United States Army. He seems happier in it than when he wore the Giants' uniform at the Polo Grounds in New York City.

AMERICA MUST DENY HERSELF FOR FRIENDS

have before, if Mr. Hoover's report shall prove it necessary.

The release of the Cuban sugar supplies have made it practicable to begin, for the time being, to permit the purchase of four pounds of sugar to the individual, beginning December first, and all cramps, mercantile establishments and others who have heretofore been assured their necessary supplies under the certificate system will be expected to purchase their sugar supplies, basing their needs on four pounds to the individual and Hon. W. E. Ayer, the Federal Food Administrator in Portland received a telegram on Friday the 29th announcing the discontinuance of the sugar certificate system, a plan which I think has been an excellent one, and dealers are left on their own responsibility in purchasing supplies, yet they are not expected to carry more than a two months supply at any time.

As to the cards, we shall continue to issue them, they being good for four pounds to the individual in December, or until otherwise ordered. O. O. APPLIGATE, County Food Administrator.

CHANGE IN R. C. OFFICE HOURS

Since the work of the Christmas cartons is over the Red Cross office will be open during the afternoons only from 2 to 5 p. m. Until further notice, the secretary, Rev. E. P. Lawrence, will be at the office Monday and Thursday afternoons; Mrs. H. D. Mortenson, the chairman of the chapter, will be there Tuesday and Friday afternoons, and Mrs. O. W. Robertson, who has charge of the home service department, will be there on Wednesday and Saturday afternoons. The phone in No. 22. Anyone of these parties may also be reached thru their home phones at other times. E. F. LAWRENCE, Sec'y.

Intrepid Commander of "Lost Battalion"

"Go to hell!" was the response of Lieutenant Colonel Charles W. Whittlesey, when a German officer demanded the surrender of his famous "lost battalion," which had advanced so rapidly in the Argonne forest that it was entirely surrounded and without food for four days. He and his men were rescued soon afterward by American troops. At that time he was a major. He has just returned from France.

MAJOR HAMILTON SEEKS DISCHARGE

That he is now endeavoring to secure his discharge now that the war is over, is the word received from Major R. B. Hamilton who is now in New York under orders to sail for France and take charge of reconstruction units. Most of the Medical Corps will be discharged at once he says. Mrs. Hamilton and daughter, Helen are returning to Portland to live. Major Hamilton speaks of meeting Phil Sinspot formerly of the Herald, who is now in New York and who expects to receive his discharge soon. American boys are dying for their country. Surely you can save for it. Buy War Saving Stamps.

COLLECTION TAKEN FOR INJURED MEN

Fred Rogers who recently took up a collection of \$275 among his brother loggers and others for William Sparrow has accompanied the latter

to San Francisco and will remain with him until his operation is over. The afflicted man had his spine injured several years ago in California, when a log rolled over him and was gradually growing worse. The action of Rogers and his friends, it is believed will save the man's life and health.

Will Lose Interest

Will I lose interest in my automobile? Certainly, if you fail to buy gasoline regularly. How about a Victrola or Playerpiano? Yes, the same holds true, for if you don't figure on purchasing records and rolls regularly it's a poor investment.
