COL. JOHNSON NOW SAILING FOR NEW YORK

That Lieutenant Colonel R. A. Johnson is now returning from overseas and will reach New York next Wednesday is the joyful news received by Mrs. Johnson at San Francisco, who is leaving there today for the east to meet her husband.

This news will be greeted with much pleasure by a host of Klamath Falls friends, who are aware of the brilliant work this officer has done at the head of a huge army of engineers toward bringing the war to a successful termination and who will be proud to welcome him on his return. Although the Johnsons now reside in San Francisco they spend much of their time here where Colonel Johnson has big business interests and it is hoped that the officer will make a visit here at an early date.

A War Stamp a day keeps the Kaiser away.

Knitting Directions For Red Cross Socks

The importance of having all goods sent out by the local chapter in accordance with the rules of the Red Cross and important suggestions relative to how these garments should be prepared to increase the comfort of the soldiers, is received in a letter just received by the supervisor of knitting here from the Northwestern headquarters at Seattle. It follows:

To the Supervisor of Knitting, Klamath Chapter, A. R. C.:
When a chapter attains a place upon the roll of honor for any department it means an added responsibility for the supervisor of that department. The Red Cross both in this country and abroad, wherever your boxes may go, depends upon you to see that they contain garments properly made and packed, and correctly counted.

A greater responsibility rests with the supervisor of knitting than with the supervisors of other garments in one respect—workmanship. Other departments are not likely to vary from the required size, as garments are furnished them already cut, while in knitted garments there may be as many sizes as there are knitters.

Three things should always be considered in knitting articles—the comfort of the soldier, the wearing qualities of the articles, and economy of wool. In order that only satisfactory work may be packed, some re-knitting may be necessary at the chapter work room, but this should be reduced to a minimum. If unsatisfactory work is sent in by branches or auxiliaries, it should be returned for changes. An experienced knitter who willfully follows her own way should be asked to make necessary changes herself.

It is essential that articles conform to the well considered and proved dimensions as prescribed by National headquarters, and super-

visors should follow rules faithfully but wisely. Extremely small or large articles should not be passed on the vague chance that some one may be found who can wear them.

We wish to address a special plea to all supervisors and inspectors of socks to make a very strenuous and earnest effort to see that not a single pair of socks shall pass their chapter which does not fulfill the requirements in all essential points which are laid down by the Red Cross rules, and which we should certainly by this time have mastered.

There is a good and special reason for each and every rule, and we are going to hope and expect that these rules in all essential points will be observed.

We receive many thousands of pairs of fine and very perfect socks, but at the same time we do receive far too many which never should have passed the chapters.

Will you see that no socks pass your chapter, no matter how well done, if colored yarn has been used in the tops and has run after being washed? We ask that no yarn be used in stripes except white and shades of gray.

Will you see that the thread runs down lengthwise of the narrowing when finishing the Kitchener toe, and not across the toe?

Will you see that the wool is split and not tied into a knot? The strap and triangular heels are equally acceptable.

Will you see that no socks less than 10 1/4 inches in length of foot are accepted; and that both socks of a pair are of equal length, and that all are nicely washed and pressed?

Careful observance of the above suggestions should place most of our chapters on the honor roll for socks, and make our soldiers happy and comfortable in their use.—Clara E. Walker, Superintendent of Knitting.

- Edward Sture, Knappa, missing in action.
- Norrvin R. Walters, Phoenix, missing in action.
- John P. Tobin, Enterprise, wounded severely (marine corps).

CAMP LEWIS LIFE IS NOT HALF BAD

Henry V. Brown, who returned to Klamath Falls from Camp Lewis last night, reports that the big cantonment camp is being emptied of its vast ranks, at a rapid rate these days. Arrangements are being made there now, he says to care for and train the wounded men who will be brought from the battlefields of France. These men will be kept there until they are entirely able to go out and take care of themselves in a capable manner. The life of a training soldier at Camp Lewis is not half bad, according to Mr. Brown.

STORAGE WAREHOUSE
The Farmers Warehouse is now under new dispensation. It is on Sixth street, and is cement. No fire; no freeze; no mud. Store anything but livestock. If you want to keep it bring it to me. Winter car storage a specialty. \$2 per month. Make reservation now. Box 521. Phone 222W. M. F. PARKER, Lessee. 12-31

Send your mail order to K. K. K. Store for Christmas goods or anything in clothing and footwear. They guarantee satisfaction and pay all postage and express charges. 61

Have you noticed how cheap you can buy a good overcoat at the big sale at the K. K. K. STORE. 6-12

STRAYED
From Swan Lake about August or September, one black mare, 2 years old, with white spot in forehead, branded AO over bar on left shoulder; one black horse, 2 years old, with same mark on face and same brand, also branded CL on hip and wire mark on shoulder; one Holstein heifer branded AO over bar on top of right hip. Notify Jas. W. Edwards, Klamath Falls. 12-31

TOO LATE TO CLASSIFY
WANTED AT ONCE—PLANERMAN FOR LOW SPEED MACHINE. DORRIS LUMBER & BOX CO. DORRIS, CALIF. 12-8

FOR RENT—January 1st, store formerly occupied by Gertrude & Co. corner Sixth and Main. Apply E. E. Smith Realty Co. 12-31

Two Points To Remember ABOUT The New Edison

There are many sound reproducing devices on the market. There is but one which is associated with the name of a great inventor.

There are many sound reproducing devices about the merit of which strong assertions are made. There is but one which has ever offered to PROVE the truth of its claims.

The only instrument which bears the stamp of a great inventor's name—the only instrument which has been subjected to the searching test of actual comparison with the artist's living voice is

The New Edison

"The Phonograph With a Soul"

The makers of the New Edison assert that it RE-CREATES the artist's voice or instrument with such complete fidelity that no human ear can distinguish the artist from the RE-CREATION. Then they proceed to prove it by subjecting the instrument to the acid test of direct comparison with the living artist. More than 1,500 of these tests have been conducted. Invariably the result has proved the truth of this claim. Why has no other device been subjected to this test?

Come to our store at any time and we will demonstrate the reason.
