

Reconstruction Work Up to Legislatures

SAN FRANCISCO, Cal., Dec. 17.—The first two weeks of the new year will see the opening of the legislatures of the Rocky Mountain and Pacific coast regions. Reconstruction programs are the general order and legislation to be submitted concerning had to do with the future from war to peace conditions.

Bills having to do with reconstruction will engage the attention of Wyoming, New Mexico, Washington, Utah, and Colorado which anticipate a considerable activity in this direction.

The returned soldier will have the attention of the majority of the state legislatures wherein provisions will be made for him both in the matter of employment and for the care of those crippled and incapacitated.

California, Wyoming, New Mexico will grapple with the matter of prohibition which is expected to take on a considerable of the tax making time. Wyoming is expected to give precedence to statutes relating and

DRAFT SYSTEM IN THE FUTURE SEEMS CERTAIN

NEW YORK, Dec. 17.—Taps to the volunteer system of raising a million in wartime by the United States has been sounded here tonight by Major General Enoch H. Crowder, provost marshal general in an address to the retiring members of 189 New York draft boards.

He earnestly advocated that the selective service should become the permanent method

WOUNDED YANKS GET GOOD CARE BY GOVERNMENT

NEW YORK, Dec. 17.—November's ending of the pendulum of history from war to peace, which reversed the outward flow of America's fighting millions—the greatest trans-Atlantic troop movement ever known—brought the American people face to face with the tragedy of the casualty list.

General Pershing's announcement that more than 58,000 of the Expeditionary Force, had given their lives in the nation's cause and that 14,000 others, exclusive of prisoners, were missing, created a profound impression, but the human touch of almost 100,000 wounded, 16,000 of whom already have been returned in various stages of helplessness to their native shores, promises to give the country its first real appreciation of the sacrifices of its sons who followed the flag on foreign soil.

The method of their debarkation denies to the homecoming wounded the popular honors paid their comrades in full health. But the War Department, operating along lines intended to give the lie to the proverbial "merit badge of Government," has arranged for medical, recreation and educational attention whose aim is to restore these maimed heroes as fully as possible, to physical comfort and financial independence.

From the day of their arrival at New York or Newport News, the ports of debarkation, to their re-entrance into civilian life, a host of Good Samaritans—army doctors, nurses, and orderlies and workers of the American Red Cross—will minister to these sufferers from a ruthless enemy's engines of war. Harbor hospital boats, debarkation hospitals, hospital trains and general hospitals for reconstruction or convalescence form a chain of service linking the westward bound fleets of transports with the homes of the wounded. And in this service the medical debarkation corps, suddenly thrust into the foreground of publicity by the collapse of the Central Powers, plays an important and picturesque part.

The end of the war found the port medical authorities prepared to shoulder the heavy burden laid upon them. During nineteen months of American participation in the conflict they had maintained an embarkation hospital service, treating the comparatively rare cases of illness among troops ready to go overseas. When American forces entered the trenches small groups of wounded, evacuated from hospitals in France, began to filter thru the service on this side of the Atlantic. With this experience accentuated by the lessons of the Allied Governments in repatriating their wounded, the debarkation system was put in readiness for the reception of injured men at the rate of 10,000 to 15,000 a month.

During the war and a five weeks' period following the signing of the armistice, approximately 11,500 wounded had been received at New York and 4,500 at Newport News. And the authorities were prepared, on official advice from Washington to handle 50,000 cases in the next four months.

JUVENILE COURTS OF U. S. TO BE COPIED

DENVER, Colo., Dec. 17.—England and France may send social missions to the United States for the study of juvenile court practices and a plan suggested by Judge Ben B. Lindsey of the juvenile court of Denver, Judge Lindsey proposed the interchange of workers while he was in France.

The adoption of the plan is practically assured according to word received by the judge, and Mademoiselle Bertillon, daughter of the noted French criminologist, author of an identification system of that name is expected to come from France. Judge Lindsey intends to send Miss Josephine Roche, an officer of his court to France in return. She will be attached to a French court and Mademoiselle Bertillon will be made an officer of the juvenile court here.

Mademoiselle Bertillon's visit to Denver is made possible by Countess Jacques de Bryas who raised a fund in Paris to pay the expenses of her trip.

MARINES ARE IMMUNE FROM THE EPIDEMIC

BOSTON, Dec. 17.—Experiments undertaken by the navy department at the navy public health service hospital on Gallipoli Islands to ascertain the cause and spread of influenza have had merely negative results according to a report given out. One hundred volunteers who have been under observation for several weeks, have had influenza germs placed in their nostrils and throats and have eaten them with their food and some have been inoculated with serums but no cases of the disease have developed thus far.

Increased appetite and more vigorous health have been the only noticeable results of the experiment, according to the physicians.

The purpose of the National War Savings committee is to create an army of savers who will by saving, release labor and materials for the use of the government in the war, and who will lend their savings to the government to prosecute the war.

TESTIMONY IN FRANCE BOUNDARY CASE COMPLETE.

EL PASO, Texas, Dec. 17.—The taking of testimony in the New Mexico-Texas boundary case, which began six years ago, ended here December 2.

The transcript of the testimony, which covers about 6,000 typewritten sheets, is to be sent to the clerk of the United States supreme court at Washington, D. C. Attorneys estimate that it will be necessary to make thirty-six copies of the testimony before it is ready for submission to the court.

The case resulted from the shifting of the Rio Grande between Anthony, N. M., and El Paso. The river had been named as the original boundary line. Several thousand acres of land are in dispute, and both states have granted titles to them, in many cases to different claimants.

The Elephant Butte dam now has stabilized the line of the Rio Grande.

Disproving "Shirt Sleeves to Shirt Sleeves" Theory

W. K. VANDERBILT, JR., ALFRED H. SMITH.

William Kisan Vanderbilt, Jr., great-grandson of Commodore Cornelius Vanderbilt, founder of the New York Central railroad system, has just been elected president of the company. Thereby, he has disproved, in so far as his family is concerned, the theory about American millionaire families, that the grandfather earns the fortune in his shirt sleeves, the son spends it, and the grandson, in poverty, must begin again in his shirt sleeves. The present Vanderbilt family has more wealth than the old commodore ever dreamed of.

Alfred H. Smith, former president of the railroad company, has become regional director of railroads under Director-General MAdoo, and he now has authority of many miles of several great systems, including the New York Central.

OIL KING SWEARS OFF HALF OF HIS TAXES

NEW YORK, Dec. 17.—John D. Rockefeller has sworn off \$5,000,000 of the \$10,000,000 which he was assessed for personal taxation. He declared he might have sworn off another \$1,500,000, but was willing to let the amount stand at \$5,000,000. The lack of ability to make any inventory of the personal possessions of Rockefeller made it practically obligatory on the part of the assessors to accept his own valuation.

BE PRETTY, TURN GRAY HAIR DARK

TRY GRANDMOTHER'S OLD FAVORITE RECIPE OF SAGE TEA AND SULPHUR

Almost everyone knows that Sage and Sulphur, properly compounded, brings back the natural color and lustre to the hair when faded, gray or streaked. Years ago the only way to get this mixture was to make it at home, which is messy and troublesome. Nowadays, by asking at any drug store for "Wyeth's Sage and Sulphur Compound," you will get a large bottle of this famous old recipe, improved by the addition of other ingredients for about 50 cents.

Don't stay gray! Try it! No one can possibly tell that you darkened your hair, as it does it so naturally and evenly. You dampen a sponge or soft brush with it, and draw this through your hair, taking one small strand at a time; by morning the gray hair disappears, and after another application or two, your hair becomes beautifully dark, glossy and attractive.

Wyeth's Sage and Sulphur Compound is a delightful toilet requisite for those who desire dark hair and a youthful appearance. It is not intended for the cure, mitigation or prevention of disease.—Adv.

MEAT CAUSE OF KIDNEY TROUBLE

TAKE SALTS TO FLUSH KIDNEYS IF BACK HURTS OR BLADDER TROUBLES

If you must have your meat every day, eat it, but flush your kidneys with salts occasionally, says a noted authority who tells us that meat forms uric acid which almost paralyzes the kidneys in their efforts to excrete it from the blood. They become sluggish and weaken, then you suffer with a dull misery in the back, aching headache, dizziness, stomach sour, tongue is coated and the weather is bad you have rheumatic twinges. The urine gets cloudy, full of sediment, the channels often get sore and irritated, obliging you to seek relief two or three times during the night.

To neutralize these irritating acids, to cleanse the kidneys and flush out the body's urinous waste get four ounces of Jad Salts from the pharmacy here, take two table-spoonfuls in a glass of water before breakfast for a few days and your kidneys will then set fine. This famous salt is made from the acid of grapes and lemon juice combined with lithia, and has been used for generations to flush and stimulate sluggish kidneys, also to neutralize the acids in urine so it no longer irritates, thus ending bladder weakness.

Jad Salts is inexpensive; cannot injure, and makes a delightful effervescent lithia-water drink.—Adv.
